Welcome to the Philippine Food Security Information System (PhilFSIS)

The PhilFSIS Website is the major output of the project "Establishment of Philippine Food Security Information System" implemented by the Bureau of Agricultural Statistics. The project is funded by the Food and Agricultural Organization (FAO) of the United Nations. The PhilFSIS website will serve as a one-stop-shop web-based information system with the functionality to retrieve, analyze and share selected statistical data/indicators and other information related to food security in the Philippines at the national and sub-national levels.

Welcome to the National Database on Child Poverty

The National Database on Child Poverty is the major output of the project “Updating of the National Database on Child Poverty” implemented by the Philippine Statistics Authority with support from the United Nations Children’s Fund (UNICEF). The database will serve as a one-stop shop web-based information system on child poverty indicators and other related information in the country.

Statistical database on child poverty indicators based on available data sources

I. The PSA Websites

Advantage:

- ✓ **Having One website** per sector allows each user to focus on what they need

Disadvantages:

- ✓ Creates **confusion**
- ✓ **Too many** url websites to memorize and open
- ✓ **Difficult** to manage several websites

I. The PSA Websites
