FOREWORD

Once again, as our commitment to the national development agenda through continuous generation, production and dissemination of timely, relevant and useful products and services, we, at the National Statistical Coordination Board (NSCB) present the 2007 Philippine Statistical Yearbook (PSY).

The PSY is one of our major publications which serves as a guide to data users in the formulation of plans, programs and policies and analytical studies both in the government and private sectors, the academes and the nation as a whole. It is also intended to serve the quest for information by clients in the digital economies of the global community.

Every chapter of the PSY starts with a brief introduction which explains the coverage and the data sources. It presents in time-series, historical information about the country's social and economic environment. It also contains data that are disaggregated in different dimensions and includes a glossary of terms that provides the definition of selected statistical terminologies not widely understood by the general public.

The 2007 Edition has data on 19 sectors/subject areas of general interest to meet the needs of a wide range of data users. For this edition, we are featuring the summary tables from the Statistical Indicators on Philippine Development 2006 (StatDev Philippines) which is an instrument formulated and maintained by the NSCB to strengthen the planning system by providing the means by which economic progress and social change can be monitored and measured more effectively. The StatDev Philippines is a statistical indicator system to monitor the achievements of the economic, social and environmental development goals set forth in the Medium-Term Philippine Development Plans (MTPDP).

In our desire to be more effective in serving the needs of the users for statistical information, we look to our readers as important partners in the annual publication of the PSY. We therefore encourage you to write, call or email your comments and suggestions for the improvement of the PSY.

We also deeply acknowledge the unwavering support, cooperation and goodwill of our partners in the PSS. With them, we share the pride of bringing statistics to all stakeholders in the development of our nation.

ROMULO A. VIROLA
Secretary General

October 2007

NSCB Publications

Regular Publications

Economic and Social Statistics and Indicators (National)

- Philippine Statistical Yearbook

Other NSCB Products and Services

Products

1. Statistical policies and measures to resolve specific issues and provide policy directions in the Philippine Statistical System (PSS)
2. The Philippine Statistical Development Program (PSDP) to serve as blueprint of priority programs and activities to be undertaken to improve the PSS in the Medium Term
3. National Accounts and related economic accounts to assess the economic performance of the country thru the following:
 - National Accounts
 - Regional Accounts
 - Input-Output (I-O) Accounts
 - National Health Accounts
 - National Education Accounts
4. Other social and economic indicators
 - Poverty statistics
 - Environment statistics
 - Food balance sheet
 - Indicators on children and women
 - Gender and development statistics
 - Quarterly economic indices
 - Foreign direct investments
 - Leading economic indicators
 - Economic and social impact analysis indicators
 - Human development index
5. Standards and classification systems to prescribe uniform standards in government statistics
 - Philippine Standard Occupational Classification (PSOC)
 - Philippine Standard Commodity Classification (PSCC)
 - Philippine Standard Industrial Classification (PSIC)
 - Philippine Standard Geographic Code (PSGC)
 - Philippine Standard Classification of Education (PSCED)
 - Philippine Classification of Commodities by Broad Economic Categories (PCCBEC)
 - Philippine Central Product Classification (PCPC)
6. Statistical publications to disseminate the most relevant information produced by the PSS and to make statistics more accessible to the public

Services

1. Maintenance of a one-stop statistical information center
2. Monitoring of designated statistics
3. Coordination of subnational statistical system
4. Coordination of inter-agency concerns on statistics
5. Survey review and clearance
6. On-line statistical service through the internet (www.nscb.gov.ph)
7. Servicing data requests
8. Technical services
9. Advocacy for statistical awareness
 - National Statistics Month
 - National Convention on Statistics
 - Government Statistics Accessibility Program
 - Hosting of international conferences in statistics

Aquaculture		55,672		49,170	13.2
5. Livestock and poultry production (thousand metric tons)	2006		2005		
Livestock (Liveweight)		2,292		2,241	2.3
Poultry (Liveweight)		1,252		1,265	(1.0)
Egg		380		374	1.8
6. Value of livestock and poultry (million pesos)	2006		2005		
Livestock (Liveweight)		155,372		154,618	0.5
Poultry (Liveweight)		84,458		82,466	2.4
Egg		25,775		23,807	8.3
Chapter 6. INDUSTRY					
1. Index of value of production of key manufacturing enterprises by industry	2006		2005		
Food		256.9		250.6	2.5
Beverages		205.1		188.8	8.6
Tobacco		236.5		232.4	1.8
Wearing apparel		55.6		73.4	(24.3)
Wood and wood products		87.0		91.8	(5.2)
Furniture and fixtures		55.4		72.3	(23.4)
Paper and paper products		158.8		174.2	(8.9)
Chemical and chemical products		195.3		183.4	6.5
Rubber products		350.8		360.3	(2.6)
Petroleum products		82.6		81.9	0.9
Non-metallic mineral products		393.2		382.1	2.9
Basic metals		155.0		161.8	(4.2)
Transport equipment		258.6		186.4	38.7
Electrical machinery		142.3		160.9	(11.6)
Miscellaneous		351.7		332.6	5.8
Miscellaneous		135.4		122.1	10.9
2. Number of newly registered corporations and partnerships	2006		2005		
Corporations		11,081		12,041	(8.0)
Partnerships		1,954		1,730	12.9
3. Capital increases & withdrawals of corporations & partnerships (million pesos)	2006		2005		
Increases		3,215		101,928	(96.8)
Withdrawals		64		542	(88.2)
Net effect		3,151		101,386	(96.9)

SUMMARY OF MAJOR STATISTICAL SERIES

Statistical series	Latest data		Compared to		Percent change
	Reference period	Value	Reference period	Value	
4. Amount of approved investments (million pesos)	2006	357,003.4	2005	231,234.5	54.4
Filipino		191,123.4		135,427.7	41.1
Foreign		165,880.0		95,806.8	73.1
Chapter 7. TRADE					
1. External trade (million US dollars)	2006		2005		
Exports		47,410		41,255	14.9
Imports		51,774		47,418	9.2
Balance of trade		(4,364)		(6,163)	(29.2)
2. Total exports (million US dollars)	2005	41,255	2004	39,681	4.0
Coconut products		821		555	47.8
Copra		-		*	-
Coconut oil		657		417	57.7
Dessicated coconut		127		100	27.5
Copra meal or cake		28		31	(9.7)
Others		8		8	7.2
Sugar and sugar products		81		79	2.8
Centrifugal and refined sugar		66		67	(1.5)
Molasses		14		11	21.5
Others		2		1	77.1
Fruits and Vegetables		660		601	9.8
Canned pineapple		110		89	23.4
Pineapple juice		16		14	18.0
Pineapple concentrates		35		33	6.5
Bananas		363		326	11.1

3. Number of firemen	2006	14,392	2005	14,421	(0.2)
4. Number of raids on drug incidents	2006	8,677	2005	10,720	(19.1)
5. Number of persons arrested on drug incidents	2006	11,535	2005	16,158	(28.6)
6. Inflow & Outflow of Cases	2006		2005		
Inflow		408,857		453,032	(9.8)
Outflow		437,936		484,028	(9.5)
7. Total population affected by major natural disasters	2006	11,920,429	2005	1,410,263	745.3
8. Budgetary appropriation for the Criminal Justice System (in million pesos)	2007	61,020	2006	54,949	11.0
Chapter 18. SCIENCE AND TECHNOLOGY					
1. Total patents granted	2006		2005		
Local inventors		599		691	(13.3)
Foreign inventors		1,443		1,967	(26.6)
2. Total trademarks registered	2006		2005		
Local inventors		5,227		3,334	56.8
Foreign inventors		8,058		7,143	12.8

Special Feature:
**THE STATISTICAL
INDICATORS ON PHILIPPINE
DEVELOPMENT 2006
(StatDev Philippines)**

Special Feature: THE STATISTICAL INDICATORS ON PHILIPPINE DEVELOPMENT 2006 (StatDev Philippines)

The **StatDev Philippines** is an instrument formulated and maintained by the NSCB to strengthen the planning system by providing the means by which economic progress and social change can be monitored and measured more effectively.

Specifically, the **StatDev Philippines** is a statistical indicator system to monitor the achievements of the economic and social development goals set forth in the Medium-Term Philippine Development Plans (MTPDP). Thus, the StatDev Philippines framework is necessarily congruent with the current MTPDP, and is revised each time a new plan is formulated.

Formerly known as the Economic and Social Indicators (ESI), the StatDev Philippines is presented in a new format: an easy-to-read and compact tracking of the Philippine development depicted through charts and short analyses. This makeover was undertaken by the NSCB as part of its continuing efforts to provide timely and relevant statistics for researchers, planners, decision-makers and the general public.

The indicators are compared with the medium-term development plan targets to determine the achievement of targets, thus, highlighting sectoral performance during the plan period. The sectoral chapters are:

1. Culture
2. Education
3. Financial Sector
4. Health Services
5. Housing Construction
6. Infrastructure
7. Labor
8. Peace and Order
9. Livelihood and Asset Reform
10. Power Sector Reforms
11. Rule of Law
12. Vulnerable Groups

The StatDev Philippines highlights the sectoral performance during the plan period based on the appropriateness of the list of indicators identified and the availability of data. Moreover, the implied performance within the sectors may or may not be attributed to the attainment of specific sectoral development programs invoked in the MTPDP.

The symbols  and  mean that targets are likely and not likely to be attained, respectively. The targets are likely to be attained if the data for a given period are already close to the targets or if the data depicted increasing trend which means there is greater likelihood that the targets will be reached at the end of the plan period. Otherwise, the targets are not likely to be attained.

1. Culture

Goal: To reduce poverty through education and youth opportunities

Improvements were noted in the mainstreaming of culture and development and in promoting sustainable heritage conservation approaches. However, initiatives in institutionalizing culture in education and in good governance and the promotion of culture and artistic development showed lackluster performance.

Strategy/Target	Indicator	Accomplishments versus Targets	Performance															
10 productions for TV, radio, film and theatre, and 10 infomercials by 2010	Number of productions for TV, radio, film and theatre, and infomercials <i>Source of data: NCCA</i>	<p>No. of infomercials and productions for TV, radio, film and theatre</p> <table><thead><tr><th>Year</th><th>Actual</th><th>Target</th></tr></thead><tbody><tr><td>2004</td><td>1</td><td></td></tr><tr><td>2005</td><td>4</td><td></td></tr><tr><td>2006</td><td>106</td><td></td></tr><tr><td>2010</td><td>10</td><td>10</td></tr></tbody></table>	Year	Actual	Target	2004	1		2005	4		2006	106		2010	10	10	Number of productions for TV, radio, film and theatre, and infomercials shoot up in 2006, exceeding the target

2. Education

Goal: To reduce poverty through improved education and youth opportunities

BASIC EDUCATION: Classroom-pupil ratio, textbook-pupil/student ratio, teacher-pupil/student ratio and the number of classrooms built were improving. On the other hand, performance indicators like net enrolment ratio, cohort survival rate and dropout rate showed very minimal improvements.

TECHNICAL VOCATIONAL EDUCATION AND TRAINING: Majority of the indicators improved but still below the targets.

HIGHER EDUCATION: Targeted number of higher education scholars was achieved before the target period. However, the proportion of faculty with master's and doctorate degrees were still below the targets.

Strategy/Target	Indicator	Accomplishments versus Targets	Performance															
BASIC EDUCATION																		
Net enrolment ratio at the elementary level will increase to 91.0% in SY 2004-2005 and 93.0% in SY 2009-2010	Net enrolment at the elementary level Source of data: DepEd	<p>Net enrolment ratio - elementary</p> <table><thead><tr><th>School Year</th><th>Actual (%)</th><th>Target (%)</th></tr></thead><tbody><tr><td>SY 03-04</td><td>88.8</td><td></td></tr><tr><td>SY 04-05</td><td>77.1</td><td>91.0</td></tr><tr><td>SY 05-06</td><td>73.5</td><td></td></tr><tr><td>SY 09-10</td><td></td><td>93.0</td></tr></tbody></table>	School Year	Actual (%)	Target (%)	SY 03-04	88.8		SY 04-05	77.1	91.0	SY 05-06	73.5		SY 09-10		93.0	Net enrolment ratio at the elementary level continued to decrease in SY 2005-2006 and still far from the target

SY 03-04	64.2																	
SY 04-05	64.9	73.0																
SY 05-06	62.6																	
SY 09-10		78.0																
Dropout rate at the elementary level will decrease to 5.5% in SY 2004-2005 and 4.3% in SY 2009-2010	Dropout rate at the elementary level Source of data: DepEd	<p>Dropout rate - elementary</p> <table><thead><tr><th>School Year</th><th>Actual (%)</th><th>Target (%)</th></tr></thead><tbody><tr><td>SY 03-04</td><td>8.9</td><td></td></tr><tr><td>SY 04-05</td><td>8.6</td><td>5.5</td></tr><tr><td>SY 05-06</td><td>9.3</td><td></td></tr><tr><td>SY 09-10</td><td></td><td>4.3</td></tr></tbody></table>	School Year	Actual (%)	Target (%)	SY 03-04	8.9		SY 04-05	8.6	5.5	SY 05-06	9.3		SY 09-10		4.3	Dropout rate at the elementary level declined slightly in SY 2004-2005 but increased in SY 2005-2006
School Year	Actual (%)	Target (%)																
SY 03-04	8.9																	
SY 04-05	8.6	5.5																
SY 05-06	9.3																	
SY 09-10		4.3																

Maintain a classroom-pupil/student ratio at an average of 1:50

Number of pupils/students per classroom at the elementary and secondary level

Source of data:
DepEd

Target for both levels was achieved before the target period. Number of pupils per classroom at the elementary level started to improve in SY 2005-2006

Maintain a 1:50 teacher-pupil/student ratio

Number of pupils/students per teacher at the elementary and secondary level

Source of data:
DepEd

Target was achieved as early as SY 2004-2005 for both levels. Number of students per classroom at the secondary level started to improve in SY 2005-2006

TECHNICAL VOCATIONAL EDUCATION AND TRAINING

Improve the competitiveness of Middle-Level Skills Development (MLSD)

Number of persons certified

Source of data:
TESDA

Number of persons certified further increased in SY 2006-2007 after a decline in SY 2005-2006

Increase the access of economically and disadvantaged groups to education and training

Number of PESFA slots

Source of data:
TESDA

Number of PESFA slots showed a slight decrease in SY 2006-2007 and still far from the target

HIGHER EDUCATION

Proportion of HEI faculty with Master's degree will increase from 30.0% to 60.0% by SY 2009-2010

Source of data: CHED

Proportion of HEI faculty with Master's degree

Below target performance for SY 2004-2005

Proportion of HEI faculty with Doctorate degree will increase from 9.0% to 18.0% by SY 2009-2010

Source of data: CHED

Proportion of HEI faculty with Doctorate degree

Performance in SY 2004-2005 still way below the target

3. Financial Sector

Goal: To increase Savings/GDP to 30% by 2010 through the development of financial market to an increase in investment ratio to 28% of GDP.

The financial sector has grown in the last three years as evidenced by the growth in its gross value added. However, there are still improvements to be done for the sector.

Strategy/Target

Indicator

Accomplishments versus Targets

Performance

Target for Savings to GDP ratio is 30% by 2010.

Source: NSCB

Savings to GDP ratio

Savings to GDP ratios from 2004-2006 constantly pegged at the 18 percent mark, still a long way towards target ratio.

Target for Investment to Investment to GDP GDP Ratio ratio is 28% by Source: NSCB 2010.

Investment ratios posted decelerated growths from 2004 to 2006, moving away from the target

Target for Inflation Rate is 4.5% for Source: NSO 2004-2006.

Inflation rate still short by 1.7 percent of the target by the end of the period

4. Health Services

Goal: To respond to the basic needs of the poor through improved health and nutrition status

During the last three years, efforts through several programs and services have been made towards the improvement of the health and nutrition status in the country. Based on some indicators, however, there are still a number of concerns that should be attended to for better health conditions of the citizenry.

Strategy/Target	Indicator	Accomplishments versus Targets	Performance																
Increase mean life expectancy to 71.2 years	Mean Life Expectancy (projections) Source: NSO	<p>Mean Life Expectancy</p> <table><thead><tr><th>Period</th><th>Male</th><th>Female</th><th>Target</th></tr></thead><tbody><tr><td>2000-2005</td><td>64.11</td><td>70.14</td><td></td></tr><tr><td>2005-2010</td><td>66.11</td><td>71.64</td><td></td></tr><tr><td>2010 target</td><td></td><td></td><td>71.2</td></tr></tbody></table>	Period	Male	Female	Target	2000-2005	64.11	70.14		2005-2010	66.11	71.64		2010 target			71.2	Based on projected data on mean life expectancy, target is likely to be attained by 2010 for females but not for males.
Period	Male	Female	Target																
2000-2005	64.11	70.14																	
2005-2010	66.11	71.64																	
2010 target			71.2																
Reduce infant mortality rate to 17/1000 livebirths	Infant Mortality Rate (IMR) Source: NSO	<p>Infant Mortality Rate</p> <table><thead><tr><th>Year</th><th>IMR</th></tr></thead><tbody><tr><td>1998</td><td>35</td></tr><tr><td>2003</td><td>30</td></tr><tr><td>2006</td><td>24</td></tr><tr><td>2010 target</td><td>17</td></tr></tbody></table>	Year	IMR	1998	35	2003	30	2006	24	2010 target	17	Infant mortality rate improved in 2006 and target is likely to be attained by 2010 						
Year	IMR																		
1998	35																		
2003	30																		
2006	24																		
2010 target	17																		

Reduce under-five mortality rate to 32.24/1000 livebirths	Under-Five Mortality Rate <i>Source: NSO</i>	Under five mortality rate improved in 2006 and meeting the target 
		
Reduce maternal mortality rate to 90/100,000 livebirths	Maternal Mortality Rate <i>Source: NSO</i>	Maternal mortality rate though slightly improving, might not reach the target by 2010 
		
Increase coverage of fully immunized children to 95% by 2010	Percentage of fully immunized children <i>Source: DOH</i>	Proportion of fully immunized children steady at 82 to 83 percent in the past three years and may not meet the target by 2010 
		
Reduce the prevalence of underweight children (0-5 years old) to 21.6% from 27.6%	Prevalence of underweight preschool children aged 0-5 years old <i>Source: FNRI</i>	Prevalence of underweight preschool children aged 0-5 years old still short of target in 2005 but trend indicates attainable target by 2010 
		
Increase access to safe water supply to 92 - 96%	Proportion of households with access to safe water supply <i>Source: DOH</i>	Proportion of households with access to safe water supply decreasing and way below target 
		

Increase access to sanitary toilet facilities to 86 - 91% of households with access to sanitary toilet facilities
Source: DOH

Proportion of households with access to sanitary toilet facilities increased in 2005 but still below target

5. Housing

Goal: To provide shelter security to Filipino households

The performance of the housing sector was quite sluggish in terms of production despite the improvements in delivery systems. The number of shelter security units constructed, financed and/or administered by the government has declined in the last three years. On the other hand, the number of licenses to sell issued for residential units has been above the target in each year and the number of days required for processing loan applications has been reduced by half.

Strategy/ Target	Indicator	Accomplishments versus Targets	Performance								
Provide housing to 1.1 million households valued at Php217.04 billion	Number of shelter security units constructed, financed and/or administered by the government <i>Source: HUDCC</i>	<p>Number of Shelter Security Units Constructed, Financed and/or Administered by the Government</p> <table><thead><tr><th>Year</th><th>Number of Units</th></tr></thead><tbody><tr><td>2004</td><td>171,688</td></tr><tr><td>2005</td><td>119,329</td></tr><tr><td>2006</td><td>105,143</td></tr></tbody></table>	Year	Number of Units	2004	171,688	2005	119,329	2006	105,143	Number of shelter security units constructed, financed and/or administered by the government on the decline since 2004
Year	Number of Units										
2004	171,688										
2005	119,329										
2006	105,143										
Reduce the number of days, processes and requirements for loan applications and housing permits	Number of days required for processing loan applications <i>Source: HDMF</i>	<p>NUMBER OF DAYS REQUIRED FOR PROCESSING LOAN APPLICATIONS</p> <table><thead><tr><th>Year</th><th>Number of Days</th></tr></thead><tbody><tr><td>2004</td><td>30</td></tr><tr><td>2005</td><td>15</td></tr><tr><td>2006</td><td>15</td></tr></tbody></table>	Year	Number of Days	2004	30	2005	15	2006	15	Number of days required for processing loan applications has been reduced by half from 2004 to 2006
Year	Number of Days										
2004	30										
2005	15										
2006	15										

6. Infrastructure

Goal: To improve the quality and adequacy of strategic infrastructure facilities

Strategy/Target	Indicator	Accomplishments versus Targets	Performance
Increase spending on infrastructure by Php 100 billion annually	Gross Value of Construction (in million Php) <i>Source: NSCB</i>		Total investment in Construction lower in 2005 compared to 2004, increasing in 2006 but still short of the target spending 
Increase allocation for maintenance of national roads from the PhP4.8 billion in 2004 to PhP13.5 billion by 2010 to fully meet computed needs: 45 % of 13.5 billion by 2005; 70% by 2007 and 100% by 2010	Budget allocation for maintenance of national roads and bridges. <i>Source: DPWH</i>		Amount for the maintenance of national roads and bridges on increasing trend until 2006 

7. Labor

Goal: To promote full, decent and productive employment for every Filipino worker

Based on the indicators, most of the targets are not likely to be attained. Good performance was evident for strike prevention rate, labor education seminars conducted and number of OFWs provided with social welfare and medical assistance.

Strategy/Target	Indicator	Accomplishments versus Targets	Performance
Employment preservation			
Strike prevention rate will be 94%.	Strike prevention rate <i>Source: NCMB</i>		Strike prevention rates from 2004 to 2006 already above the target set for the period 

Employment enhancement

Number of persons trained in maritime training programs

Number of seafarers/trainees trained
Source: NMP

Number of seafarers trained showed a decreasing trend

11,500 persons with disabilities (PWDs) and 600 occupationally disabled workers (ODWs) provided with training, employment or entrepreneurship assistance

Number of PWDs provided with training, employment or entrepreneurship assistance
Source: DSWD

Number of PWDs provided with training, employment or entrepreneurship assistance was on decreasing trend in the last three years.

Number of OFWs provided with social welfare and medical assistance under the OCSSP

Number of OFWs in crisis situations (victims of illegal recruitment and trafficking, physical, sexual, emotional abuses, etc.) provided with social welfare services and interventions under the International Social Welfare Services for Filipino Nationals (ISWSFN)
Source: DSWD

Number of OFWs provided with social services and interventions under the ISWSFN showed increasing trend, with a large increase in 2006

8. Peace and Order

Goal: To boost investment through enhanced peace and order

An ideal situation in terms of peace and order is expected to boost investment. It is unlikely that investors would venture in the country with an unstable peace and order situation. Therefore, it is inevitable to monitor the current status of our country in this context.

For the period 2004 to 2006, the following targets are not likely to be achieved : fill-up current shortage of PNP personnel, attain police-population ratio of 1:525 by 2010, and 1:500 by 2012, and solve 5% of unsolved cases. On the other hand, targets are likely to be achieved in terms of decreasing the incidence

Strategy/Target	Indicator	Accomplishments versus Targets	Performance												
Fill-up current shortage of PNP personnel by 2006 - 2010	Proportion of PNP positions filled up <i>Source: PNP</i>	<p>Proportion of PNP Positions Filled Up</p>  <table><thead><tr><th>Year</th><th>Proportion (%)</th></tr></thead><tbody><tr><td>2004</td><td>95.79</td></tr><tr><td>2005</td><td>94.34</td></tr><tr><td>2006</td><td>94.42</td></tr></tbody></table>	Year	Proportion (%)	2004	95.79	2005	94.34	2006	94.42	<p>A number of policemen still needed to fill up around 5% of the authorized PNP positions</p>

Year	Efficiency (%)														
2004	84.29														
2005	79.64														
2006	76.23														

9. Livelihood and Asset Reform

Goal: To respond to the basic needs of the poor through expansion of microfinance initiatives, more livelihood and entrepreneurship opportunities for the poor

Based on the indicators, number of institutions and the amount loaned for microfinance have increased in the last three years. Government efforts should improve to bring down poverty incidence and to increase the new microfinance borrowers.

Strategy/Target	Indicator	Accomplishments versus Targets	Performance																
Bring poverty incidence from 34% to 17%	Poverty incidence among the population <i>Source: NSCB</i>	<p>Poverty incidence among the population, 2000 and 2003</p> <table><tr><th>Year</th><th>Poverty Incidence (%)</th></tr><tr><td>2000</td><td>33</td></tr><tr><td>2003</td><td>30</td></tr><tr><td>target</td><td>17</td></tr></table>	Year	Poverty Incidence (%)	2000	33	2003	30	target	17	Poverty incidence among the population decreased from 2000 to 2003 but still far from target 								
Year	Poverty Incidence (%)																		
2000	33																		
2003	30																		
target	17																		
4.2 million new microfinance borrowers by 2010	Number of new microfinance borrowers <i>Source: PCFC, QUEDANCOR</i>	<p>Number of New Microfinance Borrowers, 2004 - 2006</p> <table><tr><th>Year</th><th>Number of Borrowers</th></tr><tr><td>2004</td><td>403,703</td></tr><tr><td>2005</td><td>313,510</td></tr><tr><td>2006</td><td>355,936</td></tr><tr><td>2010 Target</td><td>4.2 million</td></tr></table>	Year	Number of Borrowers	2004	403,703	2005	313,510	2006	355,936	2010 Target	4.2 million	New microfinance borrowers reached a total of 850,120 from 2004 to 2006 but still from the target

2004	42	101	2367																
2005	42	101	2367																
2006	42	183	4216																

10. Power Sector Reforms

Goal: Implement critical and strategic energy infrastructure to promote energy independence and strive to reduce electricity rates

The power sector reforms implemented need to be further pursued and imposed. The modest increase in geothermal capacity was compensated by the upswing in natural gas and hydropower plants. The target number of category A+ and A of electric cooperatives has already been surpassed in 2005. However, further reduction in distribution system loss still needs to be attained.

Strategy/Target	Indicator	Accomplishments versus Targets	Performance								
Increase geothermal capacity and new oil and gas discoveries	Generating capacity of geothermal and natural gas plants Source: DOE	<p>Installed Generating Capacity of Geothermal Plants</p>  <table><tr><th>Year</th><th>Power Generation (in MW)</th></tr><tr><td>2004</td><td>1,932</td></tr><tr><td>2005</td><td>1,978</td></tr><tr><td>2006</td><td>1,978</td></tr></table>	Year	Power Generation (in MW)	2004	1,932	2005	1,978	2006	1,978	Installed generating capacity of geothermal plants increased from 2004 to 2005 but did not change in 2006 
Year	Power Generation (in MW)										
2004	1,932										
2005	1,978										
2006	1,978										
	Power generation from geothermal plants Source: DOE	<p>Power Generation from Geothermal Plants</p>  <table><tr><th>Year</th><th>Power Generation (in Gwh)</th></tr><tr><td>2004</td><td>10,282</td></tr><tr><td>2005</td><td>9,902</td></tr><tr><td>2006</td><td>10,465</td></tr></table>	Year	Power Generation (in Gwh)	2004	10,282	2005	9,902	2006	10,465	Power generation from geothermal plants went down in 2005 but moved upwards in 2006 
Year	Power Generation (in Gwh)										
2004	10,282										
2005	9,902										
2006	10,465										
Lower the distribution system loss to 13% in 2005 and to a single digit system loss by 2010 (Electric Cooperatives)	Distribution system loss, level and percentage Source: NEA	<p>Electric Cooperatives' System Loss</p>  <table><tr><th>Year</th><th>System Loss (%)</th></tr><tr><td>2004</td><td>14.45</td></tr><tr><td>2005</td><td>14.28</td></tr><tr><td>2006</td><td>14.30</td></tr></table>	Year	System Loss (%)	2004	14.45	2005	14.28	2006	14.30	Electric cooperatives' system loss declined but still far from the target 
Year	System Loss (%)										
2004	14.45										
2005	14.28										
2006	14.30										

11. Rule of Law

Goal: To achieve holistic reforms in the criminal justice system

In terms of achieving holistic reforms in the criminal justice system, some targets were attained. Large amounts of money were saved by the government through the increasing number of cases settled at the barangay level. Reforms in the prosecution system are implemented as seen in the drop of prosecutor to case ratio. The outflow of cases in the Supreme Court have outpassed inflow in the three-year period.

Strategy/Target	Indicator	Accomplishments versus Targets	Performance								
Improved court and case management	Court-case disposition rate Source: SCP	<p>COURT-CASE DISPOSITION RATE</p> <table><tr><th>Year</th><th>Disposition Rate</th></tr><tr><td>2004</td><td>0.99</td></tr><tr><td>2005</td><td>1.07</td></tr><tr><td>2006</td><td>1.07</td></tr></table>	Year	Disposition Rate	2004	0.99	2005	1.07	2006	1.07	Number of cases resolved surpassed the inflow of new cases for the years 2004 to 2006
Year	Disposition Rate										
2004	0.99										
2005	1.07										
2006	1.07

1 POPULATION AND HOUSING

Chapter 1 presents the various demographic and housing statistics that are essential in the formulation, implementation and evaluation of population and housing policies of the government. The primary sources of population data are censuses and registration of vital events. Population censuses in the Philippines were undertaken by the National Statistics Office (NSO) on a more or less decennial basis until 1970 after which two mid-decade censuses were undertaken, namely: the 1975 and 1995 Census of Population (POPCEN). Three Censuses on Population and Housing (CPH) were conducted after 1970: 1980, 1990 and 2000. The latest was conducted in May 2000. The data on population provides a basis for the apportionment of the Internal Revenue Allocation (IRA) to local government units and for the creation of new legislative areas such as regions, provinces, municipalities, and barangays or the conversion of a municipality into a city.

This chapter also provides population projections for the country, by sex and by region, for the period 2000 to 2010 at medium assumption using the 2000 Census of Population and Housing as base population. The projections were prepared by the Inter-Agency Working Group on Population projections created by the NSO, and reviewed and endorsed by the NSCB Technical Committee on Population and Housing Statistics, and subsequently approved by the NSCB Board.

The sources of housing data are the NSO, the Housing and Urban Development Coordinating Council, and the Home Development Mutual Fund.

Statistics on migration to other countries, by country of destination, by age, by sex and by major occupational group are likewise presented as compiled by the Commission on Filipinos Overseas.

Also included in this chapter is the Human Development Index (HDI) by province prepared by the NSCB. The HDI is a composite index of achievements in basic human capabilities in three fundamental dimensions: long and healthy life, knowledge, and decent standard of living.

Olongapo City	194,260	179,754	193,327	156,430

^a In 2000, the population of disputed areas was reported in the next higher geographical level. For example, the population of Province A claimed by both Province A and Province B will be reflected in the region, but not in Province A nor Province B. This explains the discrepancy when one sums up the province details which is less than the regional totals.

^b Land area is based on the 2005 Estimated Land Area certified by the Lands Management Bureau.

Sources: National Statistics Office and Lands Management Bureau.

^a In 2000, the population of disputed areas was reported in the next higher geographical level. For example, the population of Province A claimed by both Province A and Province B will be reflected in the region, but not in Province A nor Province B. This explains the discrepancy when one sums up the province details which is less than the regional totals.

^b Land area is based on the 2005 Estimated Land Area certified by the Lands Management Bureau.

^c Created under Executive Order No. 103 dated May 17, 2002, dividing Region IV into Region IV-A (CALABARZON) and Region IV-B (MIMAROPA) and transferring the province of Aurora to Region III.

Sources: National Statistics Office and Lands Management Bureau.

Table 1.5
POPULATION OF THE PHILIPPINES
CENSUS YEARS 1799 to 2000

Year	Population	Average annual rate of increase (in percent)	Source of data
1799	1,502,574	-	Fr. Buzeta
1800	1,561,251	3.91	Fr. Zuniga
1812	1,933,331	1.80	Cedulas
1819	2,106,230	1.23	Cedulas
1829	2,593,287	2.10	Church
1840	3,096,031	1.62	Local officials
1850	3,857,424	2.22	Fr. Buzeta
1858	4,290,381	1.34	Bowring
1870	4,712,006	0.78	Guia de Manila
1877	5,567,685	2.41	Census
1887	5,984,727	0.72	Census
1896	6,261,339	0.50	Prof. Plehn's estimate based on census records
1903	7,635,426	2.87	Census
1918	10,314,310	2.03	Census
1939	16,000,303	2.11	Census
1948	19,234,182	2.07	Census
1960	27,087,685	2.89	Census
1970	36,684,486	3.08	Census
1975	42,070,660	2.78	Census
1980	48,098,460	2.71	Census
1990	60,703,206 ^a	2.35	Census
1995	68,616,536 ^a	2.32	Census
2000	76,504,077 ^a	2.36	Census

Note: Population from 1799 to 1896 excludes non-Christians.

^a Includes the household population, homeless population, Filipinos in Philippine Embassies/Consulates and missions abroad and institutional population who are found living in institutional living quarters such as penal institutions, orphanages, hospitals, military camps, etc. at the time of the census taking.

Table 1.6
SEX RATIO AND DEPENDENCY RATIO BY REGION
2000

Region	Sex Ratio	Dependency Ratio
Philippines	101.4	69.0
NCR National Capital Region	96.5	53.4
CAR Cordillera Administrative Region	103.9	70.7
1 Ilocos Region	100.8	68.4
2 Cagayan Valley	105.0	71.8
3 Central Luzon	101.5	64.5
4 Southern Tagalog	101.2	67.6
5 Bicol Region	104.3	83.2
6 Western Visayas	101.5	71.0
7 Central Visayas	100.4	71.2
8 Eastern Visayas	104.5	83.6
9 Western Mindanao	102.8	76.8
10 Northern Mindanao	103.5	73.1
11 Southern Mindanao	104.2	70.0
12 Central Mindanao	102.2	74.3
13 Caraga	104.6	79.9
ARMM Autonomous Region in Muslim Mindanao	97.3	74.0

Sex Ratio = (Total males/Total females) x 100.

Dependency Ratio = (0 to 14 years + 65 years and over)/Total of 15 to 64 years.

2005	114,856	25,643.0	43,229	2,128.3	12,710	621.4	53,421	20,638.3	5,496	2,255.0

¹ Includes resettlement, core housing units, slum upgrading, sites and services, emergency housing assistance program, medium rise housing, apartment/dormitory; National Housing Authority (NHA).

² Community Mortgage Program (CMP) takeouts only after 1996; CMP and Unified House Lending Program (UHLP) from 1990 to 1996; National Home Mortgage Finance Corporation (NHMFC)

³ Data refers to the number of residential units financed under the PAG-IBIG Mortgage and Developmental Financing Program; Home Development Mutual Fund (HDMF)

⁴ Guaranty Programs (retail guaranty line, developmental guaranty line, securitization, cash flow guaranty); prior to 2001, data included special projects and managed relocation projects and Medium Rise Buildings (MRBs), and self-aided housing; Home Guarantee Corporation

⁵ Shelter Security Units (SSU) refers to the number of lots, house and lot packages, and house only constructed, financed or administered by the government.

2 INCOME AND PRICES

Statistics on income and expenditures provide insight into the socio-economic status as well as consumption pattern of the population. The data are vital to planning in the evaluation of economic development and formulation of welfare-oriented policies. The data are also useful indicators in the analysis of the purchasing power of households, demand for goods and services, savings and other sources of domestic capital to finance local investments, impact of taxes, effects of inflation and other related concerns.

All income and expenditures data presented in this chapter are derived from the Family Income and Expenditures Survey (FIES) of the National Statistics Office (NSO). The FIES data are available for 1961, 1965, 1971, 1985, 1988, 1993, 1994, 1997, 2000 and 2003. As used in the FIES, a family is defined as a group of persons living together and composed of the head and other persons related to the head by blood marriage or adoption. This implies that they have a common arrangement for food and accommodation. A single person living alone is considered as a distinct family.

Family income includes primary income and receipts from other sources received by all family members during the calendar year, as participants in any economic activity or as recipients of transfers, pensions, grants, etc. On the other hand, family expenditures refer to the expenses or disbursements made by the family purely for personal consumption during the calendar year. They exclude all expenses in relation to farm or business operations, investment ventures, purchase of real property and other disbursements, which do not involve personal consumption. Gifts, support, assistance or relief in goods and services received by the family from friends, relatives and imputed rent of owner-occupied dwelling unit are included. Value consumed from net share of crops, fruits and vegetables produced or livestock raised by other households, family sustenance and entrepreneurial activities are also included.

The Philippine Government continues to emphasize poverty alleviation as part of its overarching goal. In response to this concern to reduce poverty, the National Statistical Coordination Board (NSCB) compiles the official poverty statistics pursuant to Executive Order No. 352 signed on July 1, 1996. Presently, all poverty statistics are being computed at the provincial level after the provincial poverty methodology was approved by the NSCB Executive Board during its meeting on January 15, 2003 through NSCB Resolution No. 1, Series of 2003. Included in this chapter are official poverty statistics at the provincial level, which consist of subsistence and poverty thresholds and incidence, magnitude of the poor, income gap, poverty gap, and severity of poverty, covering the years 2000 and 2003. Prior to this, official poverty statistics released by the NSCB were only available at the national and regional levels with urban-rural disaggregation.

Price statistics are also presented in this chapter. The data include the Consumer Price Index (CPI), General Retail Price Index (RPI), RPI for Selected Construction Materials, General Wholesale Price Index (WPI), WPI for Constructions Materials and Producer's Price Index (PPI).

The price data needed in the computation of the CPI are gathered through the monthly survey of retail prices of commodities conducted nationwide by the NSO and the Bureau of Agricultural Statistics (BAS). The CPI is presently based on 2000 prices and is available at the provincial, regional and national levels.

Both the General RPI and RPI for Selected Construction Materials are based on 1978 prices and available for National Capital Region (NCR) only. Its market basket contains the same food and non-food commodities included in the CPI, and with an expanded list for construction materials but excluding light, water, rentals, wages and other services items. The price data used in the RPI are the same as in CPI, and for the items not included in the CPI, a separate price survey is conducted every month in NCR by the NSO. The weights utilized for the RPI were computed based on the value of expenditures for goods and services of consumers for the retail sector as obtained from the 1974 Input-Output Table. These were then updated to 1978 levels through relative price movements.

Presently, the General WPI is based on 1998 prices and available by island group (Luzon, Visayas and Mindanao) while the WPI for Constructions Materials still based on the 1985 prices and is available for NCR only. The prices of commodities included in the market basket are gathered through the monthly survey of wholesale prices conducted by the NSO and BAS.

The other type of price index is the PPI which is for agriculture and manufacturing. For agriculture, the producer's prices of agricultural commodities are collected through the Farm Prices Survey of the BAS. The PPI for Agriculture has 1994 as its base year and its weights were based on the volume of agricultural production. In the case of PPI for manufacturing, the producer's prices of manufactured goods are gathered through the Producer's Price Survey of the NSO. The PPI for Manufacturing is 1994-based and the weights were computed using the value of products sold from the Annual Survey of Philippine Business and Industry (ASPBI) of the NSO.

The BAS is responsible for the collection of retail, wholesale and producer's prices of agricultural commodities while the NSO takes charge of gathering the prices of the other commodities that enter into the computation of the different price indices. The NSO processes and releases the CPI, RPI, WPI and PPI for manufacturing while the BAS processes and releases the PPI for agriculture.

Note: Details may not add up to totals due to rounding.

The 2003 FIES utilized the 2003 Master Sample which did not incorporate the urban and rural dimension in the survey design. Thus, no urban and rural estimates can be expected from the FIES starting 2003.

Note: Details may not add up to totals due to rounding.

The 2003 FIES utilized the 2003 Master Sample which did not incorporate the urban and rural dimension in the survey design. Thus, no urban and rural estimates can be expected from the FIES starting 2003.

^a revised.

^b final.

^c 2000 estimates do not include Isabela City.

^d 2000 estimates still include Zamboanga Sibugay

^e No separate estimate yet; still included in Zamboanga del Sur.

^f No separate estimate yet; still included in Basilan

^g 2000 estimates include Compostela Valley

^h No separate estimate yet; still included in Davao del Norte

ⁱ 2000 estimates include Isabela City

Notes:

1. Zamboanga Sibugay (Region IX) and Compostela Valley (Region XI) are new provinces created under EO 36 and EO 103.

2. Isabela City (Region IX) and Cotabato City (Region XII) have been separated from their respective mother provinces - Basilan and Maguindanao (both ARMM) under the present regional configuration.

^a revised.

^b final.

^c 2000 estimates do not include Isabela City.

^d 2000 estimates still include Zamboanga Sibugay

^e No separate estimate yet; still included in Zamboanga del Sur.

^f No separate estimate yet; still included in Basilan

^g 2000 estimates include Compostela Valley

^h No separate estimate yet; still included in Davao del Norte

ⁱ 2000 estimates include Isabela City

Notes:

1. Zamboanga Sibugay (Region IX) and Compostela Valley (Region XI) are new provinces created under EO 36 and EO 103.

2. Isabela City (Region IX) and Cotabato City (Region XII) have been separated from their respective mother provinces - Basilan and Maguindanao (both ARMM) under the present regional configuration.

* The Coefficient of Variation (CV), which measures the degree of precision of the estimates is more than 20 percent.

Values of all CV are available on the poverty page of the NSCB website (<http://www.nscb.gov.ph/poverty/default.asp>).

** No CV has computed since only one sample household was classified as poor.

^a revised.

^b final.

^c 2000 estimates do not include Isabela City.

^d 2000 estimates still include Zamboanga Sibugay

^e No separate estimate yet; still included in Zamboanga del Sur.

^f No separate estimate yet; still included in Basilan

^g 2000 estimates include Compostela Valley

^h No separate estimate yet; still included in Davao del Norte

ⁱ 2000 estimates include Isabela City

Notes:

1. Zamboanga Sibugay (Region IX) and Compostela Valley (Region XI) are new provinces created under EO 36 and EO 103.

2. Isabela City (Region IX) and Cotabato City (Region XII) have been separated from their respective mother provinces - Basilan and Maguindanao (both ARMM) under the present regional configuration.

* The Coefficient of Variation (CV), which measures the degree of precision of the estimates is more than 20 percent.

Values of all CV are available on the poverty page of the NSCB website (<http://www.nscb.gov.ph/poverty/default.asp>).

Source: National Statistical Coordination Board.

Notes: 1. Headline inflation rate measures changes in the cost of living based on movements in the prices of a specified basket of major commodities and refers to the year-on-year change in the CPI.

2. Core inflation is a measure of inflation that aims to capture the permanent component of the inflationary process that can be influenced by monetary policy .

3. Data are as of August 2007.

3 ECONOMIC ACCOUNTS

The economic accounts presented in this chapter quantify the magnitude of transactions taking place in the economy especially those relating to the production and consumption of goods and services, the inter-industry linkages and their transfer of income or capital between sectors of the economy. These accounts are better known as the national accounts and the input-output tables.

National accounts provide various users with a comprehensive description of the country's economic performance during a given period both at the national and regional level. First, the statistics give a measure of economic development for a particular period, both in current and in real terms, the rate of economic growth, and the pace of development given the country's population growth. Second, they portray whether the country's economic structure is predominantly agricultural or industrial. The accounts indicate which sector of the economy contributes greatly to the Gross National Product and which shows the greatest growth potential. Third, they present to economic planners, business executives, and the populace as a whole, a set of macroeconomic indicators which are essential in planning and decision-making. Fourth, they indicate the various uses of the nation's output by sector, by industry or by household, the distribution of the national income by type and source of income, and the disposition or expenditure of such income by sector. Summing up, national accounts present insights into the aggregate as well as sectoral performance of the economy for a given period that are necessary for policy formulation, planning and analytical purposes.

The input-output tables, on the other hand, describe the technological relations between physical inputs and outputs in the production process expressed in money terms. They reflect the total production of each industry as well as the final product of the economy as a whole. For each industry, the amount purchased from other industries is measured in relation to the industry's own production and the allocation of its output to other industries or sectors. The tables are useful for analytical purposes, as in price-cost analysis, and for measuring the input requirements of various industries based on estimates of final demand.

The major responsibility for the preparation of the national income accounts and the input-output tables is lodged with the National Statistical Coordination Board.

Table 3.12
GROSS DOMESTIC CAPITAL FORMATION IN DURABLE EQUIPMENT BY MAJOR TYPE
1992 to 2006
(In million pesos: at constant 1985 prices)

Type of equipment	1992	1993	1994	1995	1996	1997
Durable Equipment	76,094	82,292	91,658	93,701	102,654	112,065
A. Machinery specialized for particular industries	23,733	24,061	28,439	30,385	32,185	35,370
1. Agricultural machineries	254	290	378	356	413	575
2. Tractor other than steam	191	403	437	331	411	437
3. Mining and construction machineries	2,178	2,155	2,273	2,865	3,861	4,047
4. Textile machineries	2,248	2,473	2,999	2,914	2,329	2,392
5. Sawmill & logging machineries	71	68	67	69	135	153
6. Sugarmill machineries	51	17	31	87	76	22
7. Pulp and paper machineries	877	548	1,064	1,063	960	1,351
8. Metal working machineries	1,710	2,580	2,463	3,020	3,758	4,836
9. Telecommunications & sound recording/reproducing equipment	4,958	5,800	8,183	7,496	7,985	8,443
10. Other special industrial machineries	11,195	9,727	10,544	12,184	12,257	13,114
B. General industrial machinery and equipment	24,334	26,921	30,187	28,701	32,339	34,486
1. Aircon & refrigeration equipment	7,549	6,056	7,300	8,903	9,496	10,267
2. Pumps and compressor	1,918	2,561	2,568	3,407	4,419	4,796
3. Other electrical machinery and apparatus	4,322	7,684	8,365	4,711	4,129	3,780
4. Other general industrial machineries	10,545	10,620	11,954	11,680	14,295	15,643
C. Transport equipment	13,618	18,190	19,988	22,400	23,835	24,343
1. Road vehicles	8,740	14,266	13,941	18,623	20,869	19,647
2. Railway transport	156	16	1	279	58	55
3. Air transport	3,025	2,617	138	1,947	1,635	3,945
4. Water transport	1,697	1,291	5,908	1,551	1,273	696
D. Miscellaneous equipment	14,409	13,120	13,044	12,215	14,295	17,866
1. Office machines & data processing	2,783	1,772	2,606	6,807	8,269	10,760
2. Other misc. durable equipment	11,626	11,348	10,438	5,408	6,026	7,106

^a Data are as of May 2007.

4 ENVIRONMENT AND NATURAL RESOURCES

This chapter is concerned with statistics on environment and natural resources. The data included in this chapter are those on forest/forestry, land/soil, mineral/mining, water, wildlife and the environment.

The status of our natural assets, specifically forests, land/soil, mineral and water resources, are presented in physical and monetary terms called asset accounts. Environmental degradation and pollution brought about by selected economic activities are also presented in this chapter based on the estimates done by the environmental accounts unit of the National Statistical Coordination Board (NSCB).

Data on land classification are generated by the National Mapping and Resource Information Authority (NAMRIA) of the Department of Environment and Natural Resources (DENR) through various surveys. Forestry statistics such as production of forest products are compiled by the Forest Management Bureau (FMB) as by-products of its administrative and regulatory functions while the data on area reforested and forest destruction are generated by the DENR. Statistics on mineral production are obtained through the administrative reports submitted by the mining companies to the Mines and Geo-Sciences Bureau (MGB). Statistics on mineral reserves are also gathered by the MGB through its geological surveys.

Other indicators on environment that are presented in this chapter include the average concentration of total suspended particulates in the atmosphere, annual consumption of chlorofluorocarbons (CFCs) and annual average Dissolved Oxygen (DO) and Biological Oxygen Demand (BOD) concentration in rivers covered/passing through the National Capital Region which are generated by the Environmental Management Bureau (EMB) of the DENR. Also included are data on the Philippine fauna which are generated by the Protected Areas and Wildlife Bureau and data on the amount of rainfall compiled by the Philippine Atmospheric, Geophysical and Astronomical Services Administration (PAGASA) of the Department of Science and Technology (DOST).

5 AGRICULTURE AND AGRARIAN REFORM

To meet the food requirement of the fast growing population, it has become imperative to use current agricultural statistics that will provide a better picture of the country's food situation. The availability of agricultural statistics also serves as the basis for drawing up sound and relevant agricultural policy decisions of the government.

The Bureau of Agricultural Statistics (BAS), which is the agency mandated to provide official statistics for the agricultural sector, is the primary source of various statistics presented in this chapter. The data provided by BAS include time series data on agricultural area, quantity and value of production by kind of crop; quantity and value of fish production from aquaculture by type of culture; total inventory, production, quantity and value of livestock and poultry by kind and total number of animal slaughtered/dressed for meat production. Statistics on palay and corn production are generated by BAS through its Rice and Corn Production Survey while those on fisheries are generated through monitoring procedures. Livestock and poultry statistics are obtained from the results of the Backyard Livestock and Poultry Survey, the Commercial Livestock and Poultry Survey and the Monitoring of Animals Slaughtered/Dressed in Abattoirs and Dressing Plants which is conducted jointly by the BAS and the National Meat Inspection Commission (NMIC). The data on commercial fishing, municipal fishing both inland and marine quantity and value of fish production from 1971 to 1979 were collected and published by the Bureau of Fisheries and Aquatic Resources (BFAR). The BAS on the other hand generated data from 1980 onwards through its Survey on Commercial/Municipal Fisheries and the Aquaculture Production Survey. Meanwhile, the National Food Authority (NFA) is the source of rice and corn importation by country of origin.

Since fertilizer is an important input to agriculture, data on fertilizer are likewise included in this chapter. The data on production, importation and consumption of fertilizer are obtained from the Fertilizer and Pesticide Authority (FPA).

On agrarian reform, the Department of Agrarian Reform (DAR) generates data on land acquisition and distribution accomplishments and projection under the Comprehensive Agrarian Reform Program (CARP) by land type and by region.

Table 5.1	Agricultural Area, Quantity and Value of Production by Kind of Crop: 2004 to 2006	5-4
Table 5.2	Quantity and Value of Fish Production by Type of Fishing Operation: 1971 to 2006	5-5
Table 5.3	Quantity and Value of Fish Production from Aquaculture by Type of Culture: 1998 to 2006	5-6
Table 5.4	Quantity and Value of Livestock and Poultry Production by Kind: 1998 to 2006	5-6
Table 5.5	Total Inventory of Livestock and Poultry by Kind: 1991 to 2006	5-8
Table 5.6	Total Number of Animals Slaughtered/Dressed for Meat Production: 1991 to 2006	5-8
Table 5.7	Rice and Corn Stock Inventory and Supply/Use Estimates: 2001 to 2006	5-9
Table 5.8	Average Prices of Selected Agricultural Products: 1998 to 2006	5-10
Table 5.8a	Number and Area of Farms by Region: 1991 and 2002	5-12
Table 5.9	Rice Imports by Country of Origin: 1999 to 2006	5-13
Table 5.10	Corn Imports by Country of Origin: 1997 to 2006	5-14
Table 5.11	Production, Importation and Sales of Fertilizers: 2004 to 2006	5-15
Table 5.12	Importation of Fertilizers by Country of Origin: 2001 to 2004	5-17
Table 5.13	Land Acquisition and Distribution Scope and Accomplishment Under the Comprehensive Agrarian Reform Program by Region: As of December 2006	5-19
Table 5.14	Land Acquisition and Distribution Accomplishments Under the Comprehensive Agrarian Reform Program by Land Type and by Region: As of December 2006	5-20
Table 5.15	Number of Farms with other Agricultural Activities by Region: 1991 and 2002	5-20

Note: Details may not add up to total due to rounding.

¹ Includes production from commercial fishing vessels.

² Includes production from capture activities in various marine and inland (fresh) bodies of water such as lakes, rivers, etc.

³ Includes production from aquaculture activities such as brackishwater and freshwater fishponds, freshwater and marine fishpens, freshwater and marine fishcages, culture of oysters, mussels and seaweeds.

Explanatory Note:

Theoretically, the farm price for a specific product is lower than its corresponding wholesale and retail prices. Its retail price in turn is generally higher than its farm and wholesale prices. In this report, there is no one on one correspondence in the commodities monitored. Thus it will be uncommon to find a retail price will lower than wholesale price or a farm higher than wholesale price.

¹ For CY 2002, includes accomplishment under other fund sources, I.e., SONA 101

² This includes 293,365 hectares of CSCs distributed from 1983-1986 and includes the issuance of CBFMA which started in CY 1998.

* Accomplishment from DENR (1987-2006).

6 INDUSTRY

Data on the industrial sector provide vital information on the extent to which an economy has attained progress in its industrial development program. This type of information is relevant to developing countries like the Philippines because of the close and positive correlation between industrial development, on one hand, and overall economic and social development, on the other. The industrial sector leads the country in its thrust toward a more accelerated pace of development. By giving emphasis on the development of its indigenous industries, a country could broaden the base of its development, generate more employment opportunities for the populace, and expand aggregate production.

The major statistical tables presented are: general statistics for establishments of the different industries; selected characteristics of large manufacturing establishments by industry and number, floor area and value of private building construction, by type of building and by region; and index of value of production of key manufacturing establishments by industry.

Data on manufacturing were culled from the National Statistics Office (NSO) Census of Philippine Business and Industry (CPBI), Annual Survey of Philippine Business and Industry (ASPBI) and the Monthly Integrated Survey of Selected Industries (MISSI).

The Census of Philippine Business and Industry (CPBI) on Manufacturing is a nationwide collection and compilation of statistical information pertaining to the business operations of manufacturing establishments during the reference period.

On the other hand, Annual Survey of Philippine Business and Industry (ASPBI) on Manufacturing is a nationwide sample survey that gathers major types of data on manufacturing industries between censal years.

7 TRADE

Trade statistics are important to the policy-maker, the economic planner, the analyst and the public in general in that they characterize the overall position of the country vis-a-vis other countries or with the rest of the world, and gives an indication of how its trade relations with other countries affect its overall economic performance. Data on external trade are useful for assessing the effectiveness of various strategies such as export development, promotion and diversification, as well as import rationalization. On the other hand, data on direction of external trade reveal the extent of the country's market diversification activity which affects economic progress and stability.

The Bangko Sentral ng Pilipinas (BSP) compiled and released data on foreign trade until 1973, after which the National Statistics Office (NSO) became the sole agency responsible for the tabulation and release of said data. Trade data are compiled from copies of import and export entries submitted by importers and exporters or their authorized representatives to the Bureau of Customs (BOC).

Notes: 1. Details may not add up to totals due to rounding.

2. Exports include domestic exports and re-exports.

3. Starting August 4, 1992, the average exchange rate refers to the weighted average rate under the Philippine Dealing System (PDS).

¹ BSP buying rate.

² BSP selling rate.

^r revised as of August 2, 2005

8 TOURISM

This chapter presents key indicators/statistics on the Philippine tourism industry. Foremost of these statistics is the number of visitor arrivals, considered as an immediate tangible yardstick of the industry's performance. A visitor is defined as "any person traveling to a place other than that of his/her usual environment for less than 12 months and whose main purpose of trip is other than the exercise of an activity remunerated from within the place visited".

Data on visitor arrivals are based on the Arrival/Departure (A/D) cards accomplished by incoming and outgoing visitors at all international airports of entry, as well as on passenger manifests of international sea vessels coming in and out through sea ports of entry/exit in the country. These are disaggregated by country market (origin of the visitor) and by regional grouping. The presentation of visitor arrival statistics conforms with the classifications and guidelines recommended by the WTO and the ASEAN Sub-Committee on Tourism (SCOT) for a standard and uniform set of visitor arrival statistics among countries and especially for all ASEAN Member Countries. Moreover, the distribution of travel markets by country of residence, by purpose of travel, by age group, and mode of travel (by air or sea) are likewise presented.

On the other hand, statistics on tourist receipts help determine the contribution and significance of the tourism industry in the Philippine economy. For this purpose, the average tourist expenditure and average length of stay are estimated from the results of the Visitor Sample Survey conducted by the Department of Tourism (DOT). Statistics on hotels such as number of available rooms and occupancy rates are also presented albeit for the National Capital Region only.

This chapter also includes data on outbound tourism or overseas travel movements of Philippine residents, both Philippine and foreign nationals regardless of the purpose of travel. Tables on outbound Philippine residents by port of disembarkation, nationality, age group and purpose of travel are presented in this section.

Figure 8.4 OUTBOUND PHILIPPINE RESIDENTS
BY PURPOSE OF TRAVEL: January - June 2006

9 VITAL, HEALTH AND NUTRITION STATISTICS

This chapter presents vital, health, and nutrition statistics, among which are data on births, deaths, marriages, diseases, health facilities and personnel, health expenditures, food consumption and nutrient intake.

Statistics on registered births and deaths are compiled and published by the National Statistics Office. The National Epidemiological Center (NEC) of the Department of Health (DOH) also publishes these data in the annual Philippine Health Statistics, in addition to data on notifiable diseases. On the other hand, the National Statistical Coordination Board Technical Working Group (NSCB-TWG) on Maternal and Child Mortality estimates the maternal and child mortality statistics.

This chapter also presents data on daily and annual per capita food supply by food group and actual per capita food intake per day compared with available daily per capita food supply taken from the Food Balance Sheet of the NSCB.

Data on hospitals and health personnel by region, barangay health stations and rural health units, as well as establishments involved in food and drug production and distribution are also included in this chapter. These are compiled by the Bureau of Health Facilities and Services (BHFS) and the Bureau of Food and Drugs (BFAD).

The Philippine National Health Accounts (PNHA) of the NSCB consists of a set of statistics that accounts for national health spending for a given year. Specifically, PNHA tells: how much was spent for health care in the country; who paid for health care (sources of funds); and what was paid for (uses of funds).

Table 9.1	Number of Registered Marriages and Rates by Region: 1976 to 2003	9-4
Table 9.2	Live Births, Total Deaths, Deaths Under One Year, Maternal Deaths and Foetal Deaths: 1971 to 2003	9-7
Table 9.3	Number of Registered Live Births and Rates by Region: 1976 to 2003	9-8

Notes:

1. Prior to 1990, population figures used as denominator were based on the Series 2 population projections using the 1980 CPH as base year.
2. Starting 1990, population figures used as denominator were based on the Series 2 population projections using the 1990 CPH as base year.
3. Starting 1995, population figures used as denominator were based on the Series 2 population projections using the 1995 CPH as base year.
4. Starting 2000, population figures used as denominator were based on the Population projections using the 2000 CPH as base year.
5. Totals may not add up due to unspecified/not stated cases.

Notes: 1. Prior to 1990, population figures used as denominator were based on the Series 2 population projections using the 1980 CPH as base year.
2. Starting 1990, population figures used as denominator were based on the Series 2 population projections using the 1990 CPH as base year.
3. Starting 1995, population figures used as denominator were based on the Series 2 population projections using the 1995 CPH as base year.
4. Starting 2000, population figures used as denominator were based on the Population projections using the 2000 CPH as base year.
5. Totals may not add up due to unspecified/not stated cases.

Notes: 1. Prior to 1990, population figures used as denominator were based on the Series 2 population projections using the 1980 CPH as base year.
2. Starting 1990, population figures used as denominator were based on the Series 2 population projections using the 1990 CPH as base year.
3. Starting 1995, population figures used as denominator were based on the Series 2 population projections using the 1995 CPH as base year.
4. Starting 2000, population figures used as denominator were based on the Population projections using the 2000 CPH as base year.
5. Figures for CAR and ARMM were made available starting 1990 while figures for Region 13 (Caraga) started in 1996.
6. Starting 2000, the new regional configuration was used.
7. Totals may not add up due to unspecified/not stated cases.

^a Region 4a - under new regional configuration.

Table 9.30
TARGET¹ vs ACTUAL HEALTH CARE SPENDING PATTERNS
2002 to 2004
(In percent)

Source of Funds	Target/ Actual	Year	Use of Funds			Total by Source
			Personal Health Care	Public Health Care	Others	
Government ²	Target		10	20	10	40
	Actual	2002	14	10	7	31
		2003	15	10	7	32
		2004	14	10	7	31
Social Insurance ³	Target		25	-	5	30
	Actual	2002	8	-	1	9
		2003	8	-	1	9
		2004	8	-	1	9
Private Sector						
Out of Pocket	Target		20	-	-	20
	Actual	2002	47	-	-	47
		2003	47	-	-	47
		2004	47	-	-	47
Others ⁴	Target		7	-	3	10
	Actual	2002	9	-	3	12
		2003	9	-	3	12
		2004	11	-	3	14
Total by Use						
	Target		62	20	18	100
	Actual	2002	78	10	11	100
		2003	79	10	11	100
		2004	80	10	11	100

Note: To allow for comparison with HSRA targets, which does not include "other" sources of funds, the percentage distribution of actual expenditures by source of funds was adjusted by excluding the "other" sources of funds.

Therefore, this is not exactly the same as with the percentage share in tables 9.28 and 9.29.

¹ Based on the Health Sector Reform Agenda for the period 1999-2004.

² Government includes national government agencies (including DOH), foreign-assisted projects and local government.

³ Social Insurance includes medicare (PhilHealth and OWWA) and medical/health coverage of EC.

⁴ Others of Private Sector include HMOs, private insurance, private schools, and employer-based plans.

10 EDUCATION AND MANPOWER DEVELOPMENT

Education is the fundamental link to national progress. It is the key to liberate people from poverty and enable them to fully utilize their human faculties to contribute most effectively to the economic and social development of society. As embodied in the Philippine Constitution, “The State shall protect and promote the right of all citizens to quality education at all levels and shall take appropriate steps to make such education accessible to all.” Thus, the government recognizes education as one of the most essential social services that have to be adequately provided and improved in order to achieve the goals of human development and people empowerment.

The sectoral data framework for education translates the major areas of concern of the sector into various statistical components that serve as the basis for the generation of education statistics and indicators. “These components include: (1) *education processes and means* consisting of governance and management, personnel, curriculum, finance and expenditure, facilities/infrastructures, technology and services, culture, media, sports services and programs; (2) *education providers* like institutions, organizations, industries and households; and (3) *population served* such as the students, graduates, school leavers, professionals and subprofessionals, self or informal learners, and alternative education learners that eventually compose or join the country’s manpower.”

The government agencies involved in the management and coordination of the country’s educational system are the following: (1) Department of Education (DepEd) for elementary and secondary levels, and alternative learning systems; (2) Commission on Higher Education (CHED) for higher education; and (3) Technical Education and Skills Development Authority (TESDA) for technical/vocational education and skills training.

The basic statistics needed to compute for various indicators on education and manpower development are being produced by the National Statistics Office (NSO), but these are available only for intervals corresponding to the frequency of conduct of censuses and surveys. Meanwhile, data on the National Education Expenditure Accounts (NEXA) from the National Statistical Coordination Board (NSCB) were also included. The NEXA framework consists of categories for classifying and defining the sources and uses of funds of education. The initial compilation included the 1991 to 1998 data on education expenditures. To provide an indication of government budget allocated for education, data from the Department of Budget and Management (DBM) has been included. On the other hand, data on performance in the board and bar examinations are taken from the Professional Regulations Commission (PRC) and the Supreme Court of the Philippines (SCP), respectively.

11 LABOR AND EMPLOYMENT

Our national development plan stresses the importance of providing employment to the growing working population, with the objective of raising the level of per capita income in order to reduce poverty and raise the people's standard of living. Information on the economic characteristics of the working population is essential in stimulating investments where they are needed, identification of priority industries and designing government programs and strategies in order to mobilize the country's huge human resources towards economic development and prosperity.

Statistics on the labor force and its characteristics is vital not only in planning for manpower development but also in estimating labor demand and supply projections. The primary source of data on labor and employment is the Labor Force Survey, a module under the Integrated Survey of Households which is conducted quarterly by the National Statistics Office (NSO). This captures employment in the formal and informal sectors since the survey respondents are households. Included in this publication are statistics on employment status by urbanity, by sex, by region, by major industry, and by major occupation group. Meanwhile, data relating to Overseas Filipino Workers (OFWs) classified whether processed or deployed, whether land-based or sea-based, and by major world groupings are likewise reflected. Information on OFWs is sourced from the administrative forms of the Philippine Overseas Employment Administration (POEA).

Other indicators useful in analyzing the country's employment situation pertain to data on labor relations and welfare. Specifically, such data include information on the number and membership of existing local/independent public sector unions by region, number of collective bargaining agreements filed, and workers covered by region, generated from the administrative forms of the Bureau of Labor Relations (BLR). Meanwhile, aggregate data on strikes/lockout such as notices filed and actual strikes are generated by the National Conciliation and Mediation Board (NCMB).

Also included in this chapter are wage data, specifically nominal and real minimum wage rates broken down into agriculture and non-agriculture sectors by region which are provided by the Bureau of Labor and Employment Statistics (BLES).

Notes: 1. Data on household population 15 years old and over were based on the series of population projections using medium assumption adopting the 1980 CPH results for data prior to October 2000, while the 1995 CPH results were used for data starting October 2000.

2. Data were taken from the final results of the October rounds of the Labor Force Survey (LFS) using past week as reference period.

3. Details may not add up to totals due to rounding.

Notes: 1. Data were taken from the October round of the Labor Force Survey using past week as reference period.
2. Urban and rural classification was no longer applied starting the July 2003 round of the LFS.
3. Starting April 2005, the new unemployment definition was adopted per NSCB Resolution No. 15 dated October 20, 2004.
4. Details may not add up to totals due to rounding.

Notes: 1. Non-agricultural establishments employing 20 and over. Wage rates are defined as including basic pay and regular/guaranteed cash allowances.
2. Basic pay refers to pay for nominal/regular working time before deductions for employees' social security contributions and withholding taxes. It excludes overtime, night shift differential and other premium pay; commissions, tips and share of employees in service charge; and payment in kind.
3. Allowances refer to regular/guaranteed cash payments. These include living allowance but exclude reimbursements for travel, entertainment, meals and other expenses, etc. incurred in conducting the business of the employer, cost of uniform/working clothes; bonuses and gratuities; family allowances.

^a Data on public sector unions include those in ARMM.

^b Includes membership of affiliated unions. It however excludes federation members of 2.8 million farm workers.

^c Figures for workers covered is in 1,000.

Source: Data for 2006 are taken from the Bureau of Labor Relations (BLR) actual records.

12 SOCIAL SERVICES

The vital step in promoting social welfare and community development is to ensure equitable distribution of social services. This needs accurate information on the identities, numbers and location of target persons, types of services needed, how much is needed and when needed. Most of these data however are neither available in desired forms/tabulations nor readily accessible to various users.

To address this problem, the National Statistical Coordination Board in collaboration with the major agencies providing social services, i.e., the Department of Social Welfare and Development, National Disaster Coordinating Council, Government Service Insurance System, Social Security System, and Home Development Mutual Fund, processes, compiles and presents in this chapter the most needed statistical information taken from administrative annual reports of the above agencies. These include the numbers and locations of clients served, types and amount of social services received, sources of social services, and calamity funds. Also included are data on persons with disabilities by type of disability and by sex from the 2000 Census of Population and Housing conducted by the National Statistics Office.

13 TRANSPORTATION AND COMMUNICATION

Efficient transportation and communication systems are vital in supporting agricultural and industrial development programmes of the country, contributing to the overall efficiency of the economy, and to the country's social and cultural advancement. As such, information relating to the country's transport and communication sector serves as vital input in designing appropriate programs. For instance in the transport sector, information on kilometers of roads and bridges and the number of registered vehicles will give an indication of the state of activities in the area and the need for expansion programs. Relevant information that would gauge the performance of the sector include such data as: the extent of the road system; carrying capacity of the nation's fleet of land, water and air conveyances; distribution and customer-attending capacity of its air and seaport works; and the information/message-handling capacity of its postal and telecommunications networks.

The data contained in the chapter are taken from administrative records/regulatory forms of the agencies concerned. Data on road and railway transport are taken from the Department of Public Works and Highways (DPWH), Philippine National Railways (PNR), Land Transportation Office (LTO), and the Department of Transportation and Communication (DOTC). Water transport data, specifically on the shipping data from the Philippine Ports Authority (PPA) and Maritime Industry Authority (MARINA) are also contained herein.

Air flights and air passengers carried are sourced from the Air Transportation Office (ATO) providing data on the number of airports in the country. In the area of communications, the National Telecommunications Commission (NTC) is the major source of data on telecommunications and the Philippine Postal Corporation (PPC) on postal services.

14 ENERGY AND WATER RESOURCES

Energy is a major economic concern of the government since it is a vital resource in the development process. The energy development program of the government is focused on the search for alternative sources of energy in order to reduce dependence on imported fossil fuel. These alternative sources of energy include hydroelectric, geothermal, natural gas, coal, and nuclear energy as well as non-conventional sources such as solar, ocean, and wind power.

To provide support to the country's energy program, there is a need for comprehensive data on energy. Presented in this chapter are data on energy consumption by source, domestic oil and gas production, coal production by major area, coal importation by origin, coal consumption by major user, total crude supply, crude oil importations by country of origin, refinery production, petroleum products importation, consumption and sales to industrial consumers, power generation by source, utility and grid, installed generating capacity, electric energy consumption by sector, and status of energization.

Similarly, the water resource sector is an important area of concern. While water is naturally abundant in the country, it has now become a scarce commodity in some areas. The data on water included in this chapter cover the duly organized water districts which were issued conditional certificates of conformance by region, irrigated and benefited areas of national irrigation systems, generated area of irrigation systems and irrigation development by region.

The Department of Energy (DOE) and the National Electrification Administration (NEA) generate statistics on energy while the National Irrigation Administration (NIA) and the Local Water Utilities Administration (LWUA) produce data on water resources.

Notes:

Class AA - Public Water Supply Class I. Primarily, waters from uninhabited and protected watersheds which require only approved disinfection to meet the National Standards for Drinking Water (NSDW) of the Philippines.

Class A - Public Water Supply II. Require complete treatment (coagulation, sedimentation, coagulation, filtration and disinfection) in order to meet the NSDW).

Class B - Recreational Water Class I, For primary contact recreation such as bathing, swimming, skin diving, etc. (particularly those designated for tourism purposes).

Class C - 1) Fishery Water for the propagation and growth of fish and other aquatic resources; 2) Recreational Water Class II (Boating, etc.); 3) Indl. Water supply Class I (For manufacturing process after treatment).

Class D - 1) For agriculture, irrigation, livestock watering etc.; Industrial Water Supply II (e.g. cooling, etc.); 3) Other inland waters

Class SA - 1) Water suitable for propagation, survival and harvesting of shellfish for commercial purposes; 2) Tourist zones and national marine parks and reserves 3) Coral reef parks and reserves.

Class SB - Recreational Water Class I (areas regularly used by the public for bathing, swimming, skin diving, etc.);

2) Fishery Water Class I (spawning areas for Chanos chanos or Bangus and similar species).

Class SC - 1) Recreational Water Class II (e.g. boating, etc.); Fishery Water Class II (Commercial and sustenance fishing);

3) Marshy and/or mangrove areas declared as fish and wildlife sanctuaries.

Class SD - Industrial Water Supply Class II (e.g. cooling, etc.); 2) Other coastal and marine waters; 3) Marshy and/or mangrove areas declared as fish and wildlife sanctuaries.

15 PUBLIC ADMINISTRATION

Public Administration covers the factors, aspects, and processes of governance. This chapter presents statistics on the inputs and operations performed by the Philippine government in providing public services. The operations are anchored in the Constitution and enabling acts. They are translated through plans/programs/policies contained in the Medium Term Development Plan based on a mix of resources and institutional capacities and a chain of societal concerns. The latter are presented by individuals and other interest groups.

This updated set of data are on resources, revenues, expenditure, debts, cash operations of the central government, including both budgetary and non-budgetary accounts, securities, personnel, electoral processes, number of provinces, cities, municipalities, and barangays by region. These data were gathered from administrative reports of the Department of Budget and Management (DBM), Bureau of the Treasury (BTr), Bureau of Internal Revenue (BIR), Commission on Audit (COA), Bangko Sentral ng Pilipinas (BSP), Commission on Elections (COMELEC), Civil Service Commission (CSC), and the National Statistical Coordination Board (NSCB).

Through this chapter, it is hoped that policy makers will be aided in determining the needs, level, quality, type and proper focus of the government functions that affect all sectors of the Philippine society.

Figure 15.5 COMPARATIVE SCHEDULE OF INCOME AND EXPENDITURES FOR LOCAL GOVERNMENT UNITS: 1995 to 2005
In Million Pesos

16 BANKING AND FINANCE

The pivotal role played by financial institutions in providing scarce resources in developing countries like the Philippines cannot be overemphasized. Financial statistics relating to institutions, e.g., demand, savings and time deposits, outstanding loans and investments, are of primary importance in determining sound policies conducive to economic development and serve as bases for the monetary authorities and the banking and credit institutions to readily respond to monetary problems, needs and requirements of the economy. Financial institution data also give insights on the contribution of this sector to the government's task of nation building. The Bangko Sentral ng Pilipinas (BSP), Development Bank of the Philippines, Government Service Insurance System and the Social Security System are the primary sources of data for these tables.

The statistics presented in this chapter cover the following: money supply and its origin as well as factors affecting money supply; composition of money and quasi-money; total loans and investment outstanding by institution; credits granted and/or outstanding of deposit money and/or development banks; interest rates on savings and time deposits, total assets and liabilities by institution and demand, savings and time deposit liabilities of banks; and financial condition, revenues and expenditures of the social security agencies, peso per US dollar rate, number of insurance companies, and the balance of payments. The balance of payments is a systematic record of the economic transactions that have taken place during a period of time between a country's residents and the residents of the rest of the world. It keeps track of the inflow and outflow of foreign exchange into and out of the country. The major source of the data on balance of payments is the BSP.

Notes:

1. Data on Deposit Liabilities, Estimated Insured Deposits and Claims Filed prior to year 2004 were revised to reflect adjustments made.
2. With the amendment of the PDIC Charter in 2004, a depositor may now file a claim for insured deposit with PDIC within 2 years from takeover of the closed bank. Prior to the amendment, prescriptive period lasts only up to 18 months.

Net Unclassified Items as Percent of Total Trade	0.9	0.1	(1.2)	(0.3)	(2.0)	0.5

a - For 1999 and 2000, there is no differentiation between total OFW cas remittances and remittances channeled through the banking system.

This period represents the transition years of the revised foreign exchange monitoring report form (FX Form 1).

Notes: 1. Net balances in the current and capital and financial accounts are derived by deducting entries from credit entries.

2. Overall BOP position is determined by deducting change in reserve liabilities from change in reserve assets.

3. Net unclassified items is an offsetting account to the overstatement or understatement in either receipts or payments of the recorded BOP components vis-à-vis the overall BOP position.

4. Change in KBs NFA as a BOP entry is derived by deducting foreign assets from foreign liabilities consistent with the principle described in note no. 1.

5. Basic balance represents a BOP position that excludes transactions that are volatile and are in the short run susceptible to being reversed. It is derived using the following formula: Overall BOP position - (Net portfolio investments + net short-term liabilities) less errors and omissions. In the old BOP series, all transactions in assets and liabilities of commercial banks were deemed to be long-term. With the refinements in the new series on the maturity structure of KBs transactions, short-term financial transactions of KBs are now excluded from the basic balance.

Figure 16.4 FINANCIAL CONDITION OF THE GOVERNMENT SERVICE
INSURANCE SYSTEM: 1995 to 2005

17 PUBLIC ORDER, SAFETY AND JUSTICE

This chapter deals with the statistics on the criminal justice system and its five (5) pillars, namely: a) law enforcement; b) prosecution; c) adjudication/courts; d) correction; and e) community/public safety. These components function in a cooperative venture towards the fulfillment of an effective, efficient and fair administration of criminal justice in the country. Statistics on this sector are generated by various agencies under each pillar of the criminal justice system.

Crime statistics are compiled by the Philippine National Police (PNP). On the other hand, statistics on fire incidence are produced by the Bureau of Fire Protection (BFP), while data on human rights violations are collected by the Commission on Human Rights (CHR). Moreover, the prevalence of drug and substance abuse is being monitored by the Dangerous Drugs Board (DDB).

Service statistics on legal assistance extended by the government can be sourced from the Public Attorney's Office (PAO).

The sole responsibility of managing and handling court statistics derived from the monthly reports of the different courts all over the country is assumed by the Supreme Court (SC).

On the other hand, data on prisoners are gathered from the Bureau of Corrections (BUCOR) and the Bureau of Jail Management and Penology (BJMP).

Lastly, information on assessing peace and order in the community are generated from the Bureau of Local Government Supervision (BLGS), while the source of statistical information pertaining to the promotion of public welfare in times of calamities is the National Disaster and Coordinating Council (NDCC).

Note: Index crimes are those violations of the penal code considered to have socio-economic significance, and occur with sufficient regularity to be meaningful. These include crimes vs. person (murder, homicide, physical injury and rape), and crime vs. property (robbery and theft). All other crimes are classified as non-index crimes.

Eff. % = Efficiency Rate

Table 17.4
RATIO OF POLICEMEN AND FIREMEN TO POPULATION
1983 to 2006

Year	Number of Policemen	Ratio	Number of Firemen	Ratio
1983	48,225	1:1,079	6,473	1:8,042
1984	46,823	1:1,139	7,887	1:6,764
1985	48,809	1:1,120	7,714	1:7,087
1986	49,522	1:1,131	8,272	1:6,770
1987	50,810	1:1,129	8,654	1:6,628
1988	53,374	1:1,100	8,511	1:6,899
1989	53,300	1:1,128	9,019	1:6,663
1990	55,072	1:1,127	9,015	1:6,683
1991	89,296	1:696	9,368	1:6,631
1992	100,917	1:630	9,282	1:6,849
1993	97,263	1:669	10,279	1:6,330
1994	95,534	1:697	10,699	1:6,224
1995	95,109	1:722	10,732	1:6,399
1996	102,098	1:683	11,506	1:6,061
1997	104,401	1:684	12,308	1:5,799
1998	108,772	1:672	12,530	1:5,829
1999	109,722	1:681	14,882	1:5,023
2000	108,786	1:707	9,268	1:8,302
2001	105,784	1:742	9,541	1:8,232
2002	112,944	1:710	9,622	1:8,331
2003	112,508	1:727	9,485	1:8,626
2004	118,100	1:707	9,378	1:8,905
2005	113,566	1:751	14,421	1:5,911
2006	114,870	1:757	14,392	1:6,039

Note: Ratio of population per policeman/fireman. Population figures used for 1991-1999 were based on the interim population estimates using decennial population growth rates from 1990 to 2000. The 2001-2006 population are interpolated from the 2000-based population projections. The 2000 population projection is based on approved NSCB Board Resolution No.1, series of 2005.

Table 17.24
COURT-CASE DISPOSITION RATE BY TYPE OF COURT
2001 to 2006

Court	2001	2002	2003	2004	2005	2006
Total	0.69	0.70	0.70	0.74	0.82	0.84
Supreme Court	1.10	1.00	0.97	0.97
Court of Appeals	0.99	0.93	1.00	0.96
Sandiganbayan	1.48	1.28	3.08	1.98	0.97	1.17
Court of Tax Appeals	1.10	0.84	0.81	0.73	0.71	1.21
Regional Trial Courts	0.72	0.68	0.64	0.69	0.79	0.79
Metropolitan Trial Courts	0.49	0.59	0.59	0.68	0.76	0.73
Municipal Trial Courts in Cities	0.73	0.79	0.78	0.87	0.84	0.88
Municipal Trial Courts	0.80	0.72	0.77	0.77	0.89	1.03
Municipal Circuit Trial Courts	0.73	0.75	0.80	0.76	0.95	1.12
Shari'a District Courts	0.78	0.81	2.33	1.50	1.17	0.77
Shari'a Circuit Courts	0.98	0.93	0.71	0.89	0.90	1.07

Note: Court-case disposition rate is the ratio of total cases decided/resolved over total cases filed in a year.

A ratio of less than 1 indicates an increasing backlog; greater than 1, decreasing backlog;
and equal to 1 means that the backlog is being maintained.

Notes: (1) Data are gathered from the accomplishment report of the Lupong Tagapayapa on the implementation of the Katarungang Pambarangay Program of the DILG which has the following objectives: (a) to promote the speedy administration of justice; (b) to relieve congestion of court's docket; and (c) to save government funds in terms of budget allocated to cost of litigation. (2) Estimated government savings is derived by multiplying the number of settled cases by P9,500 which is the average cost of litigation per case.

BY PILLAR: 2007

18 SCIENCE AND TECHNOLOGY

The formulation and development of science and technology plans and programs calls for sound and comprehensive information on the country's scientific and technical potential.

This chapter presents statistics currently generated by the Department of Science and Technology (DOST) and the Intellectual Property Office (IPO) of the Department of Trade and Industry (DTI). The DOST data cover the three broad categories of statistics for the sector, namely: research and experimental development; scientific and technological education and training; and scientific and technological services. The data from IPO, on the other hand, deal with patents and trademarks granted to local and foreign investors.

Data on information and communication technology resources in the national government generated by the National Computer Center (NCC) are also included in this chapter.

19 INTERNATIONAL STATISTICS

This chapter provides us a means to understand through statistical data the extent of developments in selected countries. The presentation likewise makes possible country comparison, which enables us to determine the performance of a country vis-à-vis its neighbors or other countries in the world. Hence, the data can be used as a gauge of the adequacy of statistics for socio-economic studies that take into consideration the condition of other countries. Moreover, international statistics are essential in the formulation of the country's foreign policies.

Selected population and vital statistics, data on the index numbers of food, agricultural production was culled from the United Nations Statistical Yearbook. Other statistics culled from the Yearbook were on the environment (land use, number of threatened species and carbon dioxide emissions), communication (mobile cellular phones and main telephone lines), exchange and discount rate.

For selected Asian countries comparison using as basis the gross domestic product growth rates, gross domestic investment and savings, inflation rate, merchandise exports and imports, debt-service ratio and balance of payments on current account. The data were taken from the publication of the Asian Development Bank (ADB).

Indicators of demographic characteristics of selected Asian countries are also presented under this section. These are population density, crude birth and death rates, total fertility rate, net reproduction rate, contraceptive prevalence rate, infant and maternal mortality rate, human development index (HDI), and life expectancy at birth. The source is the Key Indicators of Developing Asian and the Pacific Countries of ADB.

Glossary of Terms

AGRICULTURE

Agricultural Production- the growing field crops, fruits, nuts, seeds, tree nurseries (except those of forest trees), bulb vegetables and flowers, both in the open and under glass; and the production of coffee, tea, cocoa, rubber; and the production of livestock and livestock products, honey rabbits, fur-bearing animals, silkworm, cocoons, etc. Forestry and fishery activities carried on as an ancillary activity on an agricultural holding is also considered as agricultural production. (**Bureau of Agricultural Statistics**)

Aquaculture - sector of fisheries that includes the rearing or raising under controlled conditions of aquatic products such as fish, oysters, mussels, sea weeds and other aquatic resources in sea, lakes and rivers. Examples are fishponds, fish pens and fish cages. (**Bureau of Agricultural Statistics**)

Commercial Fishing - sector of fisheries that includes the catching of fish in marine waters with the use of fishing boat of more than three (3) gross tons. (**Bureau of Agricultural Statistics**)

Municipal Fishing - sector of fisheries that includes the catching of fish in marine and inland waters with the use of fishing boat of three (3) gross tons or less, or using gear not requiring the use of boats. (**Bureau of Agricultural Statistics**)

BANKING AND FINANCE

Assets - are economic resources that are controlled by the company/entity and whose cost at the time of acquisition could be objectively measured.

Balance of Payments (BOP) - systematically summarizes for a specific period, the economic transaction of an economy's residents with the rest of the world.

Bonds - interest bearing certificates of indebtedness

Capital and Financial Account - divided into two main categories: the capital account and the financial account. The capital account covers all transactions that involve the receipt/payment of capital transfers and acquisition/disposal of non-produced, non-financial assets. The financial account covers all transactions associated with changes of ownership in the foreign financial assets and liabilities of the economy. Such changes include the creation and liquidation of claims on, or by, the rest of the world.

Change in the NFA of Commercial Banks (KBs) - a positive entry represents an increase in foreign liabilities of the commercial banks and or decrease in their foreign assets. Conversely, a negative entry represents an increase in the holdings of foreign assets of commercial banks and/or a net payment of their foreign liabilities.

Commercial Banks - any corporation which, in addition to the general powers incident to corporations, shall have all such powers as shall be necessary to carry on the business of commercial banking, by accepting drafts and issuing letters of credits, by discounting and negotiating promissory notes, drafts, bills of exchange, and other evidences of debts, by receiving deposits, by buying and selling foreign exchange and gold or silver bullion, and by lending money against securities

consisting of personal property or first mortgage on improved real estates and the insured improvements thereon.

Current Account - consists of the aggregate balance of goods, services and transfers. This account measures the net transfer of real resources between the domestic economy and the rest of the world.

Currency in circulation - all Philippine notes and coins issued or circulating in accordance with the provisions of the Central Bank Act

Deposit Substitutes - an alternative form of obtaining funds from the public, other than deposits, through the issuance, endorsement, or acceptance of debt instruments for the borrower's own account, for the purpose of re-lending or purchasing of receivables and their obligations

Demand Deposits - otherwise known as current or checking accounts, subject to withdrawal by check and are non-interest bearing. These are sub-divided into demand-deposits of private firms and individuals, banks, the government and Trust Department of Banks

Domestic Liquidity (M3) - consists of money supply, savings and time deposits and deposit substitutes of the monetary system.

Employees Compensation Insurance Fund - amount reserved for compensation claim against employment-connected injury, sickness, disability or death in the form of adequate cash income benefits, medical or related services and rehabilitation services.

Estimated Insurance Losses - amount determined on an annual basis and reflects the best estimate as to adequacy of reserve against future losses. It is intended to adequately cover anticipated losses from member banks identified to have great probabilities of closure where insurance payments may exceed recovery of assets during liquidation.

Extraordinary Income - collections derived from the repayment of loans and advances made by the government as well as from other non-recurring sources.

Financing - means by which a government provides financial resources to cover a budget deficit or allocated financial resources arising from a budget surplus.

Government Securities or Treasury Bills - evidences of indebtedness of the Republic of the Philippines or its instrumentalities, government-owned and/or controlled corporations, or the Central Bank and must be freely negotiable and regularly serviced.

Insurance Premiums - contributions of the account of employees whether made by themselves or their employers for social security arrangements.

Investments - amount of money or other resources measured in terms of money placed on activities or other forms of assets for the purpose of earning profits.

Medium-and Long-Term Loans - include availments of foreign loans with original maturities of more than one year by the public and private non-bank sectors, including loans of the banking sector relented to specific non-bank end-users. These also include medium-and long-term loans contracted by the BSP.

Money Supply or Narrow Money (M1)- consists of currency in circulation plus peso demand deposits.

Monetization of Gold - represents the transformation of gold purchased by the Bangko Sentral ng Pilipinas (BSP) from domestic gold producers into financial assets, which eventually become part of its official reserves.

Net Domestic Credits - defined under M.B. Res. No. 404 dated February 14, 1975 as consisting of domestic credits of the Bangko Sentral ng Pilipinas, (net of National Government deposits with the Bangko Sentral ng Pilipinas, Treasury IMF Account and Bangko Sentral ng Pilipinas loans and advances to deposit money banks) and domestic credits of deposit money banks (net of National Government deposits).

Net Foreign Assets - refers to the difference between foreign assets and foreign liabilities of the Bangko Sentral ng Pilipinas and of the deposit money.

Net Lending - advances by the national government for the servicing of government guaranteed corporate debt during the year, net of repayments on such advance. Includes loans outlays or proceeds from program loans lent to government corporations.

Net other Accounts - refer to the accounts of the Bangko Sentral ng Pilipinas and deposit money banks which are not classified elsewhere. The net other accounts represent the difference between the miscellaneous liabilities and capital accounts on one hand, and miscellaneous assets, on the other.

Non-Money Supply Deposits - refer to the total quasi-money, marginal deposits and deposit substitutes of local government, semi-government entities and residents with deposit money banks.

Net Unclassified Items - is an offsetting account to the overstatement or understatement of the recorded BOP components, either receipts or payments. Since data sources on which BOP entries are based may be incomplete, inaccurate or inconsistent with one another, the account is included to bring the statement into balance. A positive entry denotes the understatement of receipts and/or an overstatement of payments. Conversely, a negative entry denotes an overstatement of receipts and/or understatement of payments.

Overall BOP Position - results from the sum of the current, capital and financial and other BOP accounts. A surplus arises when inflows are greater than outflows while a deficit is incurred when outflows exceed inflows. Overall BOP is also measured by the change in the net international reserves of the BSP.

Permanent Insurance Fund - refers to the total capital provided by the National Government by virtue of R.A. 3591, As Amended. The full capitalization was reached in 1994 with the conversion to equity of the National Government the P977.8 million obligation of PDIC to the then Central Bank of the Philippines.

Peso Deposit Subject to Check - includes "managers' and cashiers' checks" as well as the volume of deposits automatically transferred from savings to demand deposits but excludes holdings of demand deposits by the National Government and commercial banks' holdings of "checks and cash items".

Peso-Dollar Rate - refers to the guiding rate for the exchange of one US dollar (the country's intervention currency) for pesos and is computed as the weighted average of all foreign exchange transactions done through the Philippine Dealing System (PDS) during the preceding day pursuant to Circular Letter dated July 30, 1992. The PDS allows authorized dealers of participating commercial banks and the BSP to deal in spot and forward exchange trading using computer terminal right in the premises for 9:00 A.M. to 12 noon and from 2:30 to 4:00 P.M. daily.

Policy Loan - a loan on the security of the policy which shall not exceed 50 percent of the net cash value for regular membership policy, or 90 percent of the net cash value for optional policy.

Private Development Banks - a group of quasi-private development banks promoted by the DBP to provide medium and long term credits to both the agricultural and industrial sectors. Designed to supplement the short-term credits of the Rural Banks and are able to accept only savings and time deposits.

Private Securities - investments in stocks of private corporations

Real Estate Loans - loans secured by real estate properties mortgaged with the system

Rural Banks - government-sponsored/assisted banks which are privately managed and largely privately owned that provide credit facilities to farmers and merchants, or to cooperatives of such farmers or merchants at reasonable terms and in general; to the people of the rural community.

Savings Bank - any corporation organized for the purpose of accumulating the small savings of depositors and investing them, together with its capital, in bonds or in loans secured by bonds, real estate mortgage, and other forms of security, as hereinafter provided, or in loans for personal finance and long-term financing for home building and home development.

Savings Deposits - these include all interest-bearing deposits which are withdrawals upon presentation of an accomplished withdrawal slip together with the passbook. These are subdivided into savings deposits of private firms, individuals, banks, the government and trust department of banks.

Services - include transactions involving the performance of services such as freight, insurance, travel, including labor services provided by Filipino workers abroad. Also included are receipts/payments of interest, profits and dividends.

Social Insurance Fund - amount set aside for the payment of social insurance benefits like retirement insurance, disability retirement, death and life insurance benefits.

Stocks - investments in shares of stock, common or preferred, traded, subsidiaries, non subsidiaries.

Time Deposits - these represent deposits which are interest bearing with specific maturity dates and evidenced by certificates issued by the bank in the name of the depositor. These are subdivided into time deposits of private firms, individuals, banks, the government and trust department of banks.

Transfers - refer to unilateral transfers or donations. The two main categories are Private and Central Government transfers. Private transfers cover personal and institutional remittances from abroad including donations to voluntary relief agencies, migrants' transfers and taxes paid to the Philippine government by Filipino residents abroad. Central Government transfers refer to the U.S. Veterans Administration pensions, aids and grants received from the U.S. Agency for International Development (USAID), UN agencies and other foreign governments. Outflows represent the Philippines' contributions to various international organizations and its counterpart funding for foreign assistance programs.

ECONOMIC ACCOUNTS

Constant Prices (at constant prices) - valuation of transactions, wherein the influence of price changes from the base year to the current year has been removed.

Expenditure on the GDP - Sum of the final uses of goods and services in the economy. Final uses refer to the values at purchaser's prices of goods and services used for the final consumption of households and private non-profit institutions, general government both national and local government units, as well as those used for gross fixed capital formation by both public and private enterprises and for exports (net of imports) to the rest of the world. (Source: Analysis of the Revised PSNA and Manual on the Frameworks, Source and Methods)

Gross Domestic Capital Formation - Consists of two major components:

- gross fixed capital formation and
- change in stocks.

Gross fixed capital formation refers to outlays on construction, durable equipment and breeding stocks, orchard development and afforestation. Change in stocks refers to the difference between ending and beginning inventories. Inventories or stocks consists of finished goods, work-in-progress, and raw materials, which have been produced or purchased but not yet sold or consumed as intermediate inputs during the accounting period. (Source: **Manual on the Philippine System of National Accounts: Framework, Sources and Methods**)

Gross Domestic Product - the value of all goods and services produced domestically; the sum of gross value added of all resident institutional units engaged in production (plus any taxes, and minus any subsidies, on products not included in the values of their outputs).

Gross Regional Domestic Product - aggregate of the gross value added or income from each industry or economic activity of the regional economy.

Gross National Product - the Gross Domestic Product adjusted with the net factor income from the rest of the world. It refers to the aggregate earnings of the factors of production (nationals) plus indirect taxes (net) and capital consumption allowance.

Gross Value Added - the difference between gross output and intermediate inputs. Gross outputs of a production unit during a given period is equal to the gross value of the goods and services produced during the period and recorded at the moment they are produced, regardless of whether or not there is a change of ownership. Intermediate inputs refer to the value of goods and services used in the production process during the accounting period.

Input-Output Analysis - Concerned with the structural interdependence of economic activities; also referred to as analysis of inter-industry relations or that of inter-industry flows. (Source: 1993 SNA)

Input-Output Table - Provides a statistical description of the inputs (costs) and outputs (production) of the different sectors of the economy during a particular period of time. (Source: 1993 SNA)

Labor Productivity - is computed as GDP at constant price divided by employment (peso per employee).

Personal Consumption Expenditures - consist of actual and imputed expenditures of households for the purpose of acquiring individual consumption goods and services.

Source: *1993 System of National Accounts* developed by the Commission of the European Communities, International Monetary Fund, Organisation for Economic Cooperation and Development, United Nations and World Bank.

EDUCATION AND MANPOWER DEVELOPMENT

Basic or Simple Literacy - the ability to read and write with understanding simple messages in any language or dialect. (National Statistics Office)

Cohort Survival Rate ***** - the percentage of enrollees at the beginning grade or year in a given school year who reached the final grade or year of the elementary or secondary level.

Center-based training program - a training program that is conducted in training centers where instruction is focused directly on acquiring job competencies.

Community based training (CBT) - a training program that is specifically designed to answer the need for skills training of a community (location or sector) for the purpose of creating self employment or incomes.

Dual Training System (DTS) - an instructional delivery of middle-level skills that combines workplace and school training based on a training plan collaboratively designed and implemented by an accredited dual system educational institution/training center and agricultural, medical and business establishments who share the responsibility of providing the learner the best job qualifications.

Elementary Education - the first stage of free and compulsory, formal education primarily concerned with providing basic education and usually corresponding to six and seven grades. Elementary education can likewise be attained through alternative learning system.

Enrolment ***** - total number of pupils/students who register/enlist in a school year.

Enterprise-based training program - a program of learning which takes place training in the enterprises or in the workplace.

Formal Education - the systematic and deliberate process of hierarchically structured and sequential learning corresponding to the general concept of elementary and secondary level of schooling. At the end of each level, the learner needs a certification in order to enter or advance to the next level.

Functional Literacy - represents a significantly higher level literacy which includes not only reading and writing skills but also numeracy skills. This skill must be sufficiently advanced to enable the individual to participate fully and effectively in activities commonly occurring in his life situation that require a reasonable capability of communicating by written language. (**National Statistics Office**)

Higher Education - the stage of formal education requiring secondary and post-secondary education covering the programs on: (a) all courses of study leading to bachelor's degree and (b) all degree courses of study beyond bachelor's degree level.

Literacy rate, Simple/Basic ***** - the percentage of the population 10 years old and over, who can read, write and understand simple messages in any language or dialect.

Participation Rate ***** - the ratio of the enrolment for the age group corresponding to the official school age in the elementary/secondary level to the population of the same age group in a given year. Also known as Net Enrolment Ratio (NER).

Post Secondary/Non-Degree Education - the stage of formal education following the secondary level covering non-degree programs that have varying duration from three (3) months to three (3) years, concerned primarily with developing strong and appropriately trained middle-level skilled manpower possessing capabilities supportive of national development.

Pre-School - a school that admits students who are not old enough to enter the first level of education. These pupils are usually from 4 to 5 years of age. (**Department of Education**)

Primary School - a school primarily concerned with providing basic education and usually corresponding to the first four grades of elementary education. (**Department of Education**)

Private Institutions/Schools - educational institutions maintained and administered by private individuals or groups.

Public Institutions/Schools – educational institutions established by law and administered by the government.

School based training- training done in schools.

Secondary School - an educational institution offering secondary education usually consisting of a four-year general secondary curricula. (**Department of Education**)

Secondary Education - the stage of formal education following the elementary level concerned primarily with continuing basic education and expanding it to include the learning of employable gainful skills, usually corresponding to four years of high school.

School Year - the prescribed period of time, when schools offer daily instruction broken by short intermission periods (e.g., Christmas and summer vacations and holidays).

Technical Education – the education process designed at post-secondary and tertiary levels, officially recognized as non-degree programs aimed at preparing technicians, para-professionals and other categories of middle-level workers by providing them with a broad range of general education, theoretical, scientific, artistic and technological studies, social services and related job skills training.

ENERGY AND WATER RESOURCES

Co-Generation Facility - Refers to a facility which produces electrical and/or mechanical energy and forms of useful thermal energy such as heat or steam, used for industrial, commercial, heating or cooling purposes, through the sequential use of energy.

Distribution of Electricity - Refers to the conveyance or delivery of electricity by a distribution utility to end-users.

Distribution Utility - Refers to any electric cooperative, private corporation, government-owned utility or existing local government unit which has an exclusive franchise to operate a distribution system in accordance with the Electricity Industry Reform Act of 2000.

Electric Cooperative - Refers to a cooperative or corporation authorized to provide electric service pursuant to Presidential Decree No. 269, as amended, or Republic Act No. 6938.

Electric Power Industry Participant - Refers to any person or entity engaged in the generation, transmission, distribution or supply of electricity.

Electricity Sales - Refers to the sales proceeds derived by the power producer from the actual generation of the energy-generating facility net of station own use and losses.

End-User - Refers to any person or entity requiring the supply and delivery of electricity for its own use.

Franchise - Refers to a privilege extended to a person (whether natural or juridical) to operate, maintain and/or distribute power within a specific geographical area.

Franchise Area - Refers to a geographical area exclusively assigned or granted to a distribution utility for distribution of electricity such as electric cooperative, or local government-owned or private-owned electric utility.

Generation Company - Refers to any person or entity that operates facilities used in the generation of electricity and is licensed by the ERC.

Generation of Electricity - Refers to the production of electricity by a generation or co-generation facility.

Grid - Refers to the high voltage backbone system of interconnected transmission lines, substations and generating plants.

Independent Power Producers (IPP) - Refers to a non-utility owner and/or operator of a power generation or a co-generation facility.

Isolated Grid - Refers to the low or high voltage backbone system of wires and associated facilities not directly connected to the national transmission system.

National Electrification Administration (NEA) - Refers to the government agency created under Presidential Decree No. 269, to act as a catalyst for the development of electric distribution utilities (EDUs) by providing world-class financial intermediation institutional and technical services.

National Power Corporation (NPC) - Refers to the government corporation created under Republic Act No. 6395, committed to the highest standards of customers satisfaction in providing quality and reliable electricity with due care for society and the environment.

Self-Generator - Refers to an entity which generates power for its own use.

Sub-transmission - Refers to the power delivery service below the transmission voltages and defined as facilities based on the functional assignments of assets composed of step-down transformers solely used by load customers, associated switchyard/substation, control and protective equipment, reactive compensation equipment to improve customer power factor, and overhead lines. This includes NPC assets linking the transmission system and the distribution system which are neither classified as generation nor transmission.

Supplier - Refers to any person or entity authorized by the ERC who sells, brokers, markets or aggregates electricity to or for the public consumption of the competitive market.

Supply of Electricity - Refers to the sale of electricity by authorized entities.

Transmission of Electricity - Refers to the conveyance of electricity through the high voltage backbone system.

ENVIRONMENT AND NATURAL RESOURCES

Charcoal – solid product obtained from the destructive distillation and/or thermal degradation of wood. (**Forest Management Bureau**)

Forest* – refers to land with an area of more than 0.5 hectare and tree crown cover (or equivalent stocking level) of more than 10 percent. The trees should be able to reach a minimum height of 5 meters at maturity in situ. It consists either of closed forest formations where trees of various storeys and undergrowth cover a high proportion of the ground or open forest formations with a continuous vegetation cover in which tree crown cover exceeds 10 percent. Young natural stands and all plantations established for forestry purposes, which have yet to reach a crown density of more than 10 percent or tree height of 5 meters are included under forest.

These are normally forming part of the forest area, which are temporarily unstocked as a result of human intervention or natural causes but which are expected to revert to forest. It includes forest nurseries and seed orchards that constitute an integral part of the forest; forest roads, cleared tracts, firebreaks and other small open areas; forest within protected areas; windbreaks and shelter belts of trees with an area of more than 0.5 hectare and width of more than 20 meter; plantations primarily used for forestry purposes, including rubber wood plantations. It also includes bamboo, palm and fern formations (except coconut and oil palm). **(Reference: Food and Agriculture Organization, 2000)**

Forest Land - includes the public forest, the permanent forest or forest reserves, and forest reservations. **(Forest Management Bureau)**

Forest Product - all usable raw materials yielded by the forest including the associated water, fish, game, scenic, historical, recreational and geologic resources. **(Forest Management Bureau)**

Log - felled trees bucked into convenient length of at least 1.5 meters, with at least 15 cm. in diameter. It may either be poles, piles, pulpwood, sawlog or veneer log. **(Forest Management Bureau)**

Lumber - solid wood not further manufactured other than sawing, resawing and passing lengthwise through a standard planing machine crosscut to length. **(Forest Management Bureau)**

National Park - refers to a forest reservation essentially of primitive or wilderness character which has been withdrawn from settlement or occupancy and set aside as such exclusively to preserve the scenery, the natural and historic objects and the wild animals or plants therein, and to provide enjoyment of these features in such a manner as will leave them unimpaired for future generations. **(Protected Areas and Wildlife Bureau)**

Non-Timber Forest Product - includes all forest products except timber; also known as minor forest product. **(Forest Management Bureau)**

Plywood - an assembled product made of layers of veneer held together by an adhesive, the chief characteristic of which is the alternate cross layers, distributing the longitudinal wood strength. It consists of three or more layers of veneer, firmly glued together with the grain direction of the middle layer at right angles to that of the two parallel outer layers. **(Forest Management Bureau)**

Poles and Piles - logs for use as electric post, pier piling, railroad ties, sleepers and the like. **(Forest Management Bureau)**

Pulpwood - any wood commercially used for the manufacture of any type of pulp. **(Forest Management Bureau)**

Rainfall (mm) - the amount of precipitation (rain, hail, etc.) expressed in millimeter depth, of the layer of water which has fallen. **(Philippine Atmospheric, Geophysical and Astronomical Services Administration)**

Roundwood - wood in its natural state as felled or otherwise harvested, with or without bar, round, split roughly squared or other forms (e.g. roots, stumps). It may also be impregnated (e.g. telegraph poles) or roughly shaped or pointed. It comprises all wood obtained from the forest such as sawlogs/veneer logs, pulpwood, fuelwood and other industrial roundwood. **(Forest Management Bureau)**

Timberland - refers to land of the public domain which has been the subject of the present system of land classification determined to be needed for forest purposes. Eventually, these lands will be proclaimed as forest reserves by the President. **(Forest Management Bureau)**

Upland - highland; ground elevation above the lowlands along rivers or between hills. (**Forest Management Bureau**)

Veneer - thin sheets of wood of uniform thickness, rotary cut, sliced or sawn for use in the manufacture of plywood. (**Forest Management Bureau**)

TRADE

Balance of Trade - the difference between the export earnings and import payments of all goods or merchandise trade transacted by a country. (**National Statistics Office**)

Domestic Export - export for goods grown, mined, cultured or manufactured in the Philippines. (**Bangko Sentral ng Pilipinas**)

Export - all goods leaving the country which are properly cleared through the Customs. (**National Statistics Office**)

Free on Board (F.O.B.) Value - the value of the goods free on board the carrier at the frontier of the exporting country. It includes inland freight, export duty and other expenses. Ocean freight, insurance and consular fee are, however, excluded. (**National Statistics Office**)

Import - all goods entering any of the seaports or airports of entry of the Philippines properly cleared through the Customs or remaining under Customs control, whether the goods are for direct consumption, for merchanting, for warehousing or for further processing. (**National Statistics Office**)

Non-Traditional Exports - export goods whose value did not exceed US\$5 million in 1968 and which have undergone a significant degree of processing. (**National Statistics Office**)

Re-Exports - exports of imported goods which do not undergo physical and/or chemical transformation in the Philippines. (**National Statistics Office**)

Traditional Exports - export goods whose value exceed US\$5 million in 1968 and which have undergone a significant degree of processing. (**Bangko Sentral ng Pilipinas**)

INCOME AND PRICES

Consumer Price Index (CPI)** - Indicator of the change in the average prices of a fixed basket of goods and services commonly purchased by households relative to a base year.

Core Inflation** - is a measure of inflation that aims to capture the permanent component of the inflationary process that can be influenced by monetary policy.

Family - is a group of persons usually living together and composed of the head and other persons related to the head by blood, marriage and adoption. A single person living alone is considered a separate family. (**2000 FIES, National Statistics Office (NSO)**)

Family Expenditures - refers to the expenses or disbursements made by the family purely for personal consumption during the reference period. They exclude all expenses in relation to farm or business operations, investment ventures, purchase of real property and other disbursements which do not involve personal consumption. Gifts, support, assistance or relief in goods and services received by the family from friends, relatives, etc. and consumed during the reference period are included in the family expenditures. Value consumed from net share of crops, fruits and vegetables

produced or livestock raised by other households, family sustenance and entrepreneurial activities are also considered as family expenditures. **(2000 FIES, NSO)**

Family Income – includes primary income and receipts from other sources received by all family members during the calendar year as participants in any economic activity or as recipients of transfers, pensions, grants, etc. **(2000 FIES, NSO)**

Primary income includes:

- Salaries and wages from employment.
- Commissions, tips, bonuses, family and clothing allowance, transportation and representation allowance and honoraria.
- Other forms of compensation and net receipts derived from the operation of family-operated enterprises/activities and the practice of profession or trade.

Income from other sources include:

- Imputed rental values of owner-occupied dwelling units.
- Interests.
- Rentals including land owner's share of agricultural products
- Pensions
- Support and value of food and non-food items received as gifts by the family (as well as the imputed value of services rendered free of charge to the family).
- Receipts from family sustenance activities, which are not considered as family operated enterprise.

Food Threshold (FT) ***** – the minimum income/expenditure required for a family/individual to meet the basic food needs, which satisfies the nutritional requirements for economically necessary and socially desirable physical activities.

Gini Ratio ***** - the ratio of the area between the Lorenz curve and the diagonal (the line of perfect equality) to the area below the diagonal.

Notes: It is a measure of the extent to which the distribution of income/ expenditure among families/individuals deviates from a perfectly equal distribution, with limits 0 for perfect equality and 1 for perfect inequality.

Headline Inflation** - measures changes in the cost of living based on movements in the prices of a specified basket of major commodities. It refers to the annual rate of change or the year-on-year change in the Consumer Price Index (CPI).

Income Gap – is the average income shortfall (expressed in proportion to the poverty line) of those below the threshold. **(1997 Philippine Poverty Statistics, NSCB)**

Inflation Rate - the annual rate of change or the year-on-year change in the Consumer Price Index.

Magnitude of the Poor - the number of families or the population whose annual per capita income falls below the poverty threshold.

Poverty Gap (PG) ***** – the total income/ expenditure shortfall (expressed in proportion to the poverty threshold) of families/ individuals with income/ expenditure below the poverty threshold, divided by the total number of families/ individuals.

Poverty Incidence (PI) ***** - the proportion of families/individuals with per capita income / expenditure less than the per capita poverty threshold to the total number of families/individuals.

Poverty Threshold (PT) ***** – the minimum income/expenditure required for a family/individual to meet the basic food and non-food requirements.

Notes: Basic food requirements are currently based on 100% adequacy for the Recommended Energy and Nutrient Intake (RENI) for protein and energy equivalent to an average of 2000 kilocalories per capita, and 80% adequacy for other nutrients. On the other hand, basic non-food requirements, indirectly estimated by obtaining the ratio of food to total basic expenditures from a reference group of families, cover expenditure on: 1) clothing and footwear; 2) housing; 3) fuel, light, water; 4) maintenance and minor repairs; 5) rental of occupied dwelling units; 6) medical care; 7) education; 8) transportation and communication; 9) non-durable furnishings; 10) household operations; and 11) personal care & effects.

Producer Price Index (PPI)*** - statistical measure of the average changes in average prices of a basket of goods as they leave the establishment of the producers relative to a base period.

Producer Price Index (PPI) for Agriculture*** - statistical measure of the average changes in average farmgate prices of a basket of goods relative to a base period.

Purchasing Power of the Peso*** - a measure of the real value of the peso in a given period relative to a chosen reference period. It is computed by getting the reciprocal of the CPI and multiplying the result by 100

Recommended Dietary Allowances (RDA) - are levels of nutrient intakes, which are considered adequate to maintain health and provide reasonable levels of reserves in body tissues of nearly all healthy persons in the population. **(RDA, 1989 edition)**

Retail Price*** - the price at which a commodity is sold for spot in small quantities for consumption.

Retail Price Index (RPI)*** - statistical measure of the changes in the prices at which retailers dispose of their goods to consumers or end-users relative to a base year.

Severity of Poverty (SP) ***** - the total of the squared income/expenditure shortfall (expressed in proportion to the poverty threshold) of families/ individuals with income/expenditure below the poverty threshold, divided by the total number of families/ individuals.

Notes: This is equal to the Foster-Greer-Thorbecke (FGT) family of measures with $\alpha = 2$. It is a poverty measure, which is sensitive to the income/ expenditure distribution among the poor - the worse this distribution is, the more severe poverty is.

Subsistence Incidence (S) ***** - the proportion of families/individuals with per capita income/ expenditure less than the per capita food threshold to the total number of families/ individuals.

Wholesale Price*** - the average price of a commodity transacted in bulk for further resale or processing.

Wholesale Price Index (WPI)*** - statistical measure of average changes over time in the wholesale prices of commodities relative to a base year.

INDUSTRY

Approved Foreign Direct Investment* - represent the amount of contribution or share of nonresidents in investment projects within the Philippine economic territory as approved by investment promotion agencies such as the Board of Investments, Philippine Economic Zone Authority, Subic Bay Metropolitan Authority and the Clark Development Corporation, and other government entities as may be created for the same purpose. Approved foreign direct investments do

not represent actual investments generated but rather investment commitments, which may or may not be realized immediately or in the future. These consist of equity, loans and reinvested earnings.

Average Total Employment - arrived at by dividing the total employment during the pay periods, nearest the middle of each quarter (Feb. 15, May 15, Aug. 15, and Nov. 15) by four quarters. **(National Statistics Office)**

Capital Expenditures for Fixed Assets - include cost of acquisition of new and used fixed assets, fixed assets produced by the establishment for its own use, major alterations, additions and improvements to fixed assets, whether done by others, or done on own account. **(National Statistics Office)**

Capital Increase - the additional funds put into the capital stock of existing business firms. **(Bangko Sentral ng Pilipinas)**

Capital Investment - the amount of capital invested by a newly registered organization whether a corporation, partnership or single proprietorship. **(Bangko Sentral ng Pilipinas)**

Capital Withdrawal - the retirement and/or redemption of capital funds of business firms. **(Bangko Sentral ng Pilipinas)**

Census Value Added - represents the difference between the value of output and the total costs of materials and supplies consumed, fuels purchased, electricity purchased, industrial services done by others and goods purchased and resold

Cost - all expenses whether paid or payable incurred during the year including interest expenses and indirect taxes and other charges. Valuation is usually at market price, net of discounts, rebates, returns and allowances. **(National Statistics Office)**

Direct investment enterprise in the Philippines Balance of Payments* - an incorporated enterprise in which a foreign investor owns 10 percent or more of the ordinary shares or voting power for an incorporated enterprise or an unincorporated enterprise in which a foreign investor has equivalent ownership. Ownership of 10 percent of the ordinary shares or voting stock is the guideline for determining the existence of a direct investment relationship. An "effective voice in the management", as evidenced by an ownership of at least 10 percent, implies that the direct investor is able to influence, or participate in, the management of an enterprise; absolute control by the foreign investor is not required.

Establishment - an economic unit which engages in one or predominantly one kind of economic activity at a fixed single physical location. **(National Statistics Office)**

Foreign Direct Investment* - the category of international investment made by a resident entity in one economy (direct investor) with the objective of establishing/obtaining a lasting interest in an enterprise resident in an economy other than that of the investor (direct investment enterprise). "Lasting interest" implies the existence of a long-term relationship between the direct investor and the enterprise and a significant degree of influence by the direct investor on the management of the direct investment enterprise. Direct investment involves both the initial transaction between the two entities and all subsequent transactions between them and among affiliated enterprises, both incorporated and unincorporated.

Foreign Direct Investment in the Philippines Balance of Payments* - all equity investments by nonresidents in the Philippines, except equity securities transacted through the stock exchange that do not exceed 10 percent of the total shares of the resident enterprise. It is assumed that a nonresident investor has a significant influence in management and expresses lasting interest in or relationship with the resident enterprise in which they invest. These include the following major investment:

Foreign Equity Capital - comprises: (i) equity in branches; (ii) all shares in subsidiaries and associates (except nonparticipating, preferred shares that are treated as debt securities and included under direct investment, other capital); and (iii) other capital contributions of foreign investors in a direct investment enterprise.

Reinvested earnings and undistributed branch profits of foreign direct investment enterprises - comprised of foreign direct investors' shares in proportion to equity held, of earnings that foreign subsidiaries and associated enterprises do not distribute as dividends (reinvested earnings), and earnings that branches and other unincorporated enterprises do not remit to foreign direct investors (undistributed branch profits).

Other foreign direct investment capital - covers the borrowing or lending of funds between foreign direct investors and subsidiaries, branches, and associates - including debt securities, suppliers' credit, and nonparticipating, preferred shares (which are treated as debt securities).

Investments - amount of money or other resources measured in terms of money placed on activities or other forms of assets for the purpose of earning profits. **(Board of Investment)**

Paid Employee - person working for and receiving pay from an establishment; includes the full time or part-time employee on paid leaves, e.g. paid vacation, maternity holiday or sick leave. Excludes consultants, home workers, workers receiving commissions and workers on indefinite leave. **(National Statistics Office)**

Registered foreign direct investments* - refer to original/initial and additional paid-up capital investments and contributions by non-residents as single proprietors as approved by the Department of Trade and Industry, or as incorporators and/or stockholders in newly-registered and existing domestic stock corporations and domestic partnerships as approved by the Securities and Exchange Commission. These include acquisition of shares in other SEC-registered companies by newly-registered and/or existing domestic stock corporations and domestic partnerships and exclude inter-company loans and statutory inward remittances and security deposits required from foreign corporations or multinational firms that have been licensed to operate in the Philippines.

Resident of an economy* - an entity that has a center of economic interest in the economic territory of a country usually indicated by a one-year stay in that economy. The one-year period is suggested only as a guideline and not as an inflexible rule.

Salaries and Wages - payments in cash or in kind prior to deductions for employees' contribution to SSS/GSIS, withholding tax, etc. to all employees. Included are total basic pay, overtime pay and other benefits. **(National Statistics Office)**

Shipments - the sale or inter-plant transfer of finished products from an establishment. **(National Statistics Office)**

Stocks - investments in shares of stock, common or preferred, traded, subsidiaries, and non-subsidiaries. **(Securities and Exchange Commission)**

Subscription Capital - that portion of the authorized capital which has been underwritten by the stockholders. **(Bangko Sentral ng Pilipinas)**

Total Receipt (Revenue/Sales) - includes the value/cash received and receivables for products shipped, goods sold and transferred and industrial and non-industrial services rendered to others. **(National Statistics Office)**

Value of Output - represents the total value of products sold, receipts from contract work and industrial services done for others, receipts from goods bought and sold in same conditions, fixed assets produced on own-account and change in inventories (ending less beginning of finished products, work-in process and goods for release). **(National Statistics Office)**

LABOR AND EMPLOYMENT

Actual Strike - any temporary stoppage of work by the concerted action of the employees as a result of an industrial or labor dispute. This may include slow down, boycott, sit-down, mass leave, attempts to damage, destroy or sabotage plant equipment and facilities and similar activities:

- **Boycott** - concerted action by employees and their union to refrain from working with the establishment
- **Mass Leave** - concerted work stoppage where the union or the workers avail en masse of their paid leaves under their Collective Bargaining Agreement (CBA) or by law or where said workers/union go on massive Absence Without Official Leave (AWOL)
- **Sit-down** - concerted work stoppage where workers refuse to work inside a factory or establishment after punching their time cards

Collective Bargaining Agreement (CBA) - the negotiated contract between a legitimate labor organization and the employer concerning wages, hours of work, and all other terms and conditions of employment in a bargaining unit, including mandatory provisions for grievance and arbitration machinery. **(Bureau of Labor and Employment Statistics)**

Deployed Overseas Filipino Workers - recruited worker who leaves for an overseas job with the pre-condition that employment/travel documentation papers are processed by Philippine Overseas Employment Administration (POEA) and his/her departure is actually recorded at the Labor Assistance Center at the Ninoy Aquino International Airport. **(Bureau of Labor and Employment Statistics)**

Employed - include all those who, during the reference period are 15 years old and over as of their last birthday and are reported either:

At work. Those who do any work even for one hour during the reference period for pay or profit, or work without pay on the farm or business enterprise operated by a member of the same household related by blood, marriage or adoption; or

With a job but not at work. Those who have a job or business but are not at work because of temporary illness/injury, vacation or other reasons. Likewise, persons who expect to report for work or to start operation of a farm or business enterprise within two weeks from the date of the enumerator's visit, are considered employed. **(National Statistics Office)**

Employment Rate - proportion in percent of the total number of employed persons to the total number of persons in the labor force. **(National Statistics Office)**

Household - an aggregate of persons, generally but not necessarily bound by ties of kinship, which live together under the same roof and eat together or share in common the household food. Members comprise the head of the household, relatives living with him and other persons who share the community life for reasons of work or other consideration. A person who lives alone is considered a separate household. **(National Statistics Office)**

Labor Force - the population 15 years old and over whether employed or unemployed who contribute to the production of goods and services in the country. **(National Statistics Office)**

Labor Force Participation Rate - proportion in percent of the total number of persons in the labor force to the total population 15 years old and over. **(National Statistics Office)**

Land-Based Workers - a contract worker other than a seaman including workers engaged in offshore activities whose occupation requires that majority of his working/gainful hours are spent on land. **(Bureau of Labor and Employment Statistics)**

Man-Days Lost – total number of man-days lost due to strikes or lockouts declared. It is computed by multiplying the number of workers involved in the strike or lockout by the total number of working days lost or made idle due to the strike/lockout. **(Bureau of Labor and Employment Statistics)**

Nominal Minimum Wage Rate - the lowest basic wage rate that an employer can pay his/her workers as fixed by the Regional Tripartite Wages and Productivity Board (RTWPB), which is not lower than the applicable statutory minimum wage rate. This includes mandated Cost of Living Allowance (COLAs), if any. **(Bureau of Labor and Employment Statistics)**

Notice of Lockout – the notification filed by an employer with the appropriate National Conciliation and Mediation Board (NCMB) regional branch about its intention to temporarily cease its operation because of the allegations by a duly registered labor union of unfair labor practice act/s or because of a deadlock in collective bargaining negotiations. **(Bureau of Labor and Employment Statistics)**

Notice of Strike – the notification filed by a duly registered labor union with the appropriate NCMB regional branch about its intention to go on strike because of alleged commission by the employer of unfair labor practice act/s or because of a deadlock in collective bargaining negotiations. **(Bureau of Labor and Employment Statistics)**

Overseas Contract Workers (OCW) - any individual who was or presently engaged in gainful employment in a foreign country, covered by a specific “contract of employment” defining the terms and conditions of that employment and the employer-employee relationship, provided that the herein referred contract was approved for implementation/application by the Philippine Overseas Employment Administration (POEA) and the deployment/mobilization having been authorized by the POEA and provided further that the corresponding Welfare Fund Contribution having been paid at the time of employment processing at POEA or at any time thereafter as in the case of legitimized overseas contract worker, the latter gaining recognition thru the process of latent legitimacy in accordance with applicable rules and policies in applicable case/s. The OCW may be landbased or seabased

Overseas Filipino Worker (OFW) – a Filipino worker who is to be engaged, is engaged, or has been engaged in a remunerated activity in a country of which he/she is not a legal resident. **(Bureau of Labor and Employment Statistics)**

Processed Overseas Filipino Workers – recruited worker whose contract and travel documents have been verified and validated through the Contract Processing Department of the POEA and is to be deployed for a specific period of time. **(Bureau of Labor and Employment Statistics)**

Real Minimum Wage Rate – the minimum wage deflated by the current Consumer Price Index (CPI). **(Bureau of Labor and Employment Statistics)**

Rural Area – an area not falling under any of the classifications of an urban area. **(National Statistics Office)**

Sea-Based Worker – any person employed in a vessel engaged in maritime navigation. Also called a seaman. **(Bureau of Labor and Employment Statistics)**

Strike – any temporary stoppage of work by the concerted action of the employees as a result of an industrial or labor dispute. Includes actual strike (with or without notice) filed at appropriate NCMB regional branches. **(Bureau of Labor and Employment Statistics)**

Underemployed – include all employed persons who express the desire to have additional hours of work in their present job or an additional job, or to have a new job with longer working hours. **(National Statistics Office)**

Underemployment Rate – proportion in percent of the total number of underemployed persons to the total number of employed persons. **(National Statistics Office)**

Unemployed**** - include all persons who are 15 years old and over as of their last birthday and are reported as:

without work , i.e., had no job or business during the basic survey reference period; AND

currently available for work , i.e., were available and willing to take up work in paid employment or self employment during the basic survey reference period, and/or would be available and willing to take up work in paid employment or self employment within two weeks after the interview date; AND

seeking work, i.e., had taken specific steps to look for a job or establish a business during the basic survey reference period; OR not seeking work due to the following reasons: (a) tired/believe no work available, i.e., the discouraged workers who looked for work within the last six months prior to the interview date; (b) awaiting results of previous job application; (c) temporary illness/disability; (d) bad weather; and (e) waiting for rehire/job recall.

Unemployment Rate – proportion in percent of the total number of unemployed persons to the total number of persons in the labor force. **(National Statistics Office)**

Union – any registered group or association of employees that exist in whole or in part for the purpose of collective bargaining or of dealing with employers concerning terms and conditions of employment. A union may be formed in the private or public sector. **(Bureau of Labor and Employment Statistics)**

Visibly Underemployed Persons - those who worked for less than 40 hours during the reference period and want additional hours of work

POPULATION AND HOUSING

Household*** - a social unit consisting of a person living alone or a group of persons who sleep in the same housing unit and have a common arrangement in the preparation and consumption of food.

Housing Unit - a structurally separate and independent place of abode which, by the way it has been constructed, converted or arranged is intended for habitation by one household. Structures or parts of structures which are not intended for habitation such as commercial, industrial, and cultural buildings or natural and man-made shelters such as caves, boats, abandoned trucks, culverts, and others, but which are used as living quarters by households.

Human Development Index*** - a measure of how well a country has performed, not only in terms of real income growth, but also in terms of social indicators of people's ability to lead a long and healthy life, to acquire knowledge and skills, and to have access to the resources needed to afford a decent standard of living.

Life Expectancy*** – represents the average number of years remaining to a person who survives to the beginning of a given age or age interval x.

Life Expectancy at Birth*** – is defined as the number of years a newborn child can be expected to live under a given mortality condition of an area in a given year

Marital Status*** - status of an individual in relation to marriage, classified as follows: a) Single - A person who has never been married; b) Married - A couple living together as husband and wife,

legally or consensually; c) Divorced - A person whose bond of matrimony has been dissolved legally and who therefore can remarry; d) Separated - A person separated legally or not from his/her spouse because of marital discord or misunderstanding; and e) Widowed - A person whose bond of matrimony has been dissolved by death of his/her spouse.

Medium Assumption - moderate fertility decline and moderate mortality decline

Migration*** - the movement of people across a specific boundary for the purpose of establishing a new or semi-permanent residence. Two distinct types are international migration (migration between countries) and internal migration (migration within a country).

Population*** - total number of individuals in a territory at a specified time. It covers both nationals and aliens, native and foreign-born persons, internees, refugees and any other group physically present within the borders of a country at a specified time. In assembling national demographic statistics for publication, the basic aim has been to obtain data for the physically present (or "de facto") population rather than for the legally established resident (or "de jure") inhabitants.

Population Density*** - refers to the number of persons per unit of land area (usually in square kilometers). This measure is more meaningful if given as population per unit of arable land.

Population Distribution*** - the patterns of settlement and dispersal of a population.

Population Growth Rate*** - indicates how fast a population increases or decreases as a result of the interplay of births, deaths, and migration during a given period of time. Where the population is closed, meaning no migration, the population growth rate is the same as the rate of natural increase, i.e., the difference between the number of births and the number of deaths during a specified period of time. The three methods for computing the rate of growth based on the assumption with respect to the change are: arithmetic change, geometric change and exponential change.

Population Projections*** - computation of future changes in population numbers, given certain assumptions about future trends in the rates of fertility, mortality and migration. Demographers often publish high, medium, and low projections of the same population based on different assumptions of how these rates will change in the future.

Sex Ratio*** - the number of males per 100 females in a population.

Total Fertility Rate*** - the average number of children that would be born alive to a woman (or group of women) during her lifetime if she were to pass through her childbearing years conforming to the age specific fertility rates of a given time period.

PUBLIC ADMINISTRATION

Barangay - the smallest political unit into which cities and municipalities in the Philippines are divided. It is the basic unit of the Philippine political system. It consists of less than 1,000 inhabitants residing within the territorial limit of a city or municipality and administered by a set of elective officials, headed by a barangay chairman (punong barangay).

Current Operating Expenses - amount budgeted for the purchase of goods and services for the conduct of normal government operations within the budget year. It includes goods and services that will be used or consumed during the budget year.

Capital Outlays - amount budgeted for the purchase of goods and services, the benefit of which extend beyond the budget year and which add to the assets of the government. Also includes equity investments in the capital stock of government owned or controlled corporation.

Capital Revenue - resources realized from the sale of fixed or capital assets, such as building, equipment, machine and intangibles

City - there are three classes of cities in the Philippines: the highly urbanized, the independent component cities which are independent of the province, and the component cities which are part of the provinces where they are located and subject to their administrative supervision.

Current Surplus - excess of revenues over expenditures.

Debt Service - the sum of loan repayments, interest payments, commitment fees and other charges on foreign and domestic borrowings.

Defense - this covers expenditures for military and para-military services for use against external aggression and suppression of subversion and other organized movement to overthrow the government

Deficit - shortfall/deficiency of revenues over expenditures of the government.

Extraordinary Income - collections derived from the repayment of loans and advances made by the government as well as from other non-recurring sources.

Financing Account - means of funding government expenditure consisting of domestic and external borrowing less amortization and changes in government holding of cash to cover the differences between total revenue and total expenditures of the national government.

General Public Services - this covers expenditures for services which are indispensable to the existence of an organized state and cannot be allocated to specific sectors or subsectors. This includes executive and legislative services; overall financial and fiscal services; civil services; planning; conduct of foreign affairs; general research, public order and safety and centralized services.

Government Securities or Treasury Bills - bills issued by the Bureau of Treasury as agent of the government.

Grants - all non-repayable transfers received from other levels of government or from private individuals, or institutions including reparations and gifts given for particular projects or programs, or for general budget support.

Municipality - is a political corporate body which is endowed with the facilities of a municipal corporation, exercised by and through the municipal government in conformity with law. It is a subsidiary of the province which consists of a number of barangays within its territorial boundaries, one of which is the seat of government found at the town proper (poblacion).

Net Lending - advances by the national government for the servicing of government guaranteed corporate debt during the year, net of repayments on such advances. Includes loans outlays or proceeds from program loans lent to government corporations.

Non-Tax Revenue - revenue collected from sources other than compulsory tax levies. Includes those collected in exchange for direct services rendered by government agencies to the public, or those arising from the government's regulatory and investment activities.

Personal Services - provisions for the payment of salaries, wages and other compensation (e.g., merit, salary increase, cost of living allowances, honoraria and commutable allowances) of permanent, temporary, contractual and casual employees of the government.

Province - the largest unit in the political structure of the Philippines. It consists, in varying numbers, of municipalities and, in some cases, of component cities. Its functions and duties in relation to its component cities and municipalities are generally coordinative and supervisory.

Public Sector - consists of the National Government, local governments, government-owned or controlled corporations and government monetary institutions

Revenue - a cash inflow which does not increase the liability of the government.

Sectoral Allocation of Expenditures - this categorize the purpose of government expenditure. The classification focuses on the purposes for which outlays are made, irrespective of the agency of government through which they were made

Taxes on Domestic Goods and Services - taxes levied on the domestic production, sale or transfer, leasing, use or delivery of goods, and rendering of services.

Taxes on Income and Profit - taxes imposed on all taxable income earned or received by a taxpayer whether an individual, partnership, or corporation, during a particular period of time, usually lasting one year.

Taxes on International Trade and Transactions - the sum of import and customs duties, and other international trade-related tax collections of the national government.

Taxes on Property - taxes imposed on the ownership of wealth or immovable properties and on the transfer of real or personal properties, both tangible and intangible.

Source: **Department of Budget and Management**

PUBLIC ORDER, SAFETY AND JUSTICE

Crime - is an act in violation of penal law. For statistical purposes, only crimes reported to authorities are covered.

Index Crimes - refer to those violations of the penal code considered to have socio-economic significance, and occur with sufficient regularity to be meaningful. These include crimes versus person (murder, homicide, physical injury and rape), and crimes versus property (robbery and theft).

Non-Index Crimes - refer to all other crimes not classified as index crimes. These are mostly composed of victimless offenses (e.g., crimes against national security, crimes against the fundamental laws of the state, crimes against public order, crimes against public morals, and violations of special laws).

Crime Rate - is the number of reported crimes per 100,000 population.

Policeman-to-Population Ratio - is an indicator that measures the adequacy of the police force in its task of promoting peace and order, and of providing security to the people and property. It is computed by dividing the total population by the total number of policemen.

Fireman-to-Population Ratio - is an indicator that measures the adequacy of the firefighting manpower to safeguard the people and property. It is computed by dividing the total population by the total number of firemen.

Drug/Substance Abuse - is the misuse of any chemical, licit or illicit, which results in an individual's physical, mental/emotional or social impairment.

Human Rights - refers to any basic right or freedom to which all human beings are entitled, and in whose exercise a government may not interfere (including rights to life and liberty as well as freedom of thought and expression, and equality before the law).

Case Inflow (Courts) - refers to the summation of cases newly filed, cases revived/reopened, and cases received from other salas/courts during the reference period.

Case Outflow (Courts) - refers to the summation of cases decided/resolved, cases archived, cases transferred to other salas/courts, and cases with proceedings suspended during the reference period.

Court Caseload - refers to the summation of cases pending at the end of the preceding period, and of case inflow during the current period.

Cases Decided/Resolved (Courts) - refer to the cases that have been given decision based on merits, including those that have been dismissed, withdrawn, or amicably settled during the reference period.

Case Backlog (Courts) - refers to the total number of pending cases, i.e., those that have not been disposed of at the end of the reference period. It is derived by subtracting case outflow from court caseload.

Court Case Disposition Rate - refers to the ratio of total cases decided/resolved in a year over total cases filed. A ratio of less than one indicates an increasing backlog; greater than one, decreasing backlog; and equal to one means that the backlog is being maintained.

Natural Disaster - refers to any sudden event produced by nature that causes great damage to the people and property such as typhoon, earthquake, volcanic eruption, etc.

SCIENCE AND TECHNOLOGY

Joint Research Projects/Ventures with the Private Sector - any project fully or partially financed by a Department of Science and Technology (DOST) Council or any private establishment/entity and undertaken by any of the DOST Research and Development Institutes.

Invention - any new, useful machine or device manufactured product or substance, process or any improvement thereof, that involves inventive act of degree more than the skills of expertise, artisan or mechanic; Any technical solution of a problem in any field of human activity which is new, involves an inventive step and is industrially applicable.

Industrial Design - any composition of lines or colors or any three-dimensional form, whether or not associated with lines or colors. Provided that, such composition or form should give a special appearance to and can serve as pattern for an industrial product or handicraft that are new or original.

Joint Research Projects/Ventures with the Private Sector - any project fully or partially financed by a Department of Science and Technology (DOST) Council or any private establishment/entity and undertaken by any of the DOST Research and Development Institutes.

Mark - any visible sign capable of distinguishing the goods (trademark) or services (service mark) of an enterprise and shall include a stamped or marked container of goods.

Patent – is a grant issued by the Philippine government giving an inventor the right to exclude others from making, using, selling or importing the product of his invention within the Philippine in exchange for his patentable information or disclosure.

Research and Development (R & D) Projects

- *Completed* – projects completed at various stages of the R&D spectrum, namely: basic research, applied research, experimental development, and pilot testing.
- *Supported/Assisted* – projects funded by DOST Councils or by DOST-Office of the Secretary (OSEC). These are projects given technical support by R & D Institutes.
- *Implemented* – projects implemented by R & D performing institutes like Information Technology Development Institute (ITDI) and Food and Nutrition Research Institute (FNRI).

Research Contacted – projects requested by private industries to R&D Institutes.

Scholarship - includes scholarships given by DOST Councils, SEI, PHSS, FPRDI, PAGASA, DOST, NRCP, and ESEP.

Technologies Commercialized – technologies that are adopted and used already.

- *Technologies Commercialized (New)* - technologies that are used for the first time.
- *Technologies Commercialized (Existing)* – technologies that have been adopted and are already being used.

Technologies Diffused – technologies disseminated through trainings, demonstration, and techno packages.

- *Technologies Diffused (new)* – technologies disseminated for the first time through trainings, demonstration, and techno packages.
- *Technologies Diffused (existing)* - technologies already disseminated or given through trainings, demonstrations, and techno packages.

Trademark - Includes individual names and surnames, firm names, tradenames, devices or words used by one to identify his business, vocation, or occupation.

Tradename - Includes any word, name, symbol, emblem, sign, or device or any combination thereof used to identify one's goods and distinguish them from those of others.

Transfer Payment - unilateral payments made by the government to households, non-profit institutions, other government and government corporation (these are in the form of grants, subsidies and contributions, awards and indemnities, retirement benefits and other claims).

Utility Model – any technical solution of a problem in any field of human activity which is new and industrially applicable.

Source: Department of Science and Technology (DOST) and Intellectual Property Office, Department of Trade and Industry

SOCIAL SERVICES

MEDICARE Insurance Fund - fund set aside for payment of claims of members against hospitalization, surgical and medical expenses.

Social Services - this covers expenditures for education, health, social security, labor and employment, housing and community development and other social activities.

Women in Especially Difficult Circumstances

Battering - an act of inflicting physical harm on a woman resulting to physical and psychological/emotional distress preventing her from doing what she wishes or forcing her to behave in a manner that is unacceptable to her.

Illegal Recruitment - refers to victims who were recruited usually for a fee for various forms of local or foreign employment but ended up being victimized, i.e., no job placement were effected or who actually job-placed but under exploitative/oppressive conditions (low salaries, long hours of work, etc.) and have lost their jobs.

Involuntary Prostitution - refers to victims who were recruited for various forms of employment such as receptionists, waitresses, entertainers, dancers, household help who are later on forced into prostitution.

Sexual Abuse - an act, which is sexual in nature, committed against a woman without her consent. Sexual abuses include but are not limited to the following: rape, sexual harassment, acts of lasciviousness; treating a woman as a sex object; making demeaning and sexually suggestive remarks; physically attacking the sexual parts of her body; forcing her to watch pornographic video shows or see pornographic materials; catching the husband having sex with another woman in the marital bedroom; forcing the wife and mistress to sleep with the husband in the same room.

Trafficking in Women - the act of recruiting and transporting a woman within and across national borders for work or services by means of violence or threat of violence, abuse of authority or dominant position, debt-bondage, deception or other forms of coercion.

Acts of Lasciviousness - acts that are lascivious in nature, which include but are not limited to intentional touching, either direct or through clothing, of the genitalia, anus, groin, breast, inner thigh or buttocks; or the introduction of any object into the genitalia, anus or mouth of any child whether of the same or opposite sex with an intent to abuse, humiliate, harass, degrade, or arouse or gratify the sexual desire of any person; bestiality; masturbation; lascivious exhibition of the genital or pubic area of a person, etc.

Child Labor - the illegal employment of children below 15 years old, or those below 18 years old in hazardous occupation.

Child Prostitution - a practice where children, whether male or female, who for money, profit, or any other consideration, or due to the coercion or influence of any adult, syndicate or group, indulge in sexual intercourse or lascivious conduct.

Child Sexual Abuse - the employment, use, persuasion, inducement, enticement, or coercion of a child to engage in or assist another person to engage in sexual intercourse or lascivious conduct, or the molestation, prostitution, or incest with children.

Child Trafficking - the act of trading or dealing with children, including but not limited to, the buying and selling of children for money, or for any other consideration, or barter.

Children in Situation of Armed Conflict (CSAC) - children who are: a) members of displaced families as a result of armed conflict; b) physically weakened, orphaned or disabled as a result of armed conflict; c) combatants and those mobilized for other armed conflict-related activities; and d) disrupted from schooling due to armed conflict.

Incest - sexual abuse committed against a child by a person who is related to her/him within fourth degree of consanguinity or affinity and who exercises influence, authority or moral ascendancy over her/him.

Neglect - failure to provide, for reasons other than poverty, adequate food, clothing, shelter, basic education or medical care so as to seriously endanger the physical, mental, social and emotional growth and development of the child.

Pedophilia – an act of psycho-sexual perversion deriving gratification from child sexual abuse.

Rape - an act committed:

By a man who shall have carnal knowledge of a child under any of the following circumstances:

- through force, threat or intimidation;
- when the child is deprived of reason, or otherwise unconscious;
- by means of fraudulent machination or grave abuse of authority; and
- when the offended party is under 12 years of age or is demented, even though none of the circumstances mentioned above be present.

By any person who, under any of the circumstances mentioned in par. 1 hereof, shall commit an act of sexual assault by inserting the penis into a child's mouth or anal orifice, or any instrument, object, or any other part of the body such as fingers or toes into the genital or anal orifice of a child.

TOURISM

Accommodation Establishment* – any establishment, which on a regular basis, provides for a fee facilities for overnight stays as its main business. It includes not only hotels and similar traditional forms of accommodation but also non-traditional forms of accommodation such as resorts, tourist complexes, camping sites, youth hostels, private apartments, villas and furnished rooms in private houses, and the likes.

Available room* – A room in an accommodation establishment available for sale on a given day.

Average Daily Expenditure* – Average consumption expenditure made by a visitor for one day of stay at a destination.

Country of Residence – consists of the country where she/he has lived for most of the past year (12 months), or for a shorter period if she/he intends to return within 12 months to live there.

Cruise Passengers – visitors who arrive to and depart from the Philippines on the same ship.

Domestic Tourism*** - tourism of resident visitors within the economic territory of the country of reference.

Excursionist – temporary visitor staying less than twenty-four hours in the country visited.

Inbound Tourism*** - tourism of non-resident visitors within the economic territory of the country of reference.

Occupancy* - the sale of an available room in an accommodation establishment in a given day.

Occupancy Rate* - the proportion of occupancy to available rooms in an accommodation establishment over a period of time.

Outbound Philippine Residents - covers the departures of Filipinos who are permanent residents of the Philippines as well as aliens and naturalized citizens of the Philippines with permanent residence in the country.

Outbound Tourism*** - tourism of resident visitors outside the economic territory of the country of reference.

Overseas Filipinos - Filipino nationals residing permanently abroad who are visiting the Philippines for a period not exceeding one year.

Purpose of Visit* - the motivation for or objective of the trip in the absence of which the trip would not have taken place.

Resident*** - an institutional unit is resident in a country when it has a center of economic interest in the economic territory of that country.

Center of economic interest*** - it is said to have a center of economic interest when there exist some location-dwelling, place of production or other premises - within the economic territory on, or from, which it engages, and intends to continue to engage, in economic activities and transactions on a significant scale either indefinitely or over a finite but long period of time.

Room Accommodation* - A room in an accommodation establishment available for occupancy by a visitor or guest for a specified period of time.

Tourism*** - Comprises the activities of persons traveling to and staying in places outside their usual environment for not more than one consecutive year for leisure, business and other purposes not related to the exercise of an activity remunerated from within the place visited.

Tourist*** - visitor who stays one or more nights in the place visited.

Tourist Receipts - the receipts of a country in the form of consumption expenditures or payments for goods and services made by foreign visitors out of foreign currency resources.

Usual Environment*** - corresponds to the geographical boundaries within which an individual displaces himself/herself within his/her regular routine of life; consists of the direct vicinity of his/her home and place of work or study and other places frequently visited.

Visitor*** - any person traveling to a place other than that of his/her usual environment for less than 12 months and whose main purpose of trip is other than the exercise of an activity remunerated from within the place visited.

Visitor Arrivals - includes tourist, excursionists, aliens entering the country for a temporary stay not exceeding one year and for purposes other than immigration, permanent residence or employment for remuneration in the country and Filipino nationals residing permanently abroad on temporary stay in the Philippines not exceeding one year. This excludes the following: a) transit visitors and change-plan passengers who remain in the premises of the port of entry terminal; b) aliens with pre-arranged employment for remuneration in the Philippines, even if length of stay is less than 59 days; c) Filipinos living abroad, regardless of length of stay overseas who are not permanent residents

abroad; d) immigrants or aliens with permanent residence in the Philippines; e) Filipino overseas contract workers on home visits; and f) returning residents of the Philippines.

TRANSPORTATION AND COMMUNICATIONS

Freight - the price paid to a ship owner for the transportation of goods or merchandise by sea from one specific port to another. The word "freight" is also used to denote goods which are in the process of being transported from one place to another.

Mail - dispatches of correspondence and other objects tendered by and intended for delivery by means of the postal service.

Port - a sheltered harbor where marine terminal facilities are provided, consisting of piers or wharves at which ships berth/dock while loading or unloading cargo, transit sheds and other storage areas where ships may discharge incoming cargo, and warehouses where goods may be stored for longer periods while awaiting distribution or sailing.

Radio Stations - one or more transmitters or receivers or a combination of transmitters and receivers including the accessory equipment, necessary at one location for carrying on a radio communication service. Each station shall be classified by the service in which it operates permanently or temporarily.

Telephone Density - the ratio of the number of telephones to total population at a given date. It is expressed as the number of telephone main stations per 100 persons.

VITAL, HEALTH AND NUTRITION

Barangay Health Stations - the primary health care facility at the barangay level where basic health services are delivered. (1998 Compendium of Social Statistics in the Philippines)

Child Mortality Rate (CMR)***** - the probability of dying between exact age one and age five, expressed as the number of deaths of children from exact age one to less than age five during a given period per 1,000 children surviving to age 12 months at the beginning of the period.

Contraceptive Prevalence Rate (CPR)***** - the proportion of currently married women in the reproductive ages of 15-49 years reporting current use of any contraceptive method.

Crude Death Rate (CDR)***** - the ratio of the number of deaths occurring within one year to the mid-year population expressed per 1,000 population.

Fetal Death Rate (FDR)***** - the ratio of the number of fetal deaths in a population occurring within a given period to the total number of live births and fetal deaths occurring within the same period, expressed per 1,000. Fetal Death (deadborn fetus) - death prior to the complete expulsion or extraction from its mother of a product of conception, irrespective of the duration of pregnancy. (WHO)

Hospital Bed-Population Ratio***** - the ratio of hospital beds to the population, usually expressed as the number of available hospital beds for every 1,000 population.

Hospital Bed Occupancy Rate***** - the number of in-patient hospital beds occupied divided by the average number of hospital beds, expressed in percent.

Incidence Rate (of a disease)***** - the rate at which new cases of a disease occur in the population. The numerator is the number of new cases of a disease that occur during a given period (usually a year), and the denominator is the number of the population at risk of experiencing the disease during the same period, usually expressed as the number of new cases per 100,000 persons.

Infant Mortality Rate (IMR)***** - the probability of dying between birth and age one, expressed as the number of infant deaths or deaths occurring before reaching 12 months of life in a given period per 1,000 live births.

Maternal Mortality Ratio (MMR)***** - the ratio between the number of women who died (for reasons of pregnancy, childbirth and puerperium) to the number of reported livebirths in a given year, expressed as the number of maternal deaths per 100,000 live births

Mean Age at Death***** - the arithmetic average of the ages at death occurring in a population during a given year. (GTS)

Median Age at Death***** - the median of the ages at death occurring in a population during a given year which divides the total number of deaths in a population classified by age into equal halves.

Morbidity***** - the frequency of disease and illness, injuries, and disabilities in a population.

Prevalence Proportion***** - the total number of persons who have an attribute or disease at a particular point in time divided by the size of the population at risk of having the attribute or disease at this point in time (or midway through the period), usually expressed as the number of cases per 100,000 persons.

Under Five Mortality Rate (U5MR)***** - the probability of dying between birth and age five, expressed as the number of deaths below age five per 1,000 live births during a given period.
