- Notes: 1) The results of the 1999 APIS Provincial Ranking is not comparable with the 1998 APIS Provincial Ranking for Selected Poverty Indicators of the Bottom 40%.
 2) The provinces are arranged based on the percentage of families meeting a particular MBN indicator or poverty correlate from highest to lowest. The province with the highest percentage of families meeting the MBN or were covered by the poverty correlate is ranked 77 and the province with the lowest percentage of families meeting the MBN or were covered by the poverty correlate is ranked 1.
 3) Percent of families with working children is an indicator of ENABLING NEEDS.
