# FOREWORD

Batas Pambansa Blg. 72 requires that a census of population be conducted every ten years. On this basis, the 1990 Census of Population and Housing was undertaken by the National Statistics Office. Pursuant to the same legislative act, the President of the Philippines, through Proclamation No. 688 dated February 12, 1991 declared the results of the census as presented in this report official for all purposes.

The results of the census are strategically used by many sectors. The size of population determines the number of representation in the House of Representatives by congressional districts. It is also the basis for redrawing congressional boundaries; for determining allocation of revenues for barangays, cities and municipalities; for creating and classifying various administrative geographic units; and, for many other political and administrative purposes.

To planners and government executives, the results of the census provide the basic information needed to effect an efficient and judicious allocation of government resources and services. To the general public, statistics from the census provide an understanding of the demographic, social, and economic characteristics of the Filipino people, knowledge which can help them chart their own destiny.

This report is one of many that will be prepared to disseminate the results of the 1990 Census of Population and Housing. In this report, which is published by province, the final count of the population and households for the province by city, municipality and barangay are presented.

The 1990 census would not have been successful had it not been for the services rendered by various entities, both private and public, and the cooperation of the general populace. To them the National Statistics Office extends its deep appreciation for their support in this most important undertaking. More specifically, the valuable assistance or contribution of the following is acknowledged:

- Department of Education, Culture and Sports for the involvement of over 55,000 public school teachers who served as enumerators and supervisors;
- Department of Social Welfare and Development for the enumeration of the homeless population;
- Department of Foreign Affairs for coordinating the enumeration of embassies, consulates and missions abroad;
- Department of National Defense for facilitating the enumeration of military camps and provision of transport facilities;

- ◆ the other members of the National Statistical Coordination Board for lending out their logistics during the field enumeration phases;
- ◆ the members of the Provincial and City/Municipal Census Boards, chaired by the governors and mayors, respectively, for assisting in the field operations;
- ◆ the barangay captains for soliciting the cooperation of their constituents and for certifying that a census has been conducted in their area;
- ◆ the print and broadcast media for the generous and wholehearted communication support;
- ◆ the church leaders who endorsed the project to their laity from the pulpit;
- ◆ and most of all, the over 10 million individuals for serving as respondents in the census interviews, for their unwavering support on the decennial census taking.
