

## Wage and Salary Workers Employed in Government/Government Corporations (Last of a five-part series)

*Class of worker or status in employment categorizes the total employed as a) wage and salary worker, b) employer in own family-operated farm or business, c) self-employed without any paid employee and d) unpaid family worker in own family-operated farm or business. The generally prevalent wage and salary workers comprise those employees working in private household for pay, private establishment, government/government corporation and those working in own family-operated farm or business and receives remuneration in any kind in the performance of their specific tasks.*

*This issue of LABSTAT Updates provides a summary of the demographic and economic characteristics of the wage and salary workers working for government/government corporations in 2010. Specific examples of these workers are employees of national government agencies and local government units, employees of government owned/controlled corporations and financial institutions, e.g., Government Service Insurance System, Social Security System, National Power Corporation, Bangko Sentral ng Pilipinas and civilian and military personnel and the Armed Forces of the Philippines (including chaplains, doctors, nurses and dentists). The data presented refer to the averages of the four survey rounds (January, April, July, October) of the Labor Force Survey (LFS) conducted by the National Statistics Office (NSO).*

*In 2010, persons working for government/government corporations numbered 3.025 million or 8.4% of the 36.035 million total employed in the Philippines.*

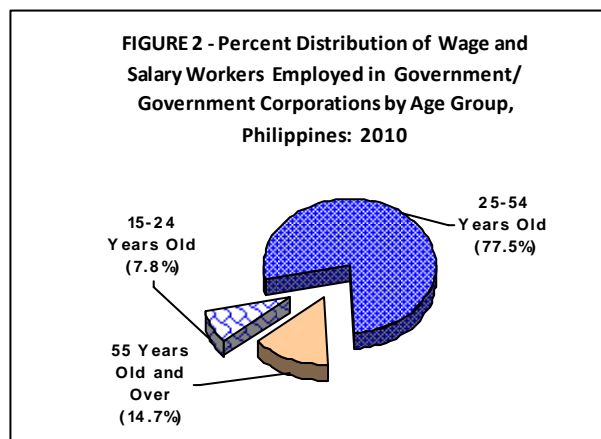

### Demographic Characteristics (Table 1)

- Out of the 19.626 million wage and salary workers in 2010, around 15.4% or 3.025 million were employed in government/government corporations nationwide.
- Relatively more women worked in government (51.2% or 1.550 million) than their men counterparts (48.8% or 1.475 million).

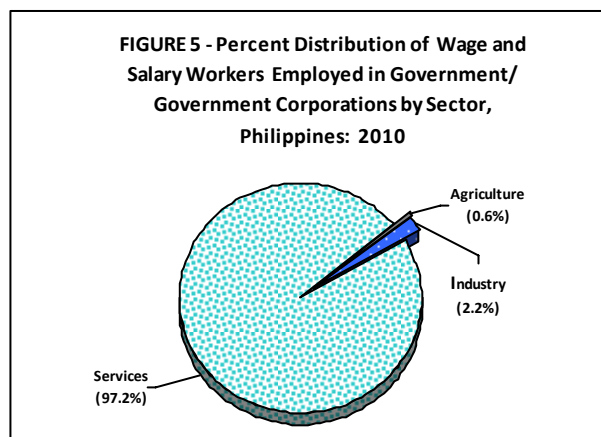

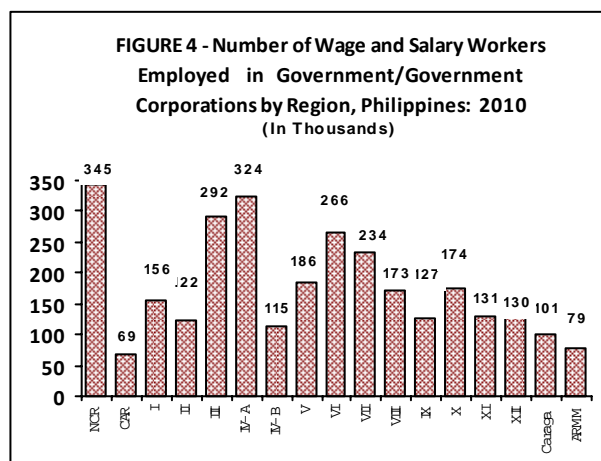

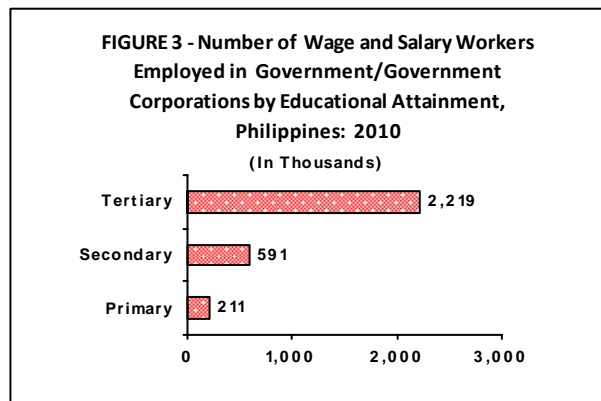

**Demographic Characteristics** (Cont'd)

- Workers in their prime age (25-54 years old) comprised 77.5% of the total employed. (Figure 2)
- Seven out of every 10 government workers (2.194 million or 72.5%) were married.
- Three (3) out of every 5 government employees (61.4%) were not heads of their respective households.
- Almost three-fourths (73.4% or 2.219 million) attained tertiary education while 19.5% (591,000) obtained secondary education. (Figure 3)
