FOREWORD

The Philippine Statistics Authority (PSA) releases the First Quarter 2020 Performance of Philippine Agriculture. Starting this first quarter of 2020, the report has revision on the coverage of highlighted commodities/species for crops and fisheries and adopting a new base year 2018 from 2000. This is in line with the implementation of the overall revision and rebasing of the National Accounts of the Philippines (NAP).

The report covers all agricultural commodities, highlighting twenty-two (22) commodities for crops, nine (9) commodities for livestock and poultry, and twenty (20) species for fisheries. The performance of agriculture is described in terms of the sector's outputs which are valued at constant prices and at current prices.

The PSA welcomes comments and suggestions from its data users, clients and stakeholders for further improvement of this report.

PRESS RELEASE

Agriculture posts 1.2 percent decline in output in Q1 2020

Date of Release: 06 May 2020
Reference No. 2020-078

Agriculture posted a 1.2 percent decline in the first quarter of 2020 with crops and fisheries contributing to the contraction for the quarter. However, livestock and poultry both recorded increases in production.

Crop production, which accounted for 54.9 percent of the total agricultural output, decreased by 2.1 percent during the quarter. Palay and corn production went down by 3.6 percent and 3.4 percent, respectively.

Livestock inched up by 0.5 percent in output this quarter. It shared 17.9 percent to the total agricultural production. Hog production grew by 0.7 percent.

Production of poultry was 3.9 percent higher in the first three (3) months of 2020. It contributed 14.3 percent to the total agricultural output. All poultry commodities posted production increases during the quarter.

Fisheries, which contributed 12.8 percent to the total agricultural production, dropped by 5.2 percent during the first quarter of 2020. Most of the major species recorded lower production levels.

At current prices, the value of agricultural production amounted to PhP 441.2 billion, up by 3.4 percent from the previous year's level.

VALUE OF PRODUCTION IN AGRICULTURE AT CONSTANT 2018 PRICES (PERCENTAGE DISTRIBUTION)

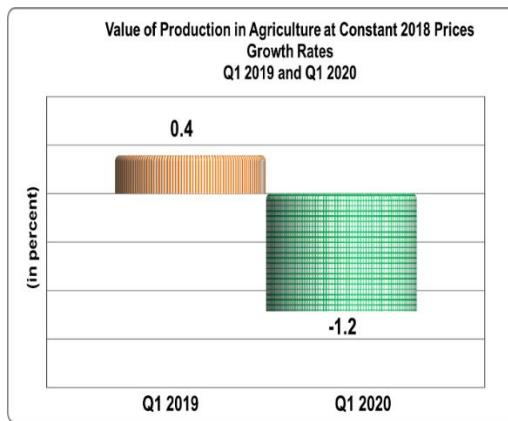

PERFORMANCE OF PHILIPPINE AGRICULTURE

PERFORMANCE OF PHILIPPINE AGRICULTURE FIRST QUARTER 2020

HIGHLIGHTS

In the first quarter of 2020, agriculture declined by 1.2 percent. This was attributed to the contraction in crops and fisheries production. On the other hand, livestock and poultry posted production increases during the period. At current prices, the value of agricultural production amounted to PhP 441.2 billion. This was higher by 3.4 percent from the previous year's level.

Crop production decreased by 2.1 percent. It shared 54.9 percent in the total agricultural output. Production went down for palay at 3.6 percent and corn at 3.4 percent. Output declines were registered for calamansi by 10.9 percent, eggplant by 6.4 percent, abaca by 5.7 percent, coconut by 5.1 percent, potato by 2.5 percent and banana by 2.4 percent. Lower production levels were also recorded in tomato, mango, tobacco and ampalaya. Cacao came up with higher production increment by 16.7 percent. Onion production grew by 7.3 percent. A 6.9 percent output growth was posted in sugarcane. Collectively, "other crops" production contracted by 0.8 percent. The value of crop production at current prices amounted to PhP 239.4 billion or 3.6 percent more this quarter compared to the previous year's record.

Livestock, which increased by 0.5 percent in output, contributed 17.9 percent to the total agricultural production. Production went up for hog by 0.7 percent and goat by 1.1 percent. Dairy exhibited a 9.3 percent growth in output. Downtrends in production were exhibited by carabao at 1.9 percent and cattle at 0.5 percent. At current prices, livestock production valued at PhP 75.7 billion was lower by 2.3 percent this quarter.

Poultry posted a 3.9 percent increment in output. It shared 14.3 percent in the total agricultural production. Chicken production grew by 3.3 percent while duck production inched up by 0.8 percent. Higher output increases were recorded for eggs by 5.8 percent for chicken and 3.6 percent for duck. At current prices, the value of poultry production amounted to PhP 62.9 billion, an expansion of 14.4 percent during the quarter.

Fisheries output, accounting for 12.8 percent of the total agricultural production, contracted by 5.2 percent. Among the major species, higher decreases in production were reported for tiger prawn by 31.1 percent, mudcrab by 18.2 percent, slipmouth by 11.2 percent and fimbriated sardines by 10.6 percent. Likewise, lower outputs were noted in tilapia, big-eyed scad, Indian mackerel, yellowfin tuna, seaweed, bigeye tuna, skipjack, frigate tuna, grouper, cavalla and roundscad during the quarter. Meanwhile, production of Bali sardinella and blue crab expanded by 13.7 percent and 14.5 percent, respectively. Milkfish production was up by 0.8 percent. Production of “other fisheries” dropped by 3.3 percent. The value of fisheries production at current prices amounted to PhP 63.3 billion, representing a 0.1 percent increase from the previous year’s record.
