COMMODITY
FACT SHEETS
10th Edition

Department of Agriculture
BUREAU OF AGRICULTURAL STATISTICS

FOREWORD

This is the 10th edition of Commodity Fact Sheets, an annual publication of the Bureau of Agricultural Statistics (BAS). As in the previous issues, this Report presents brief but comprehensive profiles of selected agricultural commodities in the Philippines. Contained in each single page are relevant information on a particular commodity such as hectarage, production, prices, trade and utilization. At a glance, therefore, a reader can readily gain general knowledge and form impressions about the commodity.

The report covers 32 commodities classified as food and non-food crops, livestock and poultry. Food crops include cereals, commercial crops, fruits and nuts, vegetables and rootcrops while non-food crops consist of abaca, tobacco and cutflowers. Livestock and poultry include cattle/beef, hog/pork and chicken. The reference period for historical averages is 1994-2003.

The BAS gratefully acknowledges the contribution of the National Statistics Office (NSO) which is the source of data on number of farms and foreign trade. Production and prices are outputs of the various surveys and monitoring activities of the bureau.

The BAS welcomes comments and suggestions for further improvement of this statistical report.

ROMEO S. RECIDE
Director

Chrysanthemum	33
Gladiola	34
Orchids	35
Roses	36
LIVESTOCK & POULTRY	
Hog/Pork	39
Cattle/Beef	40
Chicken	41

1. For production, volume is expressed in metric tons and value in pesos. Values are derived by multiplying the year's volume of production with the average farmgate price in the same year.
2. Major locations are the top producing provinces based on area of production.
3. Major producers are the top producing provinces based on volume of production.
4. Volumes for cutflower production (anthurium, chrysanthemum, orchids, gladiola and roses) are expressed in dozens.
5. Cutflowers (ALL) include anthurium, chrysanthemum, gladiola, orchids, rose and daisy. Other cutflowers such as aster, baby's breath, ilang-ilang, sampaguita and statice are not included due to lack of unit measurement.
6. Products for imports and exports are in fresh, prepared or processed forms.
7. Domestic consumption is the sum of net food disposable (NFD) and quantity made available for consumption. Values of commodities for processing and domestic consumption are derived using the average wholesale and retail prices, respectively.

8. The following abbreviations are used in the tables:

P	Peso
mt	Metric ton
kg	Kilogram
ha	Hectare

9. The sources of data are the following:

Number of Farms-1991 Census of Agriculture and Fisheries (CAF)

Area and volume of production of crops - Crops Statistics Division (CSD) of BAS

Population of cattle, hog and chicken- Livestock and Poultry Statistics Division (LPSD) of BAS

Farmgate, wholesale and retail prices- Agricultural Marketing Statistics and Analysis Division (AMSAD) of BAS

Imports and exports- National Statistics Office (NSO) and AMSAD

Domestic consumption- Supply and Utilization Accounts, Agricultural Accounts and Statistical Indicators Division (AASID)

CEREALS

PALAY/RICE

NUMBER OF FARMS

	2,387,084
Historical Average (1994-2003) :	3,852,977 has.
2003:	4,006,421 has.
Major Locations:	Nueva Ecija(6.1%), Iloilo(5.9%), Isabela (5.7%)

PRODUCTION (Palay)

Historical Average (1994-2003) :	11,608,750 m.t.
2003:	13,499,884 m.t.
Value:	P116,908.99 million
Major Producers:	Nueva Ecija (8.2%), Isabela (7.3%), Pangasinan (5.9%)

YIELD

Historical Average (1994-2003) :	2.68 m.t./ha.
2003:	3.37 m.t./ha.
