PRESS RELEASE

PSA introduces the SECPA e-Verification Mobile App

Date of Release: 08 August 2022
Reference No. 2022-300

To continuously provide excellent service to the public, the Philippine Statistics Authority (PSA) officially launched the PSA e-Verification Mobile App which enables the general public to validate the displayed information against the printed security paper (SECPA).

The PSA e-Verification Mobile App is a stand-alone system (can work offline) that is accessible on android devices only. It is encrypted through public-key encryption technology that confirms the authenticity of issued certifications and copies of civil registry documents by scanning the Quick Response (QR) code printed in the SECPA, which is now one of the
