The PSQ, which started in 1992, is spearheaded by the Philippine Statistics Authority and the Philippine Statistical Association, Inc. The Contest envisions appraising the students' competency and skills in statistics as acquired from high school curriculum. It also aims to assess the proficiency in statistics of college freshmen and to promote public awareness and appreciation on the significance of the field statistics. Realizing the noble cause of the competition, the Commission on Higher Education began endorsing the PSQ in 1994.

For more information on the 25th PSQ, please contact the PSQ Secretariat at (02) 8938-5269. You may also visit the PSA website at <http://www.psa.gov.ph/events/psq> or like us on Facebook at <https://www.facebook.com/PhilippineStatisticsQuiz/>.
