AKLAN	58.5	38	SULU	17.5	77
DAVAO ORIENTAL	58.2	39			

- Notes: 1) The results of the 1999 APIS Provincial Ranking is not comparable with the 1998 APIS Provincial Ranking for Selected Poverty Indicators of the Bottom 40%.
 2) The provinces are arranged based on the percentage of families meeting a particular MBN indicator or poverty correlate from highest to lowest. The province with the highest percentage of families meeting the MBN or were covered by the poverty correlate is ranked 1 and the province with the lowest percentage of families meeting the MBN or were covered by the poverty correlate is ranked 77.
 3) Percent of families with married women 15-49 years old who were pregnant/lactating during the past 6 months and recipient of tetanus toxoid injection is an indicator of SURVIVAL NEEDS.
