

# 2017 SURVEY ON INFORMATION AND COMMUNICATION TECHNOLOGY

## Final Results INFORMATION ECONOMY (Core ICT Industries)

### Information Economy (IE)

is a term used to describe the economic and social value created through the ability to rapidly exchange information at anytime, anywhere to anyone. A distinctive characteristic of the information economy is the intensive use, by businesses of ICT for the collection, storage, processing and transmission of information. IE is composed of the Information and Communication Technology Sector and Content and Media Sector.
