

FOREWORD

The 2004 edition of the Selected Statistics on Agriculture is the fifteenth in the series published by the Bureau of Agricultural Statistics (BAS).

This edition incorporates the revised production estimates of a few commodities to reflect the results of the data review and analysis being conducted by the Bureau. To enhance the use of the *Selected Statistics on Agriculture*, we have not only maintained and updated the regular data items but we have also included the presentation of regional distribution of production of the following: palay, corn, sugarcane, coconut, pineapple, banana, mango and coffee for the crops subsector; carabao, cattle, swine, and goat for the livestock subsector; chicken, duck, chicken eggs and duck eggs for the poultry subsector: and marine fisheries, inland fisheries and aquaculture for fisheries subsector.

We are continually looking for ways to improve our information support service to the agriculture sector. We, therefore, enjoin our clients and stakeholders to bring to our attention comments or suggestions regarding this Handbook.

ROMEO S. RECIDE
Director

ACKNOWLEDGEMENT

Our appreciation and gratitude go to the following agencies for their cooperation and support in sharing with us their data: Agricultural Credit and Policy Council (ACPC), Asian Development Bank (ADB), Bureau of Animal Industry (BAI), Bangko Sentral Ng Pilipinas (BSP), Department of Budget and Management (DBM), Development Bank of the Philippines (DBP), Food and Agriculture Organization (FAO), Fertilizer and Pesticide Authority (FPA), National Food Authority (NFA), National Irrigation Administration (NIA), National Statistical Coordination Board (NSCB), National Statistics Office (NSO), Philippine National Bank (PNB), and Sugar Regulatory Administration (SRA).

EXPLANATORY NOTES

1. Unless otherwise indicated, year refers to calendar year.
2. As a rule, figures from source publications are copied to the extent possible. In some instances, however, figures were rounded-off or combined.
3. Figures may not add up to the totals due to rounding-off.
4. The following symbols and abbreviations are used in the tables:

---	Data not yet available
-	None
R	Revised
MT	Metric Ton
HA	Hectare
KG	Kilogram
GNP	Gross National Product
GVA	Gross Value Added
PDB	Private Development Bank
SMB	Savings and Mortgage Bank
SSLA	Stock Savings & Loan Association
BOP	Balance of Payments

5. Sources of data are the following:

ACPC	- Agricultural Credit and Policy Council
ADB	- Asian Development Bank
BAI	- Bureau of Animal Industry
BAS	- Bureau of Agricultural Statistics
BFAR	- Bureau of Fisheries & Aquatic Resources
BSP	- Bangko Sentral ng Pilipinas
CODA	- Cotton Development Administration
DBM	- Department of Budget and Management
DBP	- Development Bank of the Philippines
FAO	- Food and Agriculture Organization
FPA	- Fertilizer and Pesticide Authority
FIDA	- Fiber Industry Development Authority
NFA	- National Food Authority
NIA	- National Irrigation Administration
NSCB	- National Statistical Coordination Board
NSO	- National Statistics Office
SRA	- Sugar Regulatory Administration

OVERVIEW OF THE PHILIPPINE AGRICULTURAL ECONOMY

Economic Performance. Gross value of agricultural production grew by 3.77 percent in 2003. The sector's gross earnings amounted to P664.68 billion at current prices, up by 6.02 percent compared to the previous year. In terms of gross value added (GVA), the agriculture, fishery and forestry sector contributed 19.60 percent to gross domestic product (GDP).

Agricultural Structure. The recent Census of Agriculture (CA) recorded a total of 4.50 million farms in 2002. This was 2.36 percent less than the 4.61 million farms counted in the 1991 CAF. The 4.50 million farms were contained in 9.19 million hectares of agricultural land. Average farm size was 2.04 hectares devoted to crops, fruit trees, livestock, poultry and other agricultural activities.

Population, Labor Force and Employment. About 13.84 percent of the country's population were dependent on agriculture. The sector contributed 32.46 percent to the labor force. In 2003, agriculture employed 11.22 million persons representing 36.6 percent of total employment.

Trade. In 2003, export earnings from agriculture were placed at US\$ 2.31 billion or 6.38 percent of total Philippine exports. Coconut oil accounted for 21.84 percent of all agricultural exports and 1.39 percent of all exports. Expenditures for agriculture imports reached US\$ 2.96 billion or 7.94 percent of the country's aggregate imports. Wheat and meslin accounted for 14.17 percent of agriculture imports and 1.12 of total imports.

OVERVIEW (Con't.)

Agricultural Support. Expenditures in agriculture amounted to P27.37 billion in 2003 or 3.37 percent of the total government expenditures. Loans for agricultural purposes totaled P163.89 billion, 50.15 percent of which went to food production. The proportion of agricultural loans to total loans granted was 7.2 percent in 2003.

Prices. Average farmgate prices of agricultural commodities appreciated by an average of 2.17 percent in 2003. The crops subsector posted an average increase of 2.17 percent from the previous year's record. Price of palay went down by 0.46 percent while that of corn increased by 18.72 percent. The livestock subsector registered an increment of 3.31 percent. In particular, hog prices went up by 2.95 percent. Poultry prices increased by an average of 6.75 percent. The biggest increase of 9.25 percent was noted in the price of chicken. Prices in the fishery subsector went down by an average of 1.55 percent. Commercial fisheries and aquaculture prices were lower by 0.58 percent and 3.33 percent, respectively.

1/ 2001 to 2003 data on population were mid-year projections based on 1995 CPH.

2/ NSO based the population projection benchmark used in the Labor Force Survey (LFS) series on the 1995 Census of Population.

3/ Base year (1994) average agricultural wage per day = P80.55; 2003 indices covered only the first semester wage rates for palay (a) and corn (b).

4/ Weighted average rate under the Philippine Dealing System (PDS) starting August 4, 1992; sourced from BSP.

5/ Computed from CPI (base year = 1994); sourced from NSO.

6/ Based on sectoral revised classification, Department of Budget and Management. 2001- 2002 Actual Obligated Expenditures; Adjusted Agricultural Expenditures for 2003, Budget of Expenditures and Sources of Financing Yearbook, Fiscal Year 2004.

7/ Irrigation service area refers to area that is presently provided with irrigation and drainage facilities and where irrigation and drainage services could readily be rendered.

8/ Sourced from ACPC.

1/ - backyard

2/ - only Metro Manila reported

Explanatory Note:

Theoretically, the farm price for a specific product is lower than its corresponding wholesale and retail prices. Its retail price in turn is generally higher than its farm and wholesale prices. In this report, there is no one on one correspondence in the commodities monitored. Thus it will be uncommon to find a retail price will lower than wholesale price or a farm higher than wholesale price.
