- Notes: 1) The results of the 1999 APIS Provincial Ranking is not comparable with the 1998 APIS Provincial Ranking for Selected Poverty Indicators of the Bottom 40%.  
 2) The provinces are arranged based on the percentage of families meeting a particular MBN indicator or poverty correlate from highest to lowest. The province with the highest percentage of families meeting the MBN or were covered by the poverty correlate is ranked 1 and the province with the lowest percentage of families meeting the MBN or were covered by the poverty correlate is ranked 77.  
 3) Percent of families with children 6-12 years old in elementary is an indicator of ENABLING NEEDS.
