**Notes:**

<sup>a/</sup> Actual data as of December 2015, or most recent available data. May not necessarily be year-end values

<sup>b/</sup> May either be the cumulative or incremental target value at the end of the Plan period

<sup>c/</sup> Agency accountable for delivering the outputs/achievement of outcomes

<sup>d/</sup> Lead agency responsible for reporting progress on indicator targets

<sup>e/</sup> Control of corruption captures perceptions of the extent to which public power is exercised for private gain, including both petty and grand forms of corruption, as well as "capture" of the state by elites and private interests.

<sup>f/</sup> The index measures the perceived level of public sector corruption in 178 countries and territories based on 13 expert and business surveys. The score ranges from 0-100, where 0 means that a country is perceived as highly corrupt and a 100 means that a country is perceived as very clean.

<sup>g/</sup> Regulatory quality captures perceptions of the ability of the government to formulate and implement sound policies and regulations that permit and promote private sector development.

<sup>h/</sup> The Global Competitiveness Report analyzes competitiveness along 12 pillars: institutions, infrastructure, macroeconomic environment, health and primary education, higher education and training, goods market efficiency, labor market efficiency, financial market development, technological readiness, market size, business sophistication and innovation.

<sup>i/</sup> Targets are conservative as RCS results are dependent on the views of the clients (general public); thus, survey in NCR/key cities may yield low results.

<sup>j/</sup> Government effectiveness captures perceptions of the quality of public services, the quality of the civil service and the degree of its independence from political pressures, the quality of policy formulation and implementation, and the credibility of the government's commitment to such policies.

<sup>k/</sup> Voice and accountability captures perceptions of the extent to which a country's citizens are able to participate in selecting their government, as well as freedom of expression, freedom of association, and a free media.

<sup>l/</sup> The OBI is based from the Open Budget Survey, which is a comprehensive analysis and survey that evaluates whether governments give the public access to budget information and opportunities to participate in the budget process at the national level. Score ranges from 1 to 100.

<sup>m/</sup> The targets are set only for the commission (central office) and does not include field offices that also conduct voter education in their respective areas.

<sup>n/</sup> Required means that the 1/4 or 25% NGO representation to the total number Local Development Council representation is satisfied.
