FOREWORD

The Cattle Situation Report presents the industry situation in terms of volume and value of production, supply and disposition, number of heads slaughtered in slaughterhouses, and monthly average farmgate prices.

The Philippine Statistics Authority (PSA) disseminates the Cattle Situation Report annually, every March, with the previous year as the reference period. The report serves as a ready reference for PSA's various clients and stakeholders in the agriculture sector.

The PSA would appreciate comments and suggestions from our data users and readers for further improvement of this report.

DENNIS S. MAPA, Ph.D.
Undersecretary
National Statistician and Civil Registrar General

TECHNICAL NOTES

The data in this report are collected by the Philippine Statistics Authority (PSA) through the two major surveys, namely:

- 1) Backyard Livestock and Poultry Survey (BLPS) which covers one of the four replicate samples of the Palay Production Survey (PPS) and Corn Production Survey (CPS). BLPS consists of 15,864 sample households in 1,560 sample barangays nationwide; and
- 2) Commercial Livestock and Poultry Survey (CLPS) which covers 696 cattle farms as of January 2020.

Both surveys are conducted simultaneously every quarter in all provinces.

Another activity that supplements the statistical requirements of the livestock and poultry subsector is the Compilation of Data from Slaughterhouses and Poultry Dressing Plants (CDSPDP). This covers around 1,324 licensed to operate meat establishments (AAA and AA) and Locally Registered Meat Establishments (LRMEs) nationwide. It is undertaken in coordination with the National Meat Inspection Service (NMIS) and Local Government Units (LGUs).

Concepts and Definitions

Commercial farm - a farm or establishment/enterprise that raises livestock and poultry animals. Moreover, it must satisfy at least one of the following criteria:

- Tending at least 21 heads of adult and zero head of young;
- Tending at least 41 heads of young adult; or
- Tending at least 10 heads of adult and 22 heads of young.

All livestock and poultry raisers that did not satisfy the above criteria were considered as **Backyard Farm**.

Deaths/Losses refer to the number of animals that died due to pests, diseases, and calamities.

Farmgate price refers to the price received by raisers for their produce at the location of farm. Thus, the marketing costs such as the transport and other marketing cost (if any) incurred in selling the produce is not included in the farmgate prices.

Inventory refers to the actual number of domesticated animals present in the farm as of a specific reference date.

TECHNICAL NOTES -- *Concluded*

Imports refer to the number of live animals originating from foreign country, i.e., live breeders and Feeders and meat importation compiled by the Trade Statistics Division (TSD) of PSA from the copies of Import Entry and Internal Revenue Declaration collected from the Bureau of Customs (BOC).

Locally Registered Meat Establishment (LRME) includes slaughterhouses, meat processing plants, meat cutting plants and cold storages that are allowed to operate by the city/municipal government but are not accredited by the NMIS.

Retail price refers to the price at which retailers sell their goods or commodities to consumers in the marketplace. It is expressed in peso per kilogram.

Slaughterhouse (SH) refers to the premises that are approved and registered by the NMIS and LGUs in which food animals are slaughtered for human consumption.

Slaughtered in slaughterhouses refers to the number of animals slaughtered in licensed to operate meat establishments (AAA, AA) including number of animals slaughtered in LRMEs.

Supply and disposition refer to a framework that explains the population dynamics of animals in the farm. This includes born live, imports, deaths and losses, number of animals slaughtered in the farm/household and sold live for slaughter.

Value of production refers to the value of the animal with reference to its farmgate price. It is derived by multiplying the volume of production by its farmgate price.

Volume of production refers to the volume of locally-raised animals disposed for slaughter which include animals shipped out for slaughter. This is expressed in thousand metric tons, liveweight.

HIGHLIGHTS

1. Volume of Production

a. National

Figure 1. Volume of Cattle Production and Annual Growth Rate, Philippines: January-December 2018-2020^P

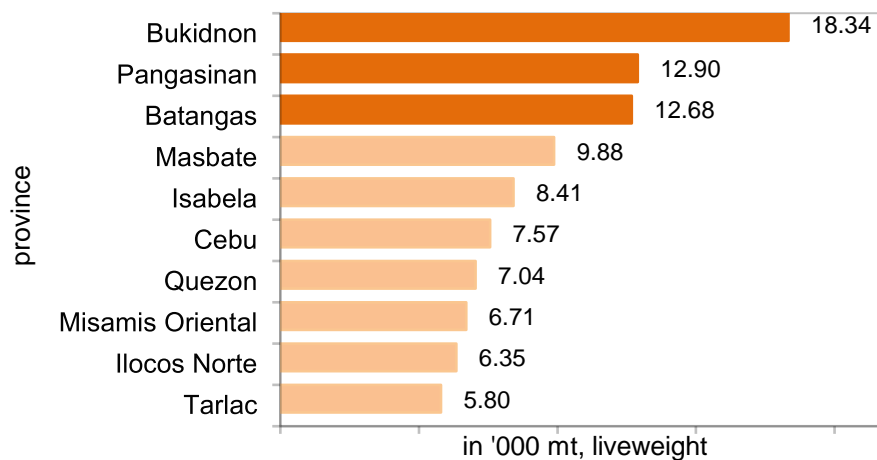

^P – Preliminary

Source: Philippine Statistics Authority

The total volume of cattle production in 2020 was 229.13 thousand metric tons, liveweight. This was -12.1 percent lower than the 260.62 thousand metric tons, liveweight, output in 2019. (Figure 1 and Table 1)

b. Provincial

Figure 2. Top 10 Cattle Producing Provinces
Philippines: January-December 2020^P

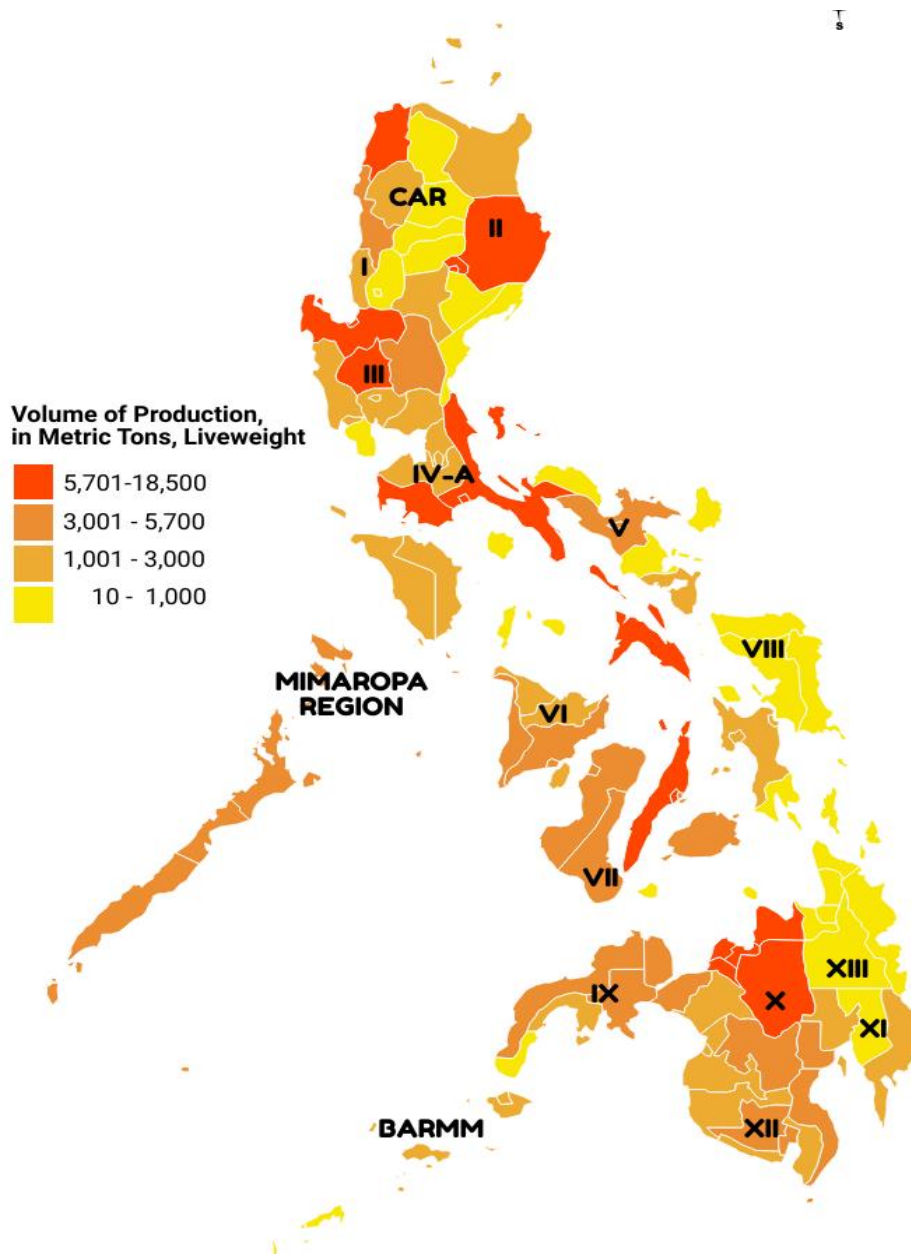

^P – Preliminary

Source: Philippine Statistics Authority

Among the provinces, Bukidnon was the highest producer of cattle in 2020 with a production of 18.34 thousand metric tons, liveweight. This was followed by Pangasinan with 12.90 thousand metric tons, liveweight, and Batangas with 12.68 thousand metric tons, liveweight. Completing the top 10 cattle-producing provinces in 2020 were Masbate, Isabela, Cebu, Quezon, Misamis Oriental, Ilocos Norte, and Tarlac. These provinces accounted for 41.8 percent of the country's total cattle production in 2020. (Figure 2 and Table 3)

Figure 3. Thematic Map of Volume of Cattle Production (by province)
Philippines: January-December 2020^P

2. Prices

a. Farmgate Price

Figure 4. Monthly Average Farmgate Price of Cattle for Slaughter
Philippines: January-December 2018-2020^P

^P – Preliminary

Source: Philippine Statistics Authority

The annual average farmgate price of cattle for slaughter in 2020 was PhP 122.15 per kilogram, liveweight. This was 8.5 percent higher than the annual average price of PhP 112.58 per kilogram, liveweight in 2019.

In 2020, the highest farmgate price of cattle for slaughter was recorded in December at PhP 128.32 per kilogram, liveweight, while the lowest was observed in March at PhP 118.58 per kilogram, liveweight. (Figure 4 and Table 4)

b. Retail Price

Figure 5. Monthly Average Retail Price of Beef Lean Meat, Philippines
January-December 2018-2020^P

^P – Preliminary

Source: Philippine Statistics Authority

The annual average retail price of beef lean meat in 2020 was PhP 319.37 per kilogram. This was 4.2 percent higher than the PhP 306.58 per kilogram retail price in 2019.

The highest retail price was recorded in December at PhP 335.55 per kilogram, while the lowest was in March at PhP 310.93 per kilogram. (Figure 5 and Table 5)

3. Value of Production

At current prices, the gross value of cattle production in 2020 was PhP 28.29 billion. This was -4.7 percent lower than the PhP 29.69 billion gross receipt in 2019.

At constant prices, the gross value of cattle production declined by -12.1 percent, from PhP 28.35 billion in 2019 to PhP 24.93 billion in 2020. (Table 6)

4. Supply and Disposition

The total supply of live cattle in 2020 was estimated at 3.39 million heads. It increased by 0.03 percent from the 3.39 million heads recorded in 2019. Imports of live breeders increased by 11.1 percent, from the 16.28 thousand heads in 2019 to 18.08 thousand heads in 2020.

Total disposition during the year was 809.72 heads. This was -9.4 percent lower than the 893.78 thousand heads in 2019. Death/Losses during the year declined by -19.5 percent, from 12.56 thousand heads in 2019 to 10.11 thousand heads in 2020. (Table 7)

5. Imports

The total volume of imported beef in 2020 was 89.45 thousand metric tons, a decrease of -13.2 percent from the previous year's record of 103.10 thousand metric tons. During the second quarter of 2020, the volume of imported beef decreased by -21.3 percent, from 24.90 thousand metric tons in the same quarter of 2019 to 19.59 thousand metric tons in 2020.

In 2020, the value of imported beef at USD 297.20 million was -14.5 percent lower than the USD 347.54 million gross receipt in 2019. The lowest value of imported beef was reported during April to June at USD 67.53 million. (Table 8)

STATISTICAL TABLES

Table 1. Volume of Cattle Production by Quarter, Philippines: 2018-2020^P

Quarter	Production (in thousand metric tons, liveweight)			Growth Rate (in percent)	
	2018	2019	2020 ^P	2019	2020 ^P
