Women	12.6	11.5	11.7	12.4	12.3	9.4	11.4	12.5	12.1

Notes: 1. Details may not add up to totals due to rounding.

2. Annualized data for 2015 refer to the average of the four survey rounds that exclude Leyte. These should not be compared with the 2014 annualized data as the latter exclude the January round.

The use of the four survey rounds for the 2015 annualized data was based on the results of a referendum conducted among members of the IAC on Labor and Productivity Statistics.

3. Starting April 2016 round, the Labor Force Survey (LFS) adopted the 2013 Master Sample Design as well as the population projections based on the 2010 Census of Population and Housing (2010 CPH) while the previous survey round used 2000 CPH as population projection benchmark.

4. Annualized data for 2016 was computed as the average of four survey rounds using the January 2016 round data that was based on the 2010 Census-based population projections.

^p Preliminary.
