A. TOTAL EXTERNAL TRADE AND BALANCE OF TRADE

1. Total external trade increased

In April 2022, the country's total external trade in goods amounted to USD 17.03 billion which indicates an annual growth rate of 16.2 percent. In the previous month, the annual increase was faster at 18.7 percent, while in April 2021, it grew by 114.7 percent. (Table A)

Of the total external trade in April 2022, 64.0 percent were imported goods, while the rest were exported goods.

2. Trade deficit posted an annual increase

Balance of trade in goods (BoT-G) is the difference between the value of export and import. BoT-G in April 2022 amounted to USD -4.77 billion, indicating a trade deficit with an annual increase of 54.1 percent. The trade deficit in the previous month recorded an annual increase of 81.5 percent, while in April 2021, it was at 1,555.8 percent. (Figure 1, Tables A and 2)

Figure 1. Philippine Export and Import Statistics
April 2021 and April 2022^p

B. EXPORTS

1. Sales from export posted a positive growth

The country's total export sales in April 2022, amounting to USD 6.13 billion, increased at an annual rate of 6.0 percent, from an increment of 5.9 percent in the previous month. In April 2021, total export sales grew at an annual rate of 74.1 percent. (Figures 1 and 2, Tables A and 2)

Figure 2. Year-on-Year Growth Rate (%) of Export
April 2019 to April 2022^p

p –preliminary
Source: Philippine Statistics Authority

Of the top 10 major commodity groups, seven recorded annual increases in terms of the value of exports, which was led by coconut oil (156.6%). This was followed by gold (53.0%), and other mineral products (51.0%). (Tables B and 3)

Table B. Year-on-Year Growth Rate of Value of Philippine Exports for Top Ten Major Commodity Groups: April 2022^p

Major Commodity Group	Annual Growth Rate (%)
Gainers	
1) Coconut Oil ^{1/}	156.6 ▲
2) Gold ^{2/}	53.0 ▲
3) Other Mineral Products	51.0 ▲
4) Cathodes and Sections Of Cathodes, Of Refined Copper	17.1 ▲
5) Bananas (Fresh)	9.0 ▲

2. Year-to-date annual total export increased

The year-to-date annual total export earnings, that is from January 2022 to April 2022, amounted to USD 25.55 billion. This represents an annual increase of 8.9 percent compared with the year-to-date annual total export value earned in January 2021 to April 2021. (Table 4)

3. Electronic products commodity group remained the highest on export sales

By commodity group, electronic products continued to be the country's top export in April 2022 with total earnings of USD 3.25 billion. This amount accounted for 53.0 percent of the total exports during the period. This was followed by other mineral products with an export value of USD 397.32 million (6.5%); and other manufactured goods which amounted to USD 292.42 million (4.8%). (Figure 3 and Table 3)

Figure 3. Philippine Top Five Exports by Commodity Group
April 2021 and April 2022^p

1/ - includes crude and refined

p – preliminary

4. Manufactured goods still comprised the biggest chunk of total exports among major types of goods

By major type of goods, exports of manufactured goods shared the biggest to the total exports in April 2022 amounting to USD 4.66 billion (76.1%). This was followed by mineral products with a share of USD 777.01 million (12.7%); and total agro-based products which contributed USD 571.15 million (9.3%). (Figure 4 and Table 5)

Figure 4. Philippine Exports by Major Type of Goods
April 2021 and April 2022^p

p – preliminary

5. Total export value of Personal Protective Equipment (PPE) and medical supplies decreased in April 2022

The total export value for Personal Protective Equipment (PPE) and medical supplies in April 2022 dropped to USD 0.79 million. This represents an annual decrease of -71.2 percent from its value in April 2021. The annual decrease in the export value for these medical items in the previous month was recorded at -39.9 percent, while in April 2021, it declined by -86.9 percent.

The annual decreases in export for surgical face mask at -72.5 percent and other face mask (non-surgical/non-medical masks including masks made of cloth) at -67.3 percent contributed to the downtrend of export value for PPE and medical supplies in April 2022.

Month-on-month, export value for PPE and medical supplies declined by -45.6 percent in April 2022, while in March 2022, it grew by 52.4 percent.

Contributing to the monthly decrement in the export value of PPE and medical supplies was the decrease in the export value of other face mask (non-surgical/non-medical masks including masks made of cloth, -73.7%). On the other hand, export value increased month-on-month for surgical face mask (8.7%). (Tables C and 7)

Table C. Philippine Exports of Personal Protective Equipment and Medical Supplies: April 2021, March 2022^r, and April 2022^p

Indicator	April 2021	March 2022 ^r	April 2022 ^p
Exports (FOB value in million USD)	2.74	1.45	0.79
Year-on-Year Growth Rate (%)	-86.9	-39.9	-71.2
Month-on-Month Growth Rate (%)	13.5	52.4	-45.6

6. People’s Republic of China contributed the highest export value

By major trading partner, exports to the People’s Republic of China comprised the highest export value amounting to USD 971.74 million or a share of 15.9 percent to the total exports during the month.

Completing the top five major export trading partners with their export values and percent shares to the total exports were:

- a. United States of America (USA), USD 955.17 million (15.6%);
 - b. Japan, USD 820.96 million (13.4%);
 - c. Hong Kong, USD 740.58 million (12.1%); and
 - d. Singapore, USD 419.82 million (6.9%).

7. Majority of exports were for APEC countries

By economic bloc, majority of the country's merchandise exports in April 2022 went to the Asia-Pacific Economic Cooperation (APEC) member countries with a share of USD 5.24 billion (85.5%) to total exports. This was followed by East Asia, valued at USD 2.98 billion (48.6%), and the Association of Southeast Asian Nations (ASEAN) at USD 1.14 billion (18.6%). (Figure 6 and Table 9)

C. IMPORTS

1. Import value increased

Total imported goods in April 2022, which amounted to USD 10.90 billion, increased at an annual rate of 22.8 percent. In March 2022, the annual increase was higher at 27.8 percent, while in April 2021, imports value grew by 153.2 percent annually. (Figures 1 and 8, and Tables A and 2)

Figure 8. Year-on-Year Growth Rate (%) of Imports
April 2019 to April 2022^p

p – preliminary
Source: Philippine Statistics Authority

The annual increment in the value of imported goods in April 2022 was due to the increase in eight of the top 10 major commodity groups which was led by mineral fuels, lubricants and related materials with 133.5 percent annual increase. This was followed by transport equipment which rose by 44.2 percent annually; and cereals and cereal preparations, 39.3 percent. (Tables D and 10)

Table D. Year-on-Year Growth Rate of Value of Philippine Imports for Top Ten Major Commodity Groups: April 2022^p

Major Commodity Group	Annual Growth Rate (%)
Gainers	
1) Mineral Fuels, Lubricants and Related Materials	133.5 ▲
2) Transport Equipment	44.2 ▲
3) Cereals and Cereal Preparations	39.3 ▲
4) Iron and Steel	21.9 ▲
5) Plastics in Primary and Non-Primary Forms	10.4 ▲
6) Other Food and Live Animals	4.1 ▲
7) Electronic Products	1.7 ▲
8) Telecommunication Equipment and Electrical Machinery 1/	1.1 ▲
Losers	
9) Industrial Machinery and Equipment	-4.6 ▼
10) Miscellaneous Manufactured Articles	-2.9 ▼

1/ - includes telecommunications and sound recording and reproducing apparatus and equipment

2. Year-to-date annual total import value grew

The year-to-date annual total import value, that is from January 2022 to April 2022, amounted to USD 44.22 billion. This represents an annual increment of 26.7 percent from the year-to-date annual total import value of USD 34.90 billion in January 2021 to April 2021. (Table 11)

3. Electronic products accounted for the highest import value among commodity groups

Most of the imported goods were electronic products with an import value of USD 2.56 billion or a share of 23.5 percent to the total imports in April 2022. This was followed by mineral fuels, lubricants and related materials, valued at USD 2.01 billion (18.5%); and transport equipment which amounted to USD 916.80 million (8.4%). (Figure 9 and Table 10)

Figure 9. Philippine Top Five Imports by Commodity Group, April 2021 and April 2022^p

p – preliminary
Source: Philippine Statistics Authority

4. Imports of raw materials and intermediate goods contributed the highest among types of goods

By major type of goods, imports of raw materials and intermediate goods accounted for the largest share to the total imports amounting to USD 4.28 billion (39.3%) in April 2022. Imports of capital goods ranked second with a share of USD 2.94 billion (27.0%), followed by mineral fuels, lubricants and related materials with USD 2.01 billion (18.5%).

Imports of mineral fuels, lubricants and related materials recorded a positive annual growth of 133.5 percent from its value in the same month of the previous year. Contributing to the annual increment in this commodity group was the increase in the import value of petroleum products used to run motor vehicles (*includes diesel fuel and fuel oils, light oils and preparations, and aviation turbine fuel*) with a value of USD 1.37 billion. (Figure 10 and Table 12)

Figure 10. Philippine Imports by Major Type of Goods
April 2021 and April 2022^p

5. Total import value of Personal Protective Equipment (PPE) and medical supplies including COVID-19 vaccine decreased in April 2022

The total import value for Personal Protective Equipment (PPE) and medical supplies, including Coronavirus disease 2019 (COVID-19) vaccine, declined to USD 16.10 million in April 2022, indicating an annual decrement of -69.3 percent from its value in the same month of the previous year.

In April 2022, the total import for COVID-19 vaccine was valued at USD 2.44 million.

Annual growth rate of import value for PPE and medical supplies, including COVID-19 vaccine, was recorded at 458.0 percent in March 2022, while in April 2021, the annual increase was lower at 127.9 percent.

The annual decrements noted in the following items have decreased the total import value for PPE and medical supplies, including COVID-19 vaccine in April 2022:

- a. face shield (-95.6%);
- b. surgical face mask (-88.8%);

- c. protective clothing (-87.3%);
- d. COVID-19 vaccine (-82.6%);
- e. testing kits (-69.3%);
- f. other face mask (non-surgical/non-medical masks including masks made of cloth, -39.4%); and
- g. surgical gloves (-21.4%).

Meanwhile, import value increased year-on-year for safety headgear (187.9%).

Month-on-month, import value for PPE and medical supplies, including COVID-19 vaccine, declined by -93.8 percent in April 2022, while it registered an increase of 300.6 percent in the previous month.

Contributing to the monthly decrement in the import value of PPE and medical supplies in April 2022, including COVID-19 vaccine, were the decreases in the following:

- a. COVID-19 vaccine (-99.0%);
- b. surgical gloves (-50.3%);
- c. testing kits (-26.1%);
- d. other face mask (non-surgical/non-medical masks including masks made of cloth, -14.1%); and
- e. safety headgear (-10.1%).

On the other hand, import value of PPE and medical supplies in April 2022, including COVID-19 vaccine, increased month-on-month for face shield (3,913.0%), protective clothing (196.8%), and surgical face mask (46.8%). (Tables E and 14)

Table E. Philippine Imports of Personal Protective Equipment and Medical Supplies: April 2021, March 2022^r, and April 2022^p

Indicator	April 2021	March 2022 ^r	April 2022 ^p
Imports (FOB value in million USD)	52.45	260.35	16.10
Year-on-Year Growth Rate (%)	127.9	458.0	-69.3
Month-on-Month Growth Rate (%)	12.4	300.6	-93.8

p – preliminary, r – revised

6. People's Republic of China had the highest import value

The People's Republic of China was the country's biggest supplier of imported goods valued at USD 2.27 billion or 20.8 percent of the total imports in April 2022.

Completing the top five major import trading partners with their corresponding import values and percent shares to the total imports were:

- a. Republic of Korea, USD 1.20 billion (11.1%);
 - b. Indonesia, USD 1.01 billion (9.3%);
 - c. Japan, USD 922.55 million (8.5%); and
 - d. Singapore, USD 741.51 million (6.8%).

7. Imports came largely from APEC member countries

By economic bloc, APEC member countries were the biggest suppliers of the country's imported goods in April 2022 with a share of USD 9.45 billion (86.7%). This was followed by East Asia with an import

value of USD 5.14 billion (47.1%), and ASEAN with USD 3.21 billion (29.5%). (Figure 12 and Table 16)

National Statistician and Civil Registrar General

Explanatory Notes

Export and import trade statistics are compiled by the Philippine Statistics Authority (PSA) from export and import documents submitted to the Bureau of Customs (BOC) by exporters and importers or their authorized representatives as required by law.

The following are documents collected, either in electronic or hard copies:

1. Export Declaration (ED – DTI form);
2. Informal Import Declaration and Entry (BOC Form 177); and
3. Single Administrative Documents (SAD) for Export Declaration (ED) and Import Entry and Internal Revenue Declaration (IEIRD).

The electronic copies of all documents that pass thru the online system are provided by BOC, Philippine Economic Zone Authority (PEZA), and Value Added Service Providers (VASPs) to PSA on a monthly basis through email and via shared Google Drive.

The electronic copies of the Export Declarations (SAD-ED) from the Automated Export Documentation System (AEDS) of the BOC are being utilized to generate export statistics. The AEDS is a paperless transaction in lieu of the manual filling up of export documents.

Moreover, an electronic copy of the Import Entry and Internal Revenue Declaration (SAD-IEIRD) is utilized to capture the monthly import figures. The SAD-IEIRD is an import document submitted online either by brokers or companies. These are transactions that pass through the Automated Cargo Operating System (ACOS), now called the e2m (electronic to mobile) customs system, which is implemented through the BOC e-Customs Project.

All documents (hard copies and electronic files) received within the cut-off date, which is every 25th day of the month, are compiled, processed, summarized, analyzed, and disseminated through monthly statistical tables and press releases (PRs). Processing includes coding, editing, reviewing, and validating of results.

Preliminary results of export and import statistics are disseminated in the form of press release (PR). The PR is disseminated every 40th day after the reference month. However, if the 40th day falls on a Saturday, the release is made a day earlier (Friday). If it falls on a Sunday or Monday, the release is on Tuesday. Moreover, if the release date falls on a holiday, the date of release is moved accordingly. Preliminary results are posted on the PSA website (www.psa.gov.ph).

All documents received after the cut-off date are included in the generation of the revised results. The revised data of the previous month are reported during the release of the preliminary report of the current month. Revisions are made for the previous months until the annual report is released three months after the reference year.

The 2019 Philippine Standard Commodity Classification (PSCC) is used to classify the commodities at 10-digit code level for statistical purposes.

Data requests on export and import statistics can be made at the PSA, Economic Sector Statistics Service, Trade Statistics Division with telephone number (02) 8376-1975 or email address j.soliven@psa.gov.ph.
