CATTLE INDUSTRY PERFORMANCE REPORT

January - June 2015

September 2015

.....

EXPLANATORY NOTES

The semi-annual Cattle Industry Performance Report presents the industry situation in terms of inventory by farm type and age classification; volume of production; supply and disposition; and, monthly average farmgate, wholesale and retail prices.

This report is released every 30th of September covering January to June data of the current year as reference period.

The Livestock and Poultry data system of the Philippine Statistics Authority (PSA) is supported by two (2) major surveys, namely:

- 1) The Backyard Livestock and Poultry Survey (BLPS) which covers one (1) of the four (4) replicate samples of the Palay and Corn Production Survey (PCPS). It consists of 15,020 sample households in 1,079 sample barangays nationwide; and,
- 2) The Commercial Livestock and Poultry Survey (CLPS) on cattle covers 785 independent farms as of January 2015 updated list. A cattle farm is considered commercial when it has a farm capacity of at least 21 heads of adult cattle.

Both surveys are conducted in January and July simultaneously in all provinces.

Another survey that supports the statistical requirements of the livestock and poultry sector is the Survey of Slaughterhouses and Poultry Dressing Plants (SSHPDP)*. This covers around 1,387 Accredited (AAA and AA) and Locally Registered Meat Establishments (LRMEs) nationwide and is undertaken in coordination with the National Meat Inspection Service (NMIS).

*Formerly known as Survey of Abattoirs and Dressing Plants (SADP)

HIGHLIGHTS

- ❖ The total cattle inventory in the country as of July 1, 2015 was 2.54 million heads. This was 0.82 percent higher than last year's record of 2.52 million heads. Of the total inventory, about 2.38 million heads or 93.44 percent were raised in backyard farms. The remaining 6.56 percent or about 0.16 million head were raised in commercial farms.

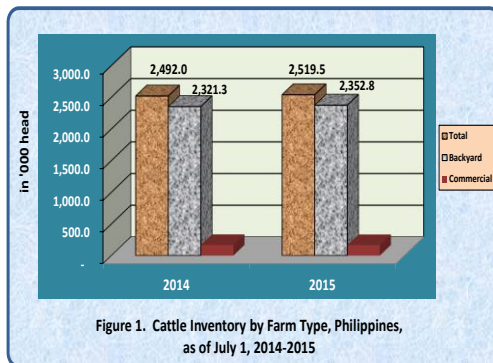

Figure 1. Cattle Inventory by Farm Type, Philippines, as of July 1, 2014-2015

- ❖ During the period January-June 2015, the total volume of production of cattle was 130.27 thousand metric tons for liveweight. It grew by 3.12 percent from last year's production of 126.33 thousand metric tons liveweight.

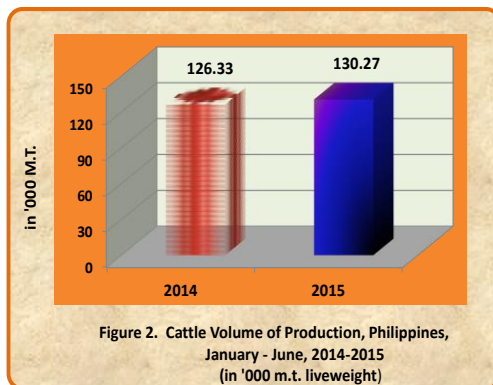

Figure 2. Cattle Volume of Production, Philippines, January - June, 2014-2015 (in '000 m.t. liveweight)

- ❖ The average farmgate price of live cattle during the first half of 2015 was Php92.62 per kilogram. This was 2.84 percent higher than the previous year's price of Php90.06. The average retail price of beef rump covering January to June 2015, was Php240.48 per kilogram or 0.31 percent higher than last year's record of Php239.74 per kilogram.

P-Preliminary

1/ As of Jan. 1

2/ No recorded imports

3/ Mortality due to pest and diseases

4/ As of July 1

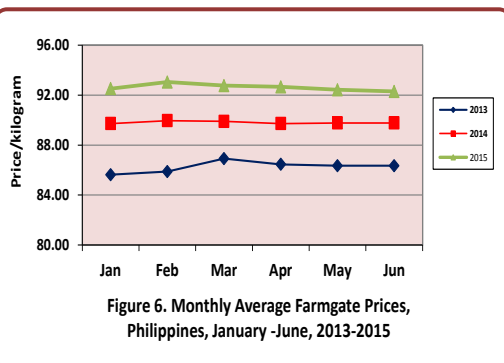

- ❖ The total supply of cattle during the first half of 2015 was 2.99 million heads. This was 1.08 percent higher than the previous year's record of 2.98 million heads.
- ❖ Total disposition of cattle during the period January-June 2015 was 444.91 thousand heads. This showed an increase of 2.58 percent compared with last year's record. The number of cattle slaughtered for meat during the first half of 2015 was 434.49 thousand heads or 2.91 percent higher than the 2014 level of 436.84 thousand heads.

PRICES

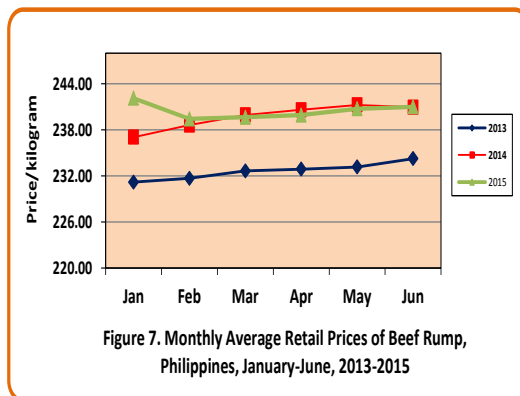

Farmgate Price

- ❖ The country's average farmgate price of live cattle during the first half of 2015 was Php92.62 per kilogram. This was 2.84 percent higher than the 2014 average price of Php90.06 per kilogram.

Retail Price

- ❖ The average retail price of beef rump during the first half of 2015 was Php240.48 per kilogram. This was 0.31 percent higher than last year's average price of Php239.74 per kilogram. The highest retail price was recorded in January at Php242.12 per kilogram and the lowest was in February at Php239.43 per kilogram.
